FAIR JUDGES PROBLEM

A meeting of the Stirling Agricultural Society was held in the Agricultural office last Thursday night, with a fair attendance. Preparations were started for the holding of the big Fall Fair, September 19-20, this year, and the usual pre-seasonal difficulties confronted the Society. One of these is the matter of judges. For several years, what are known as departmental judges have been secured. They are practical men and women from various points throughout the province and are supplied by the department of agriculture at a charge of \$6.00. Months before its fair is to be held an agricultural society intimates to the department that it wants a certain number of judges; at fair time they come, do their work, and go. The society pays the nominal sum to the department for their services and the department makes up the balance.

Now, with a shortage of funds, the department has stated that it will no longer be responsible for supplying judges. Fairs must stand on their own feet in this matter. Judging exhibits, then, will probably cost considerably more in future than in the past, inasmuch as an agricultural society must pay both their salaries and expenses. Judges from nearby communities, no matter how competent, might conceivably be accused of partiality; on the other hand, to procure similar men from a distance could easily pile up travelling expenses to an unwholesome total. It's going to be somewhat of a problem for the directors of the Stirling Fair. However, several names of judges in the district are being considered.

The Society received a cheque for \$80 as its share of the dance.

The prize lists will be revised in the near future and a canvas will be made for membership, etc. The Directors and members solicit the earnest support of residents of the district to make this year's fair the usual success.

57 WRITE ENTRANCE

Fifty-seven pupils, including fourteen from Stirling P. S. wrote their high school entrance examinations in Stirling this week — they were concluded yesterday. There were twenty-four boys and thirty-three girls. Last year sixty-four tried the entrance exams here.

TALL SWEET CLOVER

Mr. Frank Stapley presented the News-Argus with a stalk of sweet clover on Tuesday morning that measured eight feet and four inches. He had picked it off his farm — "Pine Grove Farm" — Madoc Junction, that morning. This is the tallest sample of this "cow fodder" the writer has ever seen. Can anyone beat it?

TAX COLLECTIONS GOOD

Mr. J. M. Magee, local tax collector, reported to the Council on Monday night's meeting that \$9187.44, or practically all of the first instalment of this year's taxes had been collected. This is nearly half the taxes and is indeed a remarkable showing and speaks highly of the determination of the ratepayers to pay their taxes.

SCHOOLS CLOSED

The schools are closed for the summer vacation — last Thursday being the final day for public schools. On Monday, Tuesday and yesterday, pupils wrote their high school entrance exams, and upper school High School students will complete their exams this week.

The re-opening of the Public and High schools on September 5 is provided in the new regulations of the Department of Education which state that, when September 1 falls on a Friday, schools shall be opened on the following Tuesday. September 1 will fall on a Friday this year.

Tennis Tournament
Creates Interest

Considerable interest has been evident in the singles tournament at the local tennis courts, which has been under way for the past two weeks. A great deal of talent has been unearthed and all the games have been well contested. Those who survived the tests and reached the semi-finals and finals have well earned the honour. Some of the players were new to the game a year ago, and what skill they have developed has been the result of concentrated effort and continual practice. The results of the ladies' tournament, the finals of which have not yet been played off, are as follows:

J. McCubben vs. M. Demorest — M. Demorest.

J. Moffat vs. R. Martin — R. Martin.

A. Calow vs. Mrs. Pedley — Mrs. Pedley (4-6) (6-2) (7-5).

Mrs. H. Lovibond vs. H. Mallory — Miss Mallory (6-1) (6-0).

(The scores of the first two games are not available.)

In the second series unfortunately Mrs. Pedley was forced to withdraw and Miss Calow completed the round in her place losing to Miss Mallory (2-6) (6-2) (7-5). Miss Demorest won her set with Miss Martin (6-4) (6-4). The finals with M. Demorest vs. H. Mallory will be played later, owing to the illness of Miss Demorest.

The results of the men's games follow:

In the first series Lovibond won from Craven; Baleman won from A. Gould (6-1) (6-2); Joblin won from Duff (6-1) (6-4); Pedley won from Dobbie (6-0) (14-12); Potts won from McGee (1-6) (6-2) (6-1); Lamb won from Bibby (6-2) (6-4); Baker won from Martin (6-3) (7-5); Dargavel won from Bailey (3-6) (8-6) (6-3).

In the second series Baleman won from Lovibond (6-4) (2-6) (7-5); Joblin won from Pedley (6-2) (6-1); Potts won from Lamb (6-1) (6-3); Baker won from Dargavel (7-5) (2-6) (8-6).

In the semi-finals Baleman defeated Joblin (6-3) (1-6) (6-4) and Potts defeated Baker (6-2) (6-0).

In the final, played last night, a very fast and evenly matched game resulted in a win for Potts from Baleman (7-5) (6-4).

There will be no evening service in St. Andrew's Presbyterian Church during July and August.

NEW RECTOR

Announcement was made in Brockville yesterday by Rev. John Lyons, Bishop of Ontario Diocese, of the appointment of Rev. A. S. McConnell, incumbent of the parish of Loughborough, that district, to be rector of the parish of St. John's Church, Stirling, and Trinity Church, Frankford. Rev. Mr. McConnell will assume his new duties on August 1st. He succeeds Rev. B. F. Byers, who has retired after over twenty-eight years' service in this parish.

WON WATER JUGS

A mixed rink of local bowlers, composed of Mr. and Mrs. R. W. McKeljohn, Mrs. W. J. Whitty and Mr. J. S. Morton, skip, took part in the tournament held in Campbellford yesterday. Eighteen rinks were in the contest. The Stirling quartette tied with a Kingston rink for first place and lost out in the play-offs, thereby winning second prize of silver water jugs. The first prize was a silver tea service for each bowler. A Campbellford rink won third prize of a silver cream and sugar dish and tray. Stirling bowlers have gained a prize-winning reputation in outside centres, having won a prize at every outside tournament they have entered this year.

CROPS NEED RAIN

Although last week's rains eased things about the county, crops could stand a little more rain, according to reports from farmers in different sections submitted to the News-Argus. The strawberry crop, which is now about halfway for the season, was down in its yield as a result of the drought but other crops suffered no extensive damage. About 75 per cent of the hay in the southern township of the county is cut but haying in the northern parts has been slower. Indications are for a very early harvest of wheat in the county. A few fields are beginning to turn now. A good average wheat crop is expected. Garden crops have been generally good throughout the county with good yields up to the present. Spring crops are looking well.

A communication was received from P. Long, requesting a license for a billiard room. He assured the Council it would be operated at a credit to the village. This was also laid over as all Councillors were not present.

Mr. Ezra Nicolson interviewed the Council regarding business tax on outside trucks. He felt that out-of-town draymen or truckers should be compelled to pay a business tax or license. This matter will be investigated and dealt with at a future meeting.

A letter was received from the Raynor Construction Co., stating that there would be a member of their firm in the village by June 15 - 16 to investigate repairs needed to the streets. However the date has passed and no inspection has been made.

Councillor Burkitt gave notice that he would at the next meeting introduce a by-law to appoint the Village Constable as a Constable under the Liquor Control Act.

The question of the error in J. C. McGee's assessment for last year, was discussed and will be adjusted.

The Street Com. was instructed to have catch basins in the business section cleaned out; also that the ditch on the Campbellford road, particularly in front of S. A. Murphy's residence, be cleaned up.

Mr. Frank Stapley again desired to know if it were possible to buy or lease the pond for water-wheel power for his chopping mill. The Council refused to sell or lease without a vote of the property owners.

Wm. Ryckman wanted to know what the Council intended doing with the old plank off the Henry Street Bridge. The disposal of same was left in the hands of the Street Com.

CURRENT COMMENT

Where is the prophet who predicted a cool summer? Hot weather is again the order, after a cool week-end.

Cheese rose to a new high price on Saturday. Let us hope that the old saying that what goes up must come down does not apply for some time at least — if at all — to the price of cheese.

Stirling's juvenile swimming pool, at the Memorial Park is in operation again. Interested citizens put in the stop logs and cleaned it out last week. A light will be installed over the centre of the pool, to enable the kiddies to bathe on hot nights.

This is the time of year when youngsters discover that they cannot successfully cram into their heads in a couple of weeks what they ought to have been storing there gradually throughout the school term.

According to census bureau reports there were fewer marriages, also fewer divorces last year. Our answer for this is that folks who were not married could not afford to pay attention to Dan Cupid, while those who were married could not afford to get unmarried.

In press reports last week "Wheat takes another jump" appeared almost daily. If we could only read that about the prices of cheese and hogs in this district — it would bring great joy to urban residents as well as farmers.

The Deseronto Post reduced its size from a six to a five-column paper last week. The reduced size was found necessary from an economical standpoint. This again emphasizes that the weekly newspaper business has also been hard-hit during the depression.

We noticed in a Paris dispatch the other day that the French government has fixed 115 francs per quintal, or about \$2 a bushel as the minimum price for this year's wheat crop. France has long been far ahead of the rest of the world in regulating production, to insure agricultural prosperity.

We lost a rural subscriber on Saturday who gave his reason as: "I don't like some of the things you put in your paper." Sorry our views were too broadminded for him. The amusing part was that two subscribers, also rural, came into the office after his departure and commended us for two of the same articles which caused his condemnation. Such is the life of a newspaper publisher.

According to the Minister of Justice, last Saturday, Dominion Day, was a statutory holiday, and that penalties are provided in Section 164 of the Criminal Code for its non-observance. Stirling, however, changed its Dominion Day observance from Saturday to Monday and wouldn't it be sensational, if all the merchants, as well as the Editor, would be jailed for keeping their places of business open on Saturday.

We wonder what would happen if a war on Jews, similar to that waged in Germany, were to take place in the United States. At the present time there are several Jewish Governors and legislators in the Yankee country. Two states at the last elections chose Jewish governors, and

now New York, New Mexico, Illinois and Oregon have Jewish governors. Twelve states in the Union have seventy-eight Jewish members in their legislatures which does not look like anti-Jewish prejudice.

There are as many horses in the country as there ever were, but few of them make their appearance on the highways any more, except when attached to a milk wagon as it rumbles its morning way from the farm to the rural cheese factory, and on shopping nights, comes into the village. Horses, it seems, are stay-at-home creatures, if the figures for international traffic may be accepted. Last year only sixty-four horse-drawn vehicles were reported as crossing from Canada for periods ranging from one day to three months.

Take for the summer months — Miss Margaret Ann McGuire, Belleville returned home yesterday after spending a couple of days with Isabelle Dobbie, at Lake.

Miss Marie Demorest, daughter of Dr. and Mrs. J. S. Demorest, prevented a successful operation for appendicitis in Belleville hospital evening.

Misses Helen and Amy McTaggart, who have been staying with Mr. Matthews, and attending school, returned to their home in Thomas for the holidays.

The Human Brain

If you set down the figure 1 and then spend a few weeks putting down fifteen million ciphers after it you will have a number that would fill about thirty books of ordinary novel size. There is no name for a number of that magnitude. It goes beyond all human imagination. Yet that is, approximately the number of "telephone lines" which connect the individual brain cells with each other. Science now regards each cell as an electric battery, connected with all the others and the rest of the body by nerve filaments which transmit impressions and sensations much like a telephone system. There are perhaps fifteen billion cells in the average brain, arranged in orderly patterns. The power of the mind depends upon the number of these cells that are utilized.

Most of us use only a tiny fraction of our brains. Probably the ablest minds that ever functioned did not realize a tenth of their possible capacities. Men's minds grow by use, by the effort to think more and more clearly about new and unfamiliar things. Most of us are just too lazy to do our own thinking.

When The News-Argus Doesn't Come

The following has been handed in by a subscriber and is worthy of a place in our Editorial column.

My father says the paper he reads ain't put up right. He finds a lot of fault, he does, perusin' it all night. He says there ain't a single thing in it worthwhile to read. And that it doesn't print the kind of stuff the people need. He tosses it aside and says it's strictly on the bum— But you ought to hear him holler when the News-Argus doesn't come.

He reads the wedding's and he snorts like all get out. ? He reads the social doin's with a most drivin' shout. He says they make the paper for the women folks alone. He'll read about the parties and he'll fume and fret and groan;

He says of information it doesn't have a crumb— But you ought to hear him holler when the News-Argus doesn't come.

He's always first to grab it and he reads it plumb clean through.

He doesn't miss an item or a want ad — this is true. He says they don't know what we want, the dern newspaper guys.

I'm going to take a day sometime and go and put 'em wise; Sometimes it seems as though they must be blind and deaf and dumb;

But you ought to hear him holler when the News-Argus doesn't come.

marketing in Great Britain. The Ontario Marketing Board did the clerical work in connection with the transaction and arranged the business in England. Payment of 85 per cent. of the cheese was received several months after the shipment was made last October based at the price of cheese on the Belleville Board at the time. The balance would be forthcoming when the cheese was disposed of. The English people deemed cheese not fit for consumption until 12 months old and he felt assured the disposals of the cheese would yet be made advantageously to those who contributed to the experiment. It had been of educational value and worth while, even though a loss might be sustained.

Mr. Somerset said his Board had sent a carload of cheese to England previous to the carloads from Woodstock and Belleville and it had shown a considerable profit. The Woodstock and Belleville cheese had been forwarded to the same brokers who handled the Board's shipment, in order to demonstrate that better prices could be obtained by direct shipment than through selling to buyers in Ontario or Montreal commission houses.

Considerable of last October's shipments had been sold at 72 shillings compared with 64 and 68 shillings the price of the Boards. He expected the shipment to be cleaned up next month, the operation to date showed favourably. The payment of 85 per cent had been made when exchange was at its lowest, \$3.86, it was too bad the shipment had not been made when exchange was more favourable, but he felt assured those who had gone into the proposition who had had it been a worthwhile undertaking.

CHEESE MEN FORM NEW ORGANIZATION

S. M. Nicolson, of Belleville, was elected president of the Ontario Cheese Factory Patrons' Association at a conference held in Belleville City Hall, last Thursday. The new organization is for the purpose of improving conditions in the disposing of cheese and dairy products for the Province, and enthusiasm was expressed with regard to the future of the new body. C. W. Fraleigh, of Bloomfield, was the unanimous choice for secretary, while H. S. Margerison, of Appleton, was chosen vice-president. The following were chosen as directors: J. H. Ebbs, Perth; Geo. Van Volkenburg, R.R. No. 2, Hastings; and Frank Phillips, Mount Elgin. Fred R. Malloy, Frankford, secretary of the Central Ontario Cheese Factory Patrons' Association, was named as general organizer. Representatives of county organizations throughout the entire province were at the conference. G. H. Barr, Dairy Commissioner for Ontario; W. B. Somerset, chairman of the Ontario Marketing Board; Professor H. Sproule and Professor G. E. Rathly, of the Ontario Agricultural College, were the chief speakers.

CHEESE OVER 11c

At the Belleville Cheese Board on Saturday morning 1951 white and 75 coloured cheese were offered for sale and 11 3/4 cents was paid for selection of 308 and 11 1/4 cents and 11 1/4 cents for the balance of the board; a top advance of 3/4 cents over last Saturday's price. The price paid by buyers on Saturday was the highest paid for cheese on the Belleville Board in two seasons. The corresponding Saturday a year ago 2273 cheese were sold on the local board at 9 1/2 cents.

The following factories were represented, and with the exception of the cheese from Acme, all were white.

What Others Say

VILLAGES HAVE MANY ADVANTAGES

(Toronto Mail and Empire)

We are sometimes tempted to wonder why it is that so many people either do not see, or will not see, the obvious advantage of village, or even of very small town life. Instead, they crowd into the large cities where thousands have crowded before them, thinking, apparently, that if a living is to be found anywhere it will be in the great centres of population. Cheaper living — rental, food, fuel and sometimes, also certain types of clothing, are not the only advantages of village life. There are opportunities for turning the honest dollar that do not exist in the city. In the cities the little odd job is not done by the individual, but by a company, and companies demand dividends, and their administrators demand fat salaries. In the city the individual lives to support the middleman. In the village, if he has any snap about him, the individual makes much of his food. If the individual has no snap about him you can realize that he will not go far in the city, where keenness is a sine qua non.

TRIALS OF A TOWNSHIP TREASURER

(Municipal World)

Oh! The treasurer has woes which nobody knows except the poor mortal himself; when his township's in debt, he may worry and sweat, till he's ready to climb on the shelf, when the bank manager knocks he must sit on the box where the ratepayers' money should be, and just whittle and

laugh and throw off some chaff and tell him some tales of the sea.

When he goes to the phone to call up the zone in which his collector is dwelling, he hears some good dame who is just slightly lame, tell her friend that her tendons are swelling; then the measles and mums and the new-fangled hats come rolling right into the picture; how the chickens are hatching and the young couples are matching — it's sure a conglomerate mixture. Then he gets a big ride from the whole countryside about percentages placed on the taxes; there's talk of big mallets and marking their ballots and grinding and sharpening their axes. They have a big bunch they will fire the whole bunch who are causing the township such losses, while the heartbroken dog who is keeping their log becomes poorer each day in process.

Newspapers are like women because:
They have boldface type.
They are well worth looking over.
They have a great deal of influence.
They are thinner than they used to be.
Back numbers are not much in demand.
Every man should have his own and not run after his neighbour's.

None of us really have much sense, but probably it would do very well, if we only properly exercised what we have.

"Face facts!" says a newspaper headline. If what we have been facing the last two or three years aren't facts, the disguise has been perfect.

A newspaper reporter's idea of hades, according to a certain scribe, is a place where long-winded speakers have to sit on hard chairs and listen to long-winded speakers forever.

Jed—Isn't it awful that Pete Potter is going to get married?
Tim—What's awful about it, Jed?
Jed—Why Pete was such an easy chap to borrow money from!

July Bugs: From the size of the charge accounts, some Stirling men must be a CREDIT to their wives.
*** Boys, like street cars, may be easy to catch; but it just takes the girl to tell them where to get off.
*** Marriage seems to be as big a gamble as using the telephone. Half the girls appear to have gotten the wrong number.
*** How girls get in and out of love is as much a mystery as how some men get in and out of debt.
*** If the eyes are the window of the soul, the boy who spends his evenings looking into girls' eyes may only be window shopping.
*** Nothing so rare as an inferiority complex in a woman who has just caught her third husband.
*** A pretty girl and money are both accepted at their face value.
*** Joyful July says: "A bigamist is a man who believes two can live as cheaply as one."
*** A boy's word may be as good as his bond, but girls are too smart to take stock in what he says.
*** Boy friends seem a lot like other domesticated animals, they become quickly attached to anyone who pets them.
*** Modern couples pull together. While the husband is out bringing home the bacon, friend wife is out trying to bring home first prize.

Official—One of our trains killed them I suppose.

Railroad Agent—No, he says our trans go so slowly that the passengers lean out of the windows and milk the cows as they go by.

Emigrant—Oh, take up land.

Captain—Much?

Emigrant—Only a shovelful at a time.

How to Get Rich Quick: Organize the go-getters of your village into a club. At their first meeting they will start talking about taking the word "can't" out of the dictionary. Pretty soon someone will denounce Webster for ever putting it in. This is your cue. "Gentlemen," you say, getting the floor if you can (and every go-getter can), "I move we fine any member \$10 who uses this detestable word or any of its synonyms." A deafening roar of approval will greet the motion and it will be carried unanimously. After the meeting you call on each member of the club separately. "I'm a little hard up," you say, "can you lend me \$5 until Tuesday?" "Sorry, old man," each go-getter will begin, "but—". Then he will remember the fine. "Oh, sure I can," he will say.

After cleaning up from each member, you go to another town and do the thing all over again. Any good man ought to make two hundred a week until he's caught.

Woman—Why are you in mourning?
Neighbour—No, but he's behaved so badly that I have gone back into mourning for my first husband.

In the court room to the man who can tell the same story the same way, as often as he is asked to repeat it, is attached the label of honesty.

Joe—That took me in, too, until I noticed it was always the same sock.

It doesn't follow that a young man has artistic ability simply because he is able to draw a check on his dad's bank account.

Every man has his own way of doing and getting along. If it's a poor way, it's just too bad, for rarely does he ever change it.

Jimmy on being taken to see his brand new baby brother for the first time, gazed at him and then said: "My but you're a lucky kid. You won't have to wash your own ears for years and years."

A Springbrook youth who went back on his sweetie, said: "I thought it was a case of love at first sight, but I guess I must have been slightly cross-eyed."

Before St. Peter

(Read by Mrs. H. Hubel at Carmel League, June 9)
St. Peter stood guard at the Golden Gate

With a solemn mien and air sedate—
When up to the top of the golden stair
A man and a woman ascending there,
Applied for admission. They came and stood

Before St. Peter, so great and good;
In hope of the City of Peace to win.
And asked St. Peter to let them in.
The woman was tall and lank and thin,

With a scraggly beardlet upon her chin.
The man was short and thick and stout—
His stomach was built so it rounded out.

His face was pleasant and all the while
He wore a kindly and genial smile.

The chorus in the distance the echoes woke,
And the man kept still while the woman spoke.

"Oh thou who guardest the gate," she said,
"We two come hither beseeching thee
To let us enter the heavenly land,
And play our harps with the angel band."

Of me, St. Peter, there is no doubt,
There's nothing from heaven to bar me out.
I've been to meeting three times a week,
And almost always I'd rise to speak.

I've told the sinners about the day
When they'd repent their evil way.
I've told my neighbours, I've told them all
'Bout Adam and Eve, and primal fall.

I've shown them all what they'll have to do
If they pass in with the chosen few,
I've marked the path of their duty clear,
Laid out the plans of their whole career.

I've talked and talked to 'em loud and long,
For my lungs are good and my voice is strong.
So good St. Peter, you'll clearly see
The gate of heaven is open for me.

But my old man, I regret to say,
Hasn't walked exactly the narrow way.
He smokes and swears, and grays faults he's got—
And I don't know whether he'll pass or not.

He never would pray with an earnest vim,
Or go to revival, or join in a hymn.
So I had to leave him in sorrow there,
While I with the chosen united in prayer.

He ate what the pantry chose to afford,
While I, in my purity, sang to the Lord.
And if cucumbers were all he got,
It's a chance if he merited them or not.

But Oh, St. Peter, I love him so,
To the pleasures of heaven please let him go.
I've done enough, a saint I've been—
Won't that atone—can't you let him in?

By my karm gospel, I know 'tis so,
That the unrepentant must fry below.
But isn't there some way you can see
That he may enter who's dear to me?

It's a narrow gospel by which I pray,
But the chosen expect to find a way
Of coaxing, or fooling, or bribing you
So that their relations may amble through.

And say, St. Peter, it seems to me
This gate isn't kept as it ought to be.
You ought to stand right at the open-

ing there—
And never sit in that easy chair.
And say, St. Peter, my sight is dimmed.

But I don't like the way your whiskers are trimmed.
They're cut too wide, and outward toss—
They'd look better narrow, cut straight across.

Well, we must be going, our crowns to win,
So open, St. Peter, and we'll pass in.
St. Peter sat quiet, stroked his staff,
But spite of his office, he had to laugh.

Then he said, with a fiery gleam in his eye—
"Who's tending this gateway, you or I?"

And then he rose in his stature tall,
And pressed the button upon the wall
And said the imp who answered the bell:

"Escort this lady around to Hades!"
The man stood still as a piece of stone—
Stood sadly, gloomily, there alone.
A life-long, settled idea he had,
That his wife was good and he was bad.

He thought if the woman went down below,
That he would certainly have to go,
That if she went to the regions dim,
There wasn't a ghost of a show for him.

Slowly he turned by habit bent,
To follow wherever the woman went.
St. Peter, standing on duty there,
Observed that the top of his head was bare.

He called the gentleman back and said:
"Friend, how long have you been

wed?"
"Thirty years." (With a weary sigh,
And then he thoughtfully added,
"Why?"

St. Peter was silent with his head bent down,
He raised his head and scratched his crown.
Then seeming a different thought to take,
Slowly, half to himself, he spake:

"Thirty years with that woman there,
No wonder the man hasn't any hair.
Swearing is wicked, smoke's not good.
He smoked and swore—I should think he would.

Thirty years with that tongue so sharp,
Ho, Angel Gabriel! Give him a harp!
A jewelled harp with a golden string.
Good air, pass in, where the angels sing.

Gabriel, give him a seat alone,
One with a cushion up near the throne.
Call up some angels to play their best,
Let him enjoy the music and rest.

See that on finest ambrosia he feeds,
He's had all the Hades he really needs.
It is just hardly the thing to do—
To roast him on earth and the future too."

They gave him a harp with golden strings,
A glittering robe and a pair of wings.
He said as he entered the realm of day:
"Well, this beats cucumbers, anyway!"
And so the Scriptures had come to pass,
That "the last shall be first and the first shall be last."

CURE - YOUR - HAY

Spontaneous Combustion!

You may not believe in spontaneous combustion, but you do know that wet hay or grain will heat, so also will hay or grain that is dumped from fork or slings and not well spread.

The place to cure hay is in the field, not the mow. At the first of the season there is always the temptation to bring in hay that is a bit tough. This would not be so bad if it were at the top of the mow, but it's at the bottom instead. If you must bring in hay in this condition, salt it well, and spread it well. Half a pail of salt to the load isn't a bit too much. Help is cheap this year, keep enough of it in the mow.

Address and Presentation

On Monday the pupils of the Ridge Road School surprised their teacher, Evelyn McInroy, by gathering a few minutes before one o'clock and presenting her with a beautiful rose bowl. The following address was read by Leah Carr and the presentation made by Marion Richardson:

Dear Miss McInroy:—

Knowing that you are severing your connection with this school at the end of the present term, we, your pupils, are taking this opportunity of trying to express to you our appreciation of the efforts you have made in our behalf, and also our regret at losing you as our teacher.

During the five years that you have taught in our school you have given of yourself unstintingly and although at times we may have seemed careless and unappreciative, nevertheless we can assure you that those high ideals which you have so constantly set before us, and those lessons which were always so carefully prepared and presented to us, will not soon be forgotten, and we trust that in the future, our lives will show the benefits of your labours with us.

May this rose bowl ever remind you

of your pupils of the Ridge Road School and in a little way express to you our appreciation of your work, and our wish for your continued success in your new school.

MISS MCINROY THOUGHT THEM IN A few words for their gift and expressed her regret at leaving the pupils of Ridge Road School, with whom she had spent the past five years.

"BREAD"—The People's Cry

When people must have a thing, they will have it, even at the cost of revolution.

Cobden and Bright saved England from a threatened revolution by obtaining a repeal of the "Corn Laws" that resulted in a tax on Bread.

No country can with safety place an essential beyond the reach of all its people; and Bread is a vital necessity to everyday living.

WRIGHT'S BREAD

contains every ingredient to make it a perfect nourishing food. By substituting it for the more expensive foods, the same food-value is maintained and a surprising economy is effected.

Farewell to Miss Evelyn Neal

On Friday evening after the ball game the parents, pupils and members of the Allan School Section, together with a number of outside visitors numbering over one hundred and thirty gathered at Mount Pleasant Hall to bid farewell to their esteemed school teacher who has taught at the Allan School for the past four years.

Mr. Ross Hoard very capably handled the duties of chairman and paid a warm tribute of appreciation to Miss Evelyn Neal for her services here. He also graciously welcomed the West Huntingdon ball team and fans, Mr. and Mrs. Moore and party, of Detlor, and Mr. and Mrs. Richardson of Passaic, N.J., Misses Hazel and Lorena Neal, Mr. Roy and Master Tommie Neal, of Bonarlaw, Mrs. Dorothy Smith of Hamilton, and Mr. Geo. Carlisle. The chairman regretted the absence of the pastor, Rev. F. G. Joblin; the chairman of the trustees, Mr. Thomas McKeown, and the other trustee, Mr. Claude Sharp, who were unable to be present. The program consisted of the following numbers: all sang "The Maple Leaf" with Mrs. Ross Hoard at the piano; reading, Mrs. Thos. McKeown, "Mrs. Piper was a Widow"; instrumental music, piano, harmonica and kazoo, Mrs. Edgar McKeown, Mr. David Bell and Mr. Clifford Holmes; recitation, Miss Winnie Phillips, "The Middle Child"; song, Misses Marion and Ruthie Ross, "School Days", with Mrs. Kenneth Weaver as accompanist, and they sang the chorus in reply to the hearty applause; reading, Mrs. Frank Smith, "The Minister's Reception", when making his first call on his new appointment; song, the Boys' Junior Quartette, Messrs Percy Melville, Harry Campbell, Harold White and Bob Hedley with Miss Frances McKeown as accompanist, "Home on the Range" and as an encore "When It's Springtime in the Rockies"; reading, Mrs. Arthur Phillips, "Eaton's Bargain Sale". Miss Evelyn Neal was then invited to the platform and Miss Eileen MacMullen read the following address and Misses Eileen Phillips and Anna Sharp presented her with a lovely Tambour clock in a dark brown case, with a musical cathedral gong. Miss Neal, although greatly surprised, feelingly replied and graciously thanked her friends for their beautiful gift and said the clock as it struck off the hours would always bring to her happy memories and recollections of the pleasant faces of parents and pupils of the Allan School and she extended to all her warmest thanks for their gift. The gathering sang "For She's a Jolly Good Fellow". The ladies and older pupils then served a dainty lunch of sandwiches, cake and lemonade, and the West Huntingdon folk extended thanks for their invitation. The best wishes of the community go with Miss Neal as she journeys onward through life.

Stirling, Ont., R.R.3, June 30th, 1933.

Dear Miss Neal,—

It is with regret that we, your pupils and friends of S.S. No. 3, Rawdon, have gathered here tonight to say farewell to you before you depart from our midst.

Both in the section and in our school, we have esteemed you highly and words cannot express our gratitude to you, as you have laboured among us for the past four years.

We, as pupils, have often marvelled at your kind disposition and great patience, as you have guided our steps along the paths of learning. We know we have often tried your patience sorely, but in the years to

come we are sure your work will bear fruit, both by your teachings and the example you have set before us. Before each one of us lies the future, and may we say, you have played no small part in our young lives.

Our best wishes follow you and thus we ask you to accept our gift, and may we truly say:

"When the wonderful hues of sunset Turn to purple, green and gold, Then change to pink and crimson— Most gorgeous to behold.

It makes one think of you, Miss Neal, How as the days go by, You grow more beautiful it seems, Than the glorious sunset sky."

Signed on behalf of the pupils of S. S. No. 3, Rawdon—Anna Sharp, Eileen Phillips and Eileen MacMullen.

AWAKENED WOMAN

by ELINORE BARRY

SYNOPSIS

Synopsis: Joyce Ashton, poor stenographer, suffered loss of memory in a skidding taxicab accident in Chicago. One morning two years later she woke, after a fall from her horse, her memory restored, to find herself the wife of Nell Packard, rich California fruit packer. She determined to tell nobody of her predicament, but set about learning what she could of her life in the interval. From the conversation of her friends and letters in her desk she gathered that she had been a heartless, pleasure-loving young woman. One letter that troubled her was from a woman signing herself Sophie, blaming Frills for not giving a home to a baby Sophie was crying for. Could it be her baby? Frills wondered. She also found herself involved in an affair with a man named Maitland. In San Francisco, where she went while her husband was away on business, she met Robert Ainsworth, a poet whose work she had always admired. When Joyce returned home, she decided to be pleasant to Nell than Frills, dangerous, too. But this line was dangerous, too, for Nell was pathologically anxious to win back Frills' love. At his request Joyce called upon Nell's mother, whom Joyce finds adorable. Later she met the poet, Robert Ainsworth, and several times stopped for lunch at his cabin when she was horseback riding. One day he started to make love to her. Later Joyce and Nell, out riding, are come upon by Ainsworth. Cornered, Joyce makes full confession—her loss of memory and its restoration. When Nell accuses Joyce and Ainsworth of being in love, Ainsworth makes a "graceless" exit, leaving Joyce to explain. NOW GO ON WITH THE STORY.

"That's true, all right, and you had me guessing too. But of course Frills wasn't wild and reckless when I married her—you say? I don't know who I did marry!"

"That's what I've got to find out, Nell! It's been driving me nearly crazy, and now at last I've had the courage to tell the truth, as far as I know it. Will you tell me, Nell, how you met Frills and all that?"

"Why, at Joe and Maisie Turner's, of course! Don't you really remember, Frills—er, I mean Joyce? Gosh this gets my goat, I feel as though we'd all gone absolutely nutty."

"I felt that way when I first woke up and found myself Mrs. Packard," she said gently, "but I've lived with the idea so long that I've gotten used to it. Tell me about the Turners."

"Why it was their car that ran into your taxi in Chicago. Joe was running for some political office at the time, and he was very anxious to keep out of the papers in any way that might bring him any unpleasant publicity, so he gave the police a tip, I suppose, and got them to allow you to be taken to his house instead of to a hospital. You were unconscious for a couple of days, and when you woke up you were in a dazed condition. I remember Maisie saying to me that you never would say a word, and how queer it made them feel, having someone lying there conscious, but just looking at the walls without saying anything."

"Fancy! That was me, and I don't remember any more about it than if it had never happened!"

"Joe and Maisie had a time finding out who you were. The doctor said just to leave you alone and you'd come around all right. And, sure enough, that was what happened, or what everybody thought had happened."

"The Turners were lively, entertaining a lot, plenty of money and all that, and as soon as you were well they introduced you around to their friends. You made a hit with everyone, and that tickled them. My cousin Lawton Packard's wife was a great friend of Maisie, and I met her and Joe a number of times in Manzanita, and they'd always told me to look them up if I ever was in Chicago. It

struck me to do it one time; I called them up and Joe invited me out to dinner that night, throwing out a lot of dark hints about a swell girl who was staying with them. I went, and it was you I met—Florence Hilton was the name. I took a terrible tumble, and in a couple of weeks we were engaged."

"I kept stringing out the business in Chicago, and finally—I remember now that it was your own suggestion!—we were married right away, before we left town, and you came back to Manzanita as Mrs. Nell Packard!"

Joyce had been held spellbound by Nell's recital. It was all so queer and unreal, and she felt her head swimming by the strangeness of it. "Didn't you ask me anything about who I was, and all that, when you wanted to marry me? How did I act? Was I like the Frills I've heard about or more like Joyce?"

"Well, you see, everyone treated you with kid gloves, so to speak, on account of this accident," said Nell. "It was understood that you'd had a great shock, and that you mustn't be pressed. The doctor kept saying, just leave her alone and she'll come around all right. All this mystery was very exciting, you understand—"

we all got a great kick out of it. I remember I wanted to ask you a lot of things when we were first engaged, but you said to me, 'Nell, you've got to trust me. There are some things I can't tell you, and you mustn't ask me about who I am and all that. There's nothing I'm ashamed of, and some day I expect I'll tell you all there is to tell.' A shade passed over Nell's face. 'I always thought you would tell me, but you never did...'

Joyce watched him excitedly. The strange story gripped them, so that realities were seen through a haze. Oh, Nell, I think I see it all now, don't you? Frills just couldn't remember back! She was trying to remember all the time and she couldn't! It must have been awful for her, mustn't it? When did she change, when did she get reckless and wild?"

"I guess that came gradually," Nell answered with puckered brow. "I can't remember any special time when it began. First she took to drinking more than I liked; that really worried me a lot. Then it seemed as if she couldn't do stunts reckless enough, as if she were almost trying to kill herself! She drove her car at a breakneck speed, and got the wildest horse she could find to ride! And then there was Maitland...."

Joyce made a quick movement. "Yes," she said softly, "don't go in to that Nell, I know, and I'll never forget it."

"But—but—Joyce, you are Frills!" It was Robert Ainsworth speaking, and Joyce and Nell turned to him with a start. In their absorbing interest in piecing together the mystery of Frills, they had almost forgotten that he was there.

"Would you mind telling me," Nell asked Joyce politely, "just where he comes into this?"

Joyce looked at Robert thoughtfully. The air of rather superior insolence with which he had approached them was gone now, and she saw again the Robert Ainsworth who knew, he met her gaze frankly, with disarming friendliness.

"I'm sorry, Joyce, he said, 'I didn't understand. Will you forgive me?' He came over and held out his hand, smiling charmingly. He was like a little boy who, having shown his temper unreasonably, makes arrogant

claim of a loving parent for pardon."

"Who the devil are you, anyway?" asked Nell petulantly. "I don't want to crab, Joyce, but wasn't it a bit thick, letting him hear all this?"

"Robert Ainsworth is the great novelist, Nell. Haven't you ever heard of him?"

Nell shook his head. "Never," he said. "What does he do besides write? And once more, how does he come into all this?"

"He comes into this, Nell, because I happened to have met him since—since the accident on Fire Queen, and because I happened to like him rather more than ordinarily."

Nell fixed his gaze on a distant pine tree. "Do you mean that you're in love with him, Frills?"

Instead of answering his question, Joyce said sharply, "I wish you'd make up your mind whether you want to call me 'Joyce' or 'Frills', Nell!" She regretted her ill temper at once, however, and went on more agreeably, "Oh Nell, I don't know anything more."

"You are free, if you want to be, Joyce," said Nell, drawing his lips together in the attitude of severe restraint that he assumed when Frills had especially hurt him. "What about

envelope lying on the floor under her door. It contained a note from Nell, and she read:

"Dear Joyce:—
"When I got back I found a message to go and see Mother. She's not seriously ill, but feeling badly and wanted to see me. I shan't tell her anything about us, of course. We must talk everything over. I thought it might be better if I'd camp out somewhere else tonight. Please go to bed and get a good rest. I'll see you tomorrow."

"Nell!"
Joyce read this over several times, almost uncomprehending. At last, however, she knew what she must do. She knew she must go away—that it was the only thing for her to do.

"I've been wrong to stick it out this long," she thought. "No wonder I've gotten things into such a mess!"

Two TWO TWO
It did her good to have some definite work to do. In less than an hour she had bathed, dressed, and packed two bags with Frills' simplest clothes and belongings.

It seems like stealing to be taking them," she thought worriedly, "yet what can I do? Nell doesn't want Frills' clothes—they won't do him any good if I leave them. I'll have to find some sort of work right away, and I can't apply for it unless I'm decently dressed. Of course I won't take any of Frills' jewelry or anything of real value...."

Roxie met her at the foot of the stairs. "Excuse me, ma'am, but Mr. Nell said you'd be waking up after a time and we should have your dinner ready."

"Very well, Roxie, just serve it quickly in the dining-room, please. And tell Sam I want to speak to him."

Once Joyce had decided to leave she felt she could not go quickly enough. She could not endure looking about Nell Packard's house, and reflecting that she would probably never see it again. Her only salvation was in acting at once. She was grateful for the nonchalance with which Sam received her orders, and for the lack of demonstration on the part of Roxie.

Letters to the Editor

THE CHANGE IN TIMES

Stirling News Argus,
Stirling.

Dear Sir,

Amongst your items in your "Twenty Years Ago" column, you might note that it is just twenty years ago today since my good old dad, Charles Kingston, passed out in Stirling. I was just thinking yesterday in talking over the memory of that time with my wife how things have changed since that date. My trip down to Stirling to father's funeral was the first time I made the trip with a motor car and that took me seven hours whereas now it is a comparatively easy three and a half hour trip. Since then, the War has come and gone, the radio, which was unheard of, is now a commonplace instrument in nearly every home. Instead of the odd person having a motor car, as in those days, the numbers owned and run in the Province run up into hundreds of thousands. The highways have made travelling from one part of the country to the other a matter of great ease and comfort. Travelling by airplane, which was scarcely thought of at that time, is regarded now as almost as safe as travelling by railway train. One could think of many other changes that have taken place in this short period of time, but these are some of the outstanding items that readily occur to one's mind.

Mr. Butler in visiting you from the West a week or so ago, said Stirling's big fire was fifty-one years ago. He is out a year. It was 50 years ago June and I think the date was either the 13th or 14th, in 1883. I remember the occasion very well and I have a note of the date.

I enclose cheque for renewal of my subscription.

With kind regards,

Yours sincerely,
GEO. A. KINGSTON

General News of Interest

The maskinonge and bass season opened in this district on Saturday.

Hamilton — Daniel Phillips, Thurlow township, near Belleville, became overcome with the excessive heat here last Thursday and was found in an unconscious condition on a local street. Mr. Phillips was taken to a local hospital where he received medical attention. He informed the police that he had motored from Belleville.

An automobile driven by Everett Gardner, Belleville, collided with a cow wandering at large on the Stirling-Foxboro road about 11 p.m. Friday evening. The car, which was being driven down Boardman's Hill at the time of the accident, was badly damaged, while the cow was severely injured. The ownership of the cow has not been as yet established.

Lakefield — Provincial police stated Monday that they had as yet no trace of the burglars who early on Friday morning robbed the C.N.R. Station office here or of the 300-lb. safe which the thieves carried away. Along with \$60 in cash the safe contained 17 C.N.R. money orders in hand, which the thieves may attempt to fill out and cash for large amounts. Immediately following the burglary police searched all roads in the neighborhood of Lakefield without gaining any information that might assist them in identifying the burglars. It has been suggested that after the thieves had opened the safe they may have dropped it into the lake or river.

Madison Square, New York — With the sweep of a paw that must have felt like a cobblestone wrapped in a leather sack, huge Primo Carneiro, once a freak in a circus sideshow, knocked out Jack Sharkey in six rounds last Thursday night to win the heavyweight championship after being belted all over the premises for the greater part of five rounds. It was a stunning ending to a savage battle that tore through the battle pit of the Garden's big arena on Long Island, an ending as amazing to the scant crowd of 40,000 as was the knockout Max Baer scored over Max Schmelling in the first of the season's heavyweight extravaganzas.

Last Friday morning early, the eldest male resident of Hungerford township passed away in the person of Samuel Jones, of Farnsworth Corners. Mr. Jones was in his 95th year; May 3rd last he celebrated his 93rd birthday. He had been in ill health for some time and the last eight months had been confined to his bed. The deceased was born in Tyendinaga but had spent most of his life in the community where his death occurred. Mr. Jones was a successful farmer of Hungerford and a member of the United Church. He had never had the high regard of residents of the neighbourhood where he, for so many years made his home. One son, Arthur H., of Ivanhoe, and a daughter, Mrs. George S. Graham, of Farnsworth Corners, survive. Funeral service was held on Sunday afternoon at Lodge Room Church.

Hastings — Percy Bayes, 18-year-old farm hand of Roseneath, was instantly killed about 1.15 on Saturday afternoon on the Cobourg Road, just at the edge of the village. The unfortunate victim, who was employed on the farm of Harold George of Roseneath, with his chum, Walter Brown, 17 years old, employed on the farm of Mrs. George Brown at Roseneath, were riding bicycles on their way home when at a curve in the road they met a car in charge of Percy F. Jukes, who with other passengers, was coming to Hastings for the holiday. Seeing the car, the Brown boys called to his chum to get over on his right side of the pavement. Mr. Jukes, who was only driving about 18 miles an hour, stated he kept hugging his own side, expecting the youth to

turn out, when he saw he was coming straight for him. Mr. Jukes turned for the ditch, but his left front fender caught the boy and threw him against the car, fracturing his skull very badly. He was dead when Mr. Jukes got to him. The driver of the car was held blameless by the police and an inquest was considered unnecessary by the coroner.

Miss Marjorie Ketcheson, only daughter of Mr. and Mrs. Daniel Ketcheson of Foxboro, and Mr. Reginald Skinner, of Foxboro, eldest son of the late Mr. and Mrs. S. Skinner, Flordon, Norfolk, Eng., were married Saturday afternoon at twelve-thirty in Oakwood United Church. The Rev. Roy Rickard, B.A., M.R.E., officiated. The bride wore a gown of printed chiffon with black celephane ribbon sash and lace hat to match. She carried Talleman roses and baby's breath. Her bridesmaid, Miss Vera Sheffield, wore a pink crepe gown and hat to match. She carried delphiniums and sweetheart roses. Mr. Everett Fairman, of Hastings, was groomsmen. Following the ceremony a wedding breakfast was served at Mr. and Mrs. Roy Rickard's. The bride's travelling dress was beige woven stripe crepe with hat and shoes to match. The bride and groom left on a short motor trip and will be at home at Foxboro, after August 1st.

HONOURED BEFORE DEPARTURE

Last Thursday evening a large number of friends and pupils met at the home of Mr. Alex Bateman, eleventh line, Rawdon, to spend a social hour with their teacher, Mrs. Mabel Hayton, who has given of her best for the welfare of the school during the past three and a half years. After singing and music, which was enjoyed in the open, owing to the extreme heat, the gathering was called to order and the following address was read:

Dear Mrs. Hayton,—

We, your friends and pupils of this section, having learned with feelings of regret of your departure from our midst, in which you have played an active part, felt we could not let you go without at least coming together in this way to show our esteem to you. During your sojourn with us you have endeared yourself to us all, by those admirable qualities which you possess. Your numerous acts of kindness and devotion to others cannot be overlooked and the deep interest you have taken in every good work will not be soon forgotten. Not only have you conducted your school in a very capable manner, but you have also showed by your unselfishness that time was a mere factor on your part of making others happy as well. We have gathered here tonight to express in a tangible way our appreciation of your kindness and will now ask you to please accept this clock as a little remembrance from this section and hope that although we will not be mingling together in the same way, we hope that this little token will bring to you pleasant thoughts of the days spent in the Bateman School.

Signed — Edward Bateman, Cecil Bateman, Arthur Reid, Alex Bateman, Harper Bateman.

Mrs. Hayton replied in a few well-chosen words. Later a lunch and lemonade were served by the hostess.

RIVER VALLEY WOMEN'S STUDY GROUP

(Too Late for last week)

The June meeting of the River Valley Study Group was held at the home of Mrs. Robt. Bush, with quite a good attendance. The meeting opened with "Onward Christian Soldiers", followed by prayer led by the president, Mrs. Jno. Sager. Minutes were read and approved. It was decided to not hold meetings during July and August. The roll call being any verse from the Bible, was responded to by all present. The different secretaries were asked to report, and Mrs. Lindenfield gave a reading on Temperance. Hymn "O Happy Day" was sung and prayer offered by Mrs. Lindenfield. The remainder of the meeting was given over to Mrs. W. H. Hanna, convener for the program. Scripture lesson, Acts, II, 10th chap, 34-38, was read by Miss Gladys Rosebush. Mrs. Percy Hubble gave part of the chapter from the Study Book entitled "Early Missions". A reading "The Old Hymns" was given by Mrs. M. Vandervoort. Mrs. W. H. Hanna gave a splendid sketch of Japan, telling about their work, how they live and the size of population. It being the 50th anniversary of Mission work in Japan, Mrs. Sager told something about Mission work which has been done there. Mrs. A. Bush then gave a reading "If", by Kipling. Mrs. Roy Bush told more about Japan with the reading "The Old and The New".

With the singing of hymn 233, meeting closed with the Benediction. The Sept. meeting will be held at the home of Mrs. Percy Hubble.

A New Hymn by G. A. Kingston

The following article and hymn appeared in the July 5th issue of "The New Outlook" in Toronto, a United Church publication:

"We have pleasure in publishing in this issue another devotional hymn written by George Allen Kingston, of Toronto. As will be noted, the lines fit into that splendid tune (Welsh Traditional Melody) which is usually associated with the well-known hymn, 'All Through the Night.' The hymn was sung for the first time in public worship as an anthem by the choir of Simcoe Street United Church, Oshawa, recently, under the direction of the organist and choir leader, Mr. R. G. Green, on the occasion of Rev. E. Harston's farewell service, the author and Mrs. Kingston being present by special request."

The hymn is as follows:

A Hymn of Meditation
Tune: No. 547, The United Church Hymnary

Lord of heaven and earth and ocean,
Great God above,
Sanctify our hearts' devotion
As this we prove;
Guide us while through life we wander,
Keep our hearts forever tender,
To the needy help us render
Service of love.

As the years increase upon us,
For this we pray,
Lend Thy guiding lamp to lead us
All down life's way,
When the shadows long are creeping,
And our eyes are dim with weeping,
May we know we're in Thy keeping
At close of day.

When the day at last is ended,
Set us to rest,
Faded in much so well intended,
Light almost gone,
From the tomb do Thou reclaim us,
Send thine angel guard to name us,
Heaven's host on high acclaim us,
Life's victory won.

Betsy—What did you think when you first put your arms around me?
Jacob—I wished I was an octopus

DON'T WANT WORK

Demand for farm help in the district still remains light, with few requests for workers being made at the local agricultural office. During yesterday morning, several unemployed were approached on a downtown street corner, in Belleville, by a farmer of that district, with the offer of a farm job at ten dollars a month. No takers for the job were evident. This demonstrates that there are some "out-of-workers" who prefer to remain idle and have others keep them rather than endeavour to earn an honest dollar.

LT.-COL. W. P. MOORE PASSES

A resident of West Toronto for many years, Lieut.-Col. William Patterson Moore, died on Sunday in the Western Hospital. Col. Moore came to Georgetown with his parents, the late James and Agnes Moore, when quite young. After being in business there he later moved to West Toronto. While in Georgetown he took great interest in military work in connection with the 20th Halton Rifles, starting in as a private and rising to Lieut.-Colonel. He volunteered in 1914, but was not accepted and assisted in recruiting. He was also an early member of the Miley shooting team, winning many prizes. After coming to Toronto he engaged in real estate, but had lived retired for some years. His pleasure in later life was travelling, having visited South America and several Oriental countries. During the visit of the present King and Queen to Toronto in 1903 he formed the inner guard at the reception at the City Hall, and was chosen by the late Sir Sam Hughes to take the Western Ontario militia divisions to Quebec for the Tercentenary, when the grand military and naval review was held before H.R.H. the then Prince of Wales. He was a Past Master of Credit Lodge No. 219 A.F. & A.M. Georgetown; life member of the Canadian Institute, member of the Canadian Club, and the Islington Golf Club.

Left to mourn are two sisters, Mrs. R. D. MacMaster, Toronto; Mrs. J. S. Morton, Stirling, and one brother, John T. Moore, Baby Point, Toronto; one nephew and several nieces.

The funeral took place on Tuesday from the William Speers Funeral Parlours, Dundas Street, Toronto, to Georgetown cemetery, with Rev. Dr. Avison of High Park United Church officiating. The pallbearers were: W. H. MacWood, Toronto; H. Miles, Tweed; W. McCrea, Toronto; C. C. Bennett, Winnipeg; J. A. Watson, Madoc and A. Van Dillen, Cleveland, Ohio.

PETHERICK'S CORNERS

The softball match played on Campbellford High School grounds between Petherick's Corners and Meule resulted in a win for Petherick's and the score was 13-14, last Saturday evening.

A successful Sunday School Social was held on the lawn of Mr. Fred Barnum last Thursday evening.

The weather was just right for a social and those in the booth were kept busy dishing ice cream and cold drinks.

The ball game was quite exciting as the teams were pretty evenly matched. The Star team, managed by Lindsay Anderson, tried the best to win from Fred Barnum's S. S. Class of boys, but were unsuccessful, although at the end of the 5th inning the Star team was ahead 9-8, but when the game finished the score was 13-14 in favour of F. Barnum's class. Sentinel Band of bagpipes and drums furnished plenty of good music during the evening, which was greatly enjoyed.

Prizes were awarded the winners in the various races; also during the evening the Women's organization of the Zion church presented the three ladies and grooms, Mr. and Mrs. G. Kerr, Mr. and Mrs. R. Fry and Mr. and Mrs. A. Petherick, with end tables. The grooms made very suitable replies after the presentations were made. The proceeds of the evening amounted to \$34.00.

NEWS OF INTEREST
FOR BUSY FARMERS

Potato Beetle Poison

The best and cheapest poison to use for the control of the potato beetle is calcium arsenate at the rate of 1½ to 2 pounds in 40 gallons of Bordeaux mixture (copper sulphate 6 lbs., lime 4 lbs., water 40 gallons). If the poison is used alone in water, add two to three pounds of hydrated lime to each 40 gallons. Should arsenate of lead or Paris Green be preferred as a poison, two to three pounds of the arsenate or half to one pound of Paris Green may be substituted, to be used in each 40 gallon barrel of spray.

Hints to Horticulturists

The proper time to transplant Oriental Popples is when they are perfectly dormant, that is, transplant in late July or early August.

Cultivate freely and give Sweet Peas plenty of water or mulch. Keep the flowers picked.

Climbing roses should be pruned immediately after flowering, by removing the oldest wood and simply thinning out each bush.

Cut down Delphiniums as soon as they are through blooming. This forces the plant to send up new growth and flower a second time.

The bearded or German Irises may be divided and transplanted after flowering. As soon as the flowers fade, cut off all stems and give plenty of water for a couple of weeks, then divide and plant shallow.

320 Fairs to be Held

Of the Agricultural Societies in Ontario, some 320 plan to hold fairs this year, according to J. A. Carroll, superintendent, Agricultural Societies Branch.

"In certain quarters," said Mr. Carroll, "there was a feeling that government and municipal cuts in grants would tend to disrupt the plans of many of these organizations. However from the impression gained at the District Fair Association meetings I have attended throughout the province, I feel that the directors are determined by increased energy and enterprise to maintain the standards of the organizations, many of which have been in existence for almost a century."

Gardeners' Insect Friends

All garden insects are not injurious. In fact many of them are beneficial, continually doing good by destroying those species which are harmful. Foremost among the insects that help the gardener are the different kinds of ladybird beetles. Both in their larval and adult stages, they feed almost exclusively upon plant lice and scale insects. Another kind of beetle, is a particularly useful insect. This beetle and its voracious grub, which is called the cut worm grub, destroy enormous numbers of cutworms. The beetle is brownish black, with the wing-cases spotted with copper red—hence its name. The large harp beetle, which is very common, destroys cutworms. The

different kinds of lacewing, and other two and four-winged parasitic flies are also friends of the gardener.

Lady Bowlers at Peterborough

A rink of local lady bowlers, composed of Mrs. E. Munro, Mrs. George Lagrow, Mrs. R. W. Melkjohn and Mrs. W. J. Whitty, skip, took part in a tournament held in Peterborough last Friday. They won two games and were defeated by only one point in the third game. The one point also kept them out of the prize-winning contest. The total for the day was 42 points. The following appeared in Saturday's issue of the Peterborough Examiner, under the heading "Highlights of the game. "There was some very fast and clever bowling done, but probably the best games to watch from a visitors' standpoint was the game between Miss M. Soderbeck, Peterborough, and Mrs. Whitty, Stirling. Both had won their first games and were drawn against each other in the second draw. The game was close all the way through and going into the last end it was a dead heat. Mary's lead put a perfect bow beside the 'Jack' and it stayed there until the finish, winning the game for the Peterborough skip."

Stirling Orange Lodge and L.O.B.A. took part in the Big Twelfth of July "Walk" held in Tweed yesterday.

Gives Addresses
on U.C.B. Society

Rev. J. S. Harrington, L.Th., Toronto, occupied the pulpit of St. Andrew's Stirling and West Huntingdon, last Sunday morning and afternoon, and St. Paul's in the evening, bringing before the congregations, The Upper Canada Bible Society. The messages were very forceful and convincing. Man's great need of the Bible as a guide for every day living was brought out by the well known story found in Luke 16, of Lazarus and the rich man. The latter being in a place of everlasting torment, asked that Lazarus be allowed to return to earth to warn his (the rich man's) brothers lest they also come to this place of torment. But he is told that they have Moses and the prophets (the Scriptures) and "If they hear not Moses and the prophets, neither will they be persuaded though one rose from the dead." The Bible Society is the one thing about which there is no discussion among the peoples of the earth. There are differences of opinion on all points of law and morals, but the work of the Bible Society is undisputed among governments and religious denominations the world over. And all are dependant on it, for with its output of a million copies a month, it distributes to mission work of all creeds, the needful supply of the printed Word of Eternal Life. The Bibles are sent from the Society to the various mission fields, free of all charge, except in the cost of their being sold out again, when a small amount is returned to the Society.

The individual has a wonderful privilege in being a part of the Bible Society. A donation, even so small as to be a matter of copper coins, means a copy of the Scriptures sent by you to some one who is still in heathen darkness. Look out on the utterable needs of the heathen world and say "Whatever I do for these people I will do for the love of Christ." If we desire to express our compassion for the multitudes who are scattered as sheep without a shepherd, let us join hands with the Bible Society in its world wide spread of the gospel of our Lord and Saviour, Jesus Christ.

MARKER FRAMES BANNED

Motorists are warned that all metal or other frames, surrounding license plates on motor vehicles are illegal, and should be removed at once. The police patrols throughout the province have been ordered to check up on this infraction. It is claimed the frames make it difficult to read the license numbers. There is a penalty in the Highway Traffic Act regarding the obstruction of license plate numbers — hence the above warning should be heeded by all car drivers effected.

CURRENT COMMENT

Are you thin or fat? If you are, here is advice for you. If you are thin, don't eat fast, and if you are fat don't eat — Fast.

Last year Stirling's Civic Holiday was observed the first Monday in August. It is expected that will be the day on which this holiday will be observed this year — which is August 7th.

Have you a mind of your own? Or do you let another decide something for you? If you do he will be sure to blame you, and not himself, if the result of his decision proves to be bad. Don't be influenced against your own better judgment too easily.

This is not a bad old world after all and Stirling is an ideal village. However, to make it better, we would recommend that you have a good word for everyone — or else keep silent. Sometimes our powers to condemn the other fellow seem to be too great to overcome.

You hear it stated quite frequently "that there is going to be a provincial election this year." We do not pretend to be in the "know", but we feel we can say with assurance that Premier Henry's government will carry on until next year.

There are many people who have a craze for antiques, which of course may be the earmarks of great taste — not to us — and we have concluded that anybody could get rich if he or she could tell the exact moment at which a piece of junk becomes an antique.

According to the latest style bulletins, stylists state that a man should dress within his means. This may be the right kind of "propaganda", but we feel sure that if a lot of us dressed that way these days we would either be arrested or suffer from sunburn or die of pneumonia.

The cool weather of the first week of July must have come as a terrible shock to the Toronto Star and other newspapers which have been criticizing the Department of Education for holding July examinations. Had they been held the last week in June it would have been just too bad, as the heat was terrific.

An incorrect statement was published in a number of newspapers recently — why, we do not know — stating that the Ontario law now compels pedestrians on the King's Highways to carry a lamp. The lamp-carrying statute was proposed, but not adopted, so is just another case of reporters jumping at conclusions.

There is a general feeling throughout this province that economic conditions are improving. There is a much better general psychology on this matter. The state of mind of the people of Ontario, in thus believing that economic conditions are becoming better, is in itself promoting betterment, and will aid greatly in stabilizing domestic and commercial conditions.

Campers at Oak Lake, particularly on the south side, where the road passes, are complaining of the dust nuisance. One camper suggested to the News-Argus that Sidney Township should oil or apply a dust layer on this section of roadway. He felt that there was sufficient taxes received from the cottages to warrant this. However, we have no comment to make, but pass it on to the Sidney administrators.

Premier R. B. Bennett has developed into one of the "Big Shots" at the present Economic Conference now being held in England. According to press reports he played an important part in saving the Conference from disbanding, as the result of a controversy between the United States and the European countries on the gold standard. Let us hope that something concrete toward the better-

ment of the world conditions will result from the Conference.

Young men should forever bear in mind that the mark of a first-rate man is that he is not above taking a second-rate job if there is a chance in it to prove his own first-ateness. One young man we know lost his job in the hardest part of the depression. He tried anything else he could get to do, but all he could get was a chance to sell advertising on commission. He went at it as if it were the biggest job in the world, and within six months his commissions were running to as much as the highest salary he had ever earned. Now he's the star man of his newspaper organization. Second-rate men want first-rate jobs handed to them. First-rate men make their own first-rate jobs.

A newspaper has a difficult task in catering to the views of many different shades of thought. Its endeavour always is to keep on an even keel and to give the greatest volume of space to those subjects in which it has found by experience the largest proportion of its readers is interested. In following this course it often gives offence, not willingly, but simply because judgment affecting matters of interest continues to vary according to the likes and dislikes of the individual. Some subscribers also get sore at the Editor over some petty articles, even though the Editor had put himself out to accommodate them previously. The correspondent columns of any newspaper are a reflection of public opinion. They can, however, if not properly governed, become a happy hunting ground for cranks and for the perpetration of personalities and intolerance in viewpoint. That is often the reason why controversies are not allowed to become prolonged. Contrary to a general view entertained by the public, one of the main problems in connection with a newspaper is what to leave out, not what to print.

Mythical Inside Pains

In our boyhood we used to hear our elders say that it was dangerous to drink from an open stream or spring. They told wild tales of persons who had swallowed frogs' eggs which hatched in their insides. Sometimes it was lizard eggs. We remember reading many years ago of a man who had thus accidentally swallowed an alligator egg, and was devoured from within by the reptile which hatched in his stomach. No doubt that belief is as old as humanity. Folk ignorant of physiology attributed internal pains to some sort of an actual reptile in their vitals. But we had supposed that everybody knew enough in these enlightened days to realize the impossibility of such happenings, until we saw a newspaper article from a seashore resort the other day. According to this story a young woman walking on the beach picked up what she thought was a pearl. She put it in her mouth and accidentally swallowed it. And some time later, according to the account, she died in agony, devoured by an octopus which had hatched from the egg that she had mistaken for a pearl! Apparently there are still people gullible enough to swallow such stories. Age-old beliefs do not vanish as speedily in the face of knowledge as we had imagined.

Present Day Education

The Public and High Schools have closed for the annual two months' vacation. As school closes each year there are many students looking forward to calling it quits as far as school is concerned for all time to come. This, we believe, is a very serious mistake, as in this day of keen competition men and women need all the education they can secure to equip them for the life they must face after the period of education has passed.

There are some who overdo education and place altogether too much importance upon their own individual educational attainments. They look upon those who have not had the same advantage of higher education as an inferior class. The only class that might be termed inferior is that class which will not be educated and thus place themselves in the position of becoming probably charitable charges.

The high school of this century has developed a school life in which many activities combine to build up a little world in itself. In addition to academic education, athletics, musical and dramatic performances, literary and artistic efforts, public speaking and numerous other activities, provide outlets for the talents and energies of boys and girls. These are supervised by the teachers and they are necessary because the well regulated, the keen enjoyable life has a place for all these activities which tend to make life happier. To hold one's own in this fast moving world one must have a good knowledge of many subjects.

This enriched school life is tremendously important for character and talent development. It is especially important in view of the shortening hours of labour and the increasing hours of leisure. It is as important to know how to fill one's leisure hours profitably as it is to know how to make hours of business profitable to one's self or employer. Boys and girls should be encouraged to continue at school, by their parents — not discouraged.

boards in a city or separated town, or with a board in a high school district in an adjacent county. No provision is made to enable pupils from municipalities with population specified to attend county high schools as county pupils. This legislation which takes effect on the first of January, 1934, will enable school boards, when agreements are being considered, to claim more than eighty per cent. of the cost of education at their schools. Eighteen counties have townships with over 4000 population, while nearly every county has a town or village with over 1200 population.

The Premier, as Minister of Education, has already been approached in reference to difficulties arising from the practical application of the new legislation, and has agreed that amendments are necessary.

FAMILY RESPONSIBILITIES

(Oshawa Times)
In recommendations made to the prime minister of Ontario the Ontario Committee on Economy in Public Finance has some interesting comments to make on expenditures for direct relief. After stressing the fact that there should be the closest possible

investigation of relief cases, the committee goes on to say:

"The committee also recommends that before public relief is given in any form, other than immediate emergency relief, every effort be exerted by investigation and otherwise to ensure that the immediate families of needy persons assume their proper obligations insofar as they may be capable of so doing."

This is sound principle. The family is the primary unit of organized society, and before the state is called in to assist, it is only right that the resources of the whole family should be utilized to keep parents off relief. Sons and daughters have responsibilities towards their parents, and should be willing to assume some obligation for their care, if they are in a position to do so, in order to keep them from accepting public relief. In many cases this is already being done, but it is surprising to find how many people object to having members of the family contribute their earnings to the family exchequer in order to keep off relief.

GOING BACK TO WORK

(Whitby Gazette-Chronicle)

A special despatch from London, England, to the Toronto Telegram, written by C. J. Snider, who is representing that newspaper at the world economic conference, gives striking indications that the world is going back to work. The improvement in employment conditions in various countries is definite proof that things are on the upgrade. Here are some of the conditions which he reports:

"Fifteen thousand more men employed in Canada on May 1 than on April 1."

"One hundred and twenty-three thousand more men at work in Great Britain during May."

"Forty thousand more employed in France and only 305,000 out of work in that country."

"Three hundred thousand more in jobs in Germany."

"Thirty thousand fewer unemployed in Austria."

"Roosevelt putting 1,000,000 more to work in the United States, where early figures showed 40,000 increase in employment."

There is still much unemployment in all of these countries. The difficult period is not yet over. But the signs pointing towards improvement are so definite and noticeable that they cannot be overlooked. The world is pulling itself over the hill, and the encouraging feature is that the improvement seems to be general in the countries which have been most seriously affected by unemployment.

OLD AGE PENSIONS IMPOSITION

(Bowmanville Statesman)

Claims that the Ontario Old Age Pensions Board, in taking upon itself wide powers, is bringing the County Boards to the status of mere rubber stamps is being voiced all over the province. When the County Boards first came into being they were given the power of receiving applications and accepting or rejecting them as they saw fit after close investigation. We join in the protest after glancing through the list of Old Age Pensioners in Bowmanville, 70 in number, and many of them to our mind, not entitled to the pensions under the ruling of the pensions act.

When County Boards had complete power in the matter of Old Age Pensions, the reeve or some member of the municipal council, through his close contact with his own district and his knowledge of most of the families was able to give sound judgment in the matter of acceptance or rejection of applications. Cases are on record now, the Hanover Post claims, where the Ontario Board has gone over the heads of the County Board and granted old age pensions where the County Board failed to recommend them.

Many thousands of dollars are being spent each month on providing pensions for the aged. In the United Counties there are 940 people receiving pensions, and we believe that proper investigation and the weeding out of those not entitled would bring this number down by probably 30 per cent. The County Board has recommended that in future the names of all those receiving pensions be posted in the municipal clerk's office for perusal by any ratepayer. This is a wise move and one that would tend to lessen the number of applications from those who know that the letter of the law does not entitle them to pensions.

We find the chief fault lies in the manipulation of property by some pensioners and the avoidance of family responsibilities by the children of other pensioners. There are several cases in Bowmanville where the pensioner has sons working steadily who should be able to come to the aid of their parents in their old age. These children apparently forget the sacrifices made by their parents to give them a chance in life, and in making these sacrifices have left their old are insecure. Common gratitude

should be a prompting motive behind the child of every parent who is able to contribute to their support. Just why ratepayers in general should have to pay for the sacrifice lavished on children of one family is hard to understand.

In the other matter of property it is found that to secure pensions many old people have turned their properties over to their sons with the stipulation that they receive a certain sum annually from them during their life. By misrepresentation they then appeal to the Board as destitute and receive the government income and at the same time other income.

Each year the Old Age Pensions payments are getting larger and unless some definite step is taken to ensure that every person receiving a pension is strictly entitled to it, the time is coming in the near future, when the burden of old age pensions will get beyond the endurance of the public.

A few friends gathered at the home of Mr. and Mrs. Henry Wescott on the 8th inst., to spend a social afternoon, it being the event of Mrs. Wescott's birthday anniversary. Despite the weight of seventy-three years, Mrs. Wescott took an active part in entertaining her guests. Among those present we notice two elderly sisters of Mrs. Wescott, Mrs. C. Jennings, of Tallapoosa, Ga., and Mrs. E. Lanktree of Grand View, Man., formerly of Stirling.

BACK HOME

(Financial Post)

A Canadian citizen motored through a little Ontario village the other day and was struck by the natural beauty of the place. He thought to himself how attractive this community could be if intelligent planning were undertaken to ensure orderly, artistic growth.

Then he bethought himself of the many boys and girls who must have grown up in this quiet village and gone out to the larger cities of the dominion and the continent to achieve fame and fortune for themselves. Our citizen mused that it would be a fine thing for that little community (and for many hundreds of others like it) if some of the successful boys and girls would take thought for their childhood home and make some tangible contribution for its future welfare and development.

Of course there may be difficulties. Small communities are often unappreciative of gestures of goodwill from those who would and could assist them. Too often there is indifference,

little thanks and much opposition and criticism.

At any rate the experiment is worth trying. In return for the dividends of "appreciation" and "good work well done," the capital outlay will be small.

Perhaps the home town you have in mind is the very place which started our citizen thinking.

Under the provisions of a recent amendment to section 37 of The High Schools Act, pupils whose parents or guardians reside in a town or village having a population of not less than 1200, or in a township having a population of not less than 4000, are not to be deemed county pupils, and such pupils may only attend a high school in a city or separated town or in an adjacent county at the discretion of the school board, or as county pupils when an agreement is entered into by the county council or municipalities interested, pursuant to section 45 sub-section (5), of The High Schools Act as enacted in 1929, which authorizes agreements with high school

During his visit to a village school a minister put this question to a class of little girls: "If all the good people were white and all the bad people were black, what colour would you be?"

Some answered "White" and others "Black". But little Mabel replied: "I guess I would be streaky."

The big reason why so many marriages fail is that the average house isn't big enough for two people who weren't spanked enough.

Stirling Woman—What delightful manners your daughter has.

Neighbour (proudly)—Yes, you see she has been away from home so much.

She—Your absurdity would make a donkey laugh.

He, yeah, I noticed you were laughing.

A lot of young men start out in life with no more idea where they're going than the stick on a skyrocket.

There is no bigger fool than an old fool, unless perhaps there might happen to be two old fools.

Expenses must be reduced if taxes are to be reduced.

Men only know you by what you DO, never by what you can do.

Young Girl—Yes! I feel an intense longing to do something for others.

Friend—Just whom do you mean by others?

Young Girl—Well, I suppose almost anybody outside of my immediate family.

There were two Browns in the village, both fishermen. One lost his wife, and the other his boat about the same time. The new minister's wife called, as she supposed, upon the widower, but really upon the Brown whose boat had gone down.

Minister's Wife—I'm sorry to hear of your loss.

Brown—Oh, it ain't much matter. She never was up to much.

Minister's Wife—Indeed!

Brown—Yes, she was a rickety old thing. I offered her to my mate, but he wouldn't have her. I've had my eye on another for some time.

And then the horrified woman fled.

A comedian is a person who goes through a radio hour on other people's jokes.

Ralph—Poor David; he has just joined the "silent majority".

Peter—What do you mean? He hasn't died, has he?

Ralph—No, but he's just got married.

A Belleville bachelor, well-known in Stirling, says that because love is blind and the home is an institution it follows that marriage is an institution for the blind.

THEY LOVE THEM FAT

The following article written by Helen Rowland, well known writer of the United States, condemns women who are forever dieting in order to be slim or to possess "that girlish figure". We doubt if this little write-up will appeal to many women—nevertheless it is interesting and many facts are stated:

"In the Gay Nineties men liked their women 'plump and huggable'. Now, if a woman gains a couple of pounds her husband presents her with a reducing belt as a token of his 'love'. Recently, a disillusioned wife went to court and claimed that her husband's love faded and decreased in inverse proportion to her weight. She gained 40 pounds and her husband's love went down forty points. 'Slenderness in a bride of 13 may be graceful and girlish—but just what a man finds 'cuddlesome' in an animated bone, with points where they should be curves, or hollows where there should be plumpness and dimples, is mystifying.

"When any woman begins flirting with forty, she looks haggard and hungry, unless a soupcon of flesh fills out the incipient hollows under her chin, rounds out her cheek-bones and smooths out the fine, faint lines or crowfeet, underneath her eyes.

"Once upon a time a girl used to wear plenty of ruffles and pads and petticoats, to give the effect of what was known as a 'figure'. And she bound steel and whalebone around her waist in order to look huggable. But, you'd think a man would scratch his fingers trying to grasp a modern debutante's elbow or to pat her on the shoulder blade.

"As a matter of fact and record plump people are more cheerful and much easier on the nerves than half-starved animated bones. That's why Brutus preferred fat men to those with a 'lean and hungry look'.

"No! Men seldom desert jolly, good-natured, plump wives. But Mexico and Reno are often filled with sylph-like beauties, who have grown sharp-tempered and nervous on reducing diets and bending exercises.

"And the truth in the case mentioned is that it was not the 40 pounds the lady gained which caused her husband's fancy to turn to a blonde, but the long months she spent apart from him, in a health resort.

A short absence sometimes makes the heart grow fonder. But, if a man's heart is inclined to be wobbly, it always wobbles the other woman's way during a wife's LONG absence.

Naturally, as a woman grows older, fatter and fuller, the bright flame of romance dies down to a steady (sometimes lukewarm) affection. But then, how about a MAN growing older, fatter and duller?

"Any masculine 'love' that is so weak that a woman has to starve, worry, struggle and play-act, in order to retain her hold on it, is hardly worth the price of the rowing-machine, the rubber bathing-suit and the reducing belt.

"Sometimes, I think I am the only woman in America who is trying to GAIN a few pounds and to become plump and huggable and jolly!

SCHOOL TEACHER SHOWERED

On Friday evening, June 30th, a large number of friends and pupils met at the home of Mr. Will Chambers, Union, to present their teacher, Miss Gladys Harper, with a miscellaneous shower prior to her marriage to Delbert Sine, of Harold. The lawn was lighted with Japanese lanterns and the early part of the evening was spent in games. The party was then called to order and a mock wedding was enacted upon the veranda. An address was then read to which Miss Harper replied in a few well-chosen remarks. The "Honeymoon Express" arrived at this juncture drawn by two little girls. It was overloaded with beautiful and useful gifts. After the gifts were unwrapped all joined in singing "For they are jolly good fellows." Lunch was then served by the ladies. The party closed and each went home after having spent a very enjoyable evening.

"BREAD"—The People's Cry

When people must have a thing, they will have it, even at the cost of revolution.

Cobden and Bright saved England from a threatened revolution by obtaining a repeal of the "Corn Laws" that resulted in a tax on Bread.

No country can with safety place an essential beyond the reach of all its people; and Bread is a vital necessity to everyday living.

WRIGHT'S BREAD

contains every ingredient to make it a perfect nourishing food. By substituting it for the more expensive foods, the same food-value is maintained and a surprising economy is effected.

BONARLAW

On Friday evening of last week a large number of the friends and neighbours of Mr. and Mrs. Reginald McKeown gathered at the home of Mr. and Mrs. Lindsay Mumby, Bonarlaw, parents of the bride, and gave a miscellaneous shower. So large was the gathering that the house was filled and the lawns presented the appearance of a garden party. An address was read expressing to Mr. and Mrs. McKeown the esteem in which they are held by one and all and wishing them much joy, health and prosperity. Both Mr. and Mrs. McKeown thanked the guests assembled in a few well-chosen words for their good wishes and the many useful and beautiful presents showered upon them and invited all to visit them whenever convenient in their new home.

All sang "For they are jolly good fellows and gave them three hearty cheers. And so many of the guests could not gain admittance to the house to hear the address and replies the bride and groom consented to come out on the verandah where they were again given three cheers and a "tiger" by those on the lawns. The ladies then served a dainty and bountiful lunch.

Mr. and Mrs. McKeown will reside in Springbrook where Mr. McKeown had taken over the garage business recently purchased from Mr. Robt. Scarlett. The following is the address:

Bonarlaw, July 7th, 1933

Mr. and Mrs. Reginald McKeown.— We your friends and neighbours have gathered here this evening to express to you our best wishes for your happiness and to endeavour to show in some way the esteem in which you are held by one and all. We wish you, Leda, much joy, and are glad that your new home will be only a few miles from here. Even so, you will be missed in this immediate vicinity, where you have lived all your life — more possibly than you think. You have come so much a part of our community life that your going even so short a distance, is leaving a gap which will not be filled. With your cheerful disposition, kind word and smile, and readiness to help along every good cause, you have endeared yourself to all.

We congratulate you, Reg. You have won a prize, but we all think you are deserving of the best. While not living in this neighbourhood, you are no stranger. Your frequent excursions into this territory during the past few years have given most of us opportunity to know you real well and we look upon you as one of us and you have the respect and esteem of all. As a slight token of our feelings towards you both we ask you to accept these gifts, and the wishes of all are that your married life may be long and happy. May

health, contentment and prosperity ever be yours.

PETHERICK'S CORNERS

Owing to the Rylestone S. S. social being held last Thursday, Zion League was held on Tuesday night. Mrs. Wm. Forde had charge of the program which was announced by Mrs. Albert Petherick as follows: Scripture lesson by Mrs. G. Kerr, address by Rev. MacTavish; song by Garland Irwin, also encore; reading by Mrs. Lorne Barnum; topic by Mrs. Forde. The attendance was forty.

Our Junior ball team defeated Rylestone on Thursday night by a score of 15-17.

A miscellaneous shower was given Mr. and Mrs. Aylmer Petherick on Friday last.

Much sympathy is felt for Mr. and Mrs. John McKenzie, who on Thursday morning lost their home and all the contents by fire. Mrs. McKenzie was out in the garden picking some berries and Mr. McKenzie was in the other end of the house from where the fire started and it had gained such headway before noticed that the clothes they had on and one small table was all that was saved. The fire started from the cookstove in the kitchen. It was only by the heroic efforts by the neighbours that Mr. Lorne Barnum's house, which was close by was saved from burning also. This house was quite a landmark at the Corners, being just across the road from Zion Church, and was built by Mr. Alex Perrie, 57 years ago. Mr. McKenzie is over 87 years of age and Mrs. McKenzie is over 80 years of age.

Picnicking is quite common at the famous picnic grounds at Crowe River.

Miss Margaret Case, of Picton is the guest of Miss Evelyn Barnum this week.

MEINIE LOSES IN CLOSE GAME

In a close and highly exciting game of softball, Seymour West practically ruined Meinie's play-off chances by a 7 to 6 win on Saturday evening on the high school diamond.

Meinie took a lead in the opening innings, when five safe hits, including K. Oddie's homer and a pair of West side errors netted four runs. Their next scoring chance came in the sixth. Hutcheon and R. Oddie hit safely and a fielder's choice on Ranne's tap filled the bases. Hutcheon scored on Eagleson's fly to Hooper, but Oddie was caught at the plate trying to count on Hume's fly buck of second. K. Oddie counted the sixth

run for Meinie in the seventh when Chadwick dropped his fly back of first and threw wide to third. The Westerners went hitless until the third when three successive singles scored Rutherford. They added one in the fifth on singles by Hooper and Nicholas. Four runners scored in the sixth on five hits, including Rutherford's four-ply clout. With the score tied, Chadwick hit the first pitched ball in the seventh for a three base drive and scored the winning run when Little let the throw-in elude him. The lineups were:

Meinie—Eagleson, p; T. Little, c; Craighead, 1b; R. Oddie, 2b; Ranne, 3b; K. Oddie, ss; Hume, lf; Milne cf; Hutcheon, rf.

Seymour West — Anderson, p; Holmes, c; Chadwick, 1b; Fraser 2b; McArthur, 3b; Rutherford, ss; Hooper, lf; Nicholas, cf; Russell, rf.

DAIRY NOTES

Cheese graded at the Campbellford station on Friday last registered as follows: Brickley 22, Meinie 51, Beaver 31, Brae 30, Prince of Wales 39, Woodlands 46, Burnley 45, I.X.L. 32, Warkworth 111, Trent Valley 68, Trent Bridge 71, Stanwood 25, Crow Bay 47, Seymour West 26, New Model 22, Norham 48, Kimberley 51, Empire 66, Morganston 66, Spring Valley 25—in all a total of 922, as compared with the same week last year, which registered 1064 cheese graded.

Some rancidity is shown in this week's grading, but on the whole this defect is less than this time last year.

Drier pasture seems to be lending itself to faster working milk. Some of the makers did not anticipate this change in time, with the result that a number of cheeses are down this week due to acid texture.

An American firm from Cape Vincent, U.S.A. has secured a ten-year lease on space in the Graham Cold Storage, Belleville, preparatory to raturing Canadian cheese for the export trade.

The tallies were White 3, Hagerman, Sharp, McKeown each two, Campbell, MacMullen, Turner and McConnell each one. The visitors, V. Baker, E. Neal and H. Neal each scored two runs, and Jones, Mumby, Prest, L. Neal and McKeown each scored a run. It was not necessary for the home team to play their last innings.

Bonarlaw 0 2 0 3 3 3 0 — 11
 Mount Pleasant 6 3 1 0 1 2 — 13

Over one hundred and ten fans from Mount Pleasant, beside fans from Bonarlaw, Stirling, Glen Ross and other points journeyed to Glen Ross with our players on Monday evening and enjoyed a keenly contested game of softball and they sure did yell when the boys made a good play. Hoards went to bat first and Bill Jeffs, Barney Eagleson and O. Ranne went out and our boys followed suit with Clifford Holmes, John Coggin and Tom Bowler out, and the innings was a zero. In the second frame K. Oddie and Bill Hume went out, Don Watson got to second and D. Milne went out. A Keller went out. H. Higgs made third, K. Holmes journeyed to second, C. Dunkley and Bert Jeffs lost out and another bull's eye marked the score. In the third round Charlie Smith, Jack Ranne and Bill Jeffs went out and then things began to happen and Mount Pleasant stepped on the gas. Harold Hagerman made a long shot, followed by C. Holmes and Coggin and they each tallied one. Bowler lost out, Keller, Higgs, Holmes and Dunkley each tallied one and all made a good shot and Bert Jeffs and Ranne lost out and the score ended 7-0. In the midst of this inning, Charlie Smith, who was pitching, got a bit rattled with so many runs and Charleson took his place, but this did

not daunt Mount Pleasant lads and they kept right on with the good work. This inning was the most exciting of the play and it gave our people a dandy chance to yell and the folks here who didn't go were able to enjoy the cheering on their own verandahs. In the fourth frame Eagleson went out, O. Ranne tallied one and K. Oddie had the honour of making the only home run of the evening. Hume went out, Watson got to first and Milne lost out. Clifford Holmes made third and Coggin, Bowler and Keller lost out. Score 7 to 2. In the fifth round Hoards went to bat determined to win if possible and they piled up six runs beginning with Smith, J. Ranne and Bill Jeffs each tallying a count, Eagleson and O. Ranne went out. K. Oddie, B. Hume and Watson scored a run. Milne and Smith made first and J. Ranne lost out and Hoards led 8-7, as Higgs, K. Holmes and Dunkley each lost out. As the players prepared for the sixth some of Hoards enthusiasts asked the ladies of Mount Pleasant to quit cheering as it rattled their men. Bill Jeffs went out, Eagleson made second, O. Ranne and K. Holmes were caught out. The Mount Pleasant boys surely did some splendid catch, ing even though they went down to defeat. Bert Jeffs, Hagerman and C. Holmes also lost and the score remained 8-7. The finals began and Bill Hume tallied a run, Watson lost, Milne made another count, Smith lost to second and J. Ranne and Will Jeffs lost out and Coggin made first, and Bowler, Keller and Higgs lost and Hoards were victorious 10-7, but they worked hard to win and were rewarded for their efforts. The reporter overheard some of the Mount Pleasant fans remarked that they felt it was really worth while to come to the game if only to see some folks smile as these people had recently won a very sad expression. However, the games so far as Mount Pleasant are concerned are over, but we feel that our boys surely should be commended for their excellent sportsmanship as they took their defeats in the same spirit as their victories. Then too, several on the team have never played in the league before and it takes some little time to become accustomed to the rules and regulations and to get their muscles and minds keenly alert to the business. So we say—three cheers for the Mount Pleasant lads — even though they were defeated and we know the fans will second our motion, and as the old Negro said "That's that." The final games will now be played between Springbrook (last year's league winners) and Hoards. The lineup was: Hoards — Charlie Smith p, Bill Jeffs c, Barney Eagleson ss, O. Ranne, K. Oddie, Bill Hume, Don Watson, D. Milne and Jack Ranne. Mount Pleasant — A. Keller p, John Coggin c, C. Holmes 1b, Tom Bowler ss, Bert Jeffs 2b, Herb. Higgs 3b, C. Dunkley cf, Harold Hagerman lf, Kenneth Holmes rf. Umpire — M. Fraser, Glen Ross. Base Umpire, W. R. Bone, Bonarlaw.

AWAKENED WOMAN

ELINORE BARRY

Eighteenth Instalment

SYNOPSIS

Synopsis: Joyce Ashton, poor stenographer, suffered loss of memory in a skidding taxi cab accident in Chicago. One morning two years later she woke, after a fall from her horse, her memory restored, to find herself the wife of Neil Packard, rich California fruit packer. She determined to tell nobody of her predicament, but set about learning what she could of her life in the interval. From the conversation of her friends and letters in her desk she gathered that she had been a heartless, pleasure-loving young woman. One letter that troubled her was from a woman signing herself Sophie, blaming Frills for not giving a home to a baby Sophie was caring for. Could it be her baby, Frills wondered! She also found herself involved in an affair with a man named Maitland. In San Francisco, where she went while her husband was away on business, she met Robert Ainsworth, a poet whose work she had always admired. When Joyce returned home, she decided to be pleasant to Neil than Frills had been. But this line was dangerous, too, for Neil was pathetically anxious to win back Frills' love. At his request they call upon Neil's mother, whom Joyce finds adorable. Later she met the poet, Robert Ainsworth, and several times stopped for lunch at his cabin when she was horseback riding. One day he started to make love to her. Later Joyce and Neil, out riding, are come upon by Ainsworth. Cornered, Joyce makes full confession—her loss of memory and her restoration. When Neil accuses Joyce and Ainsworth of being in love, Ainsworth makes a "graceless" exit, leaving Joyce to explain. Neil is hurt, but upon arriving at home is called to his mother's home. Joyce decides she must go away.

NOW GO ON WITH THE STORY

Writing to Neil was difficult:

"Dear Neil," she finally wrote: "I'm going away—forgive me, but it seems the only thing to do. I know how you feel about facing me after all we've been through today. When you wrote me that you would 'camp out' somewhere else to-night I quite understood. Please don't think I blame you—all the fault is mine from beginning to end—but I couldn't bear to be the cause of making your home repellent to you. Nor could I bear to see you being chivalrous and pretending that you wanted me here when you didn't! You can see there's nothing else for me to do. I'm not going to Robert Ainsworth of course—don't think that. I am now enjoying the bitterness of my mistake about him. I'll go to San Francisco, and perhaps there I can make some plan about my life. I'm taking about \$100 I have in cash, and some day I'll pay you back."

Joyce hesitated when she reached that point. She wanted to tell Neil how awfully much she appreciated his kindness, his kindness, to Frills, but she felt she simply couldn't let herself go on this subject. So she ended briefly, "I'll get in touch with you before long, Neil, because you'll want to be getting a divorce and I shan't stand in your way. Joyce."

Sam was warming up the motor of the Duesenberg; she could hear it purr outside the long French windows.

Joyce flung herself down on theavenport and stifled her sobs in a pillow. "Oh, Dicky," she said as a soft little nose insinuated itself into her clenched palm, "why should I feel so utterly wretched about the only decent thing I've done since I've been in this house? I don't want to go, Dicky, I really don't want to leave at all!"

Joyce had Sam take her to the Y.W.C.A. in which she had previously stayed in San Francisco, but she remained there only overnight, feeling that if Neil pressed Sam very hard he might tell her whereabouts, and she preferred to remain in hiding.

"I know Neil will feel that he should make every effort to find me," she thought, "but it'll be better if he does not succeed."

Joyce found it harder to get a job

than she had supposed. After installing herself in a cheap rooming-house under the name of "Florence Hilton" (to make it easier perhaps for Neil to get his divorce) she set out to find employment.

She took to reading the Want-Aids in the daily papers, but she could get up no interest in the kind of work they offered. She found that the luxury of living as Mrs. Neil Packard had sapped her courage, and left her less able to face hard work and uncomfortable living conditions. Her room filled her with horror; she was acutely unhappy every moment she had to spend in it.

She began to wonder what she would do when all her money was spent.

Somewhat sadly, she let her mind open itself to thoughts of Robert Ainsworth. She had tried to banish him but could not quite; persistently the thought of him would thrust itself up, only to be persistently ignored. She had but one conclusion to reach, and that was that he had failed her, that he had shown himself lacking in chivalry and courage, that perhaps ... he ... did ... not ... love her.

To Joyce this was too bitter for tears, too bitter for complaint. She could not hold her head up under the shame of it.

When the hundred dollars was so

nearly gone that Joyce was seized with a feeling of sudden panic, she shook off her legatistic mood and striking out wildly for employment, seized upon a position as file clerk in a large paper concern. The work could not have been less interesting or less profitable, but in her disorganised state its very dullness was beneficial to her. She kept to herself, finding that the other girls were suspicious of her finer clothes. It amused her to wonder what they would think if they knew how she really got them!

One day, less than a week after she had begun her job, Joyce was leaving the office at five-thirty in company with two of the other girls, with whom she was exchanging desultory remarks, when a familiar voice made her tremble.

"Oh, Mrs. Packard, Mrs. Packard!" It was Sam, calling to her from the Duesenberg, which he steered quickly to the curb and stopped. "Gee, I'm glad I found you!" He was out in a moment and holding the door for her, and Joyce, too befuddled to think of the amazement of the office girls, or even to remember to bid them goodbye, climbed in.

Sam started the car before he spoke further, and Joyce, suddenly overcome, burst into tears and began sobbing uncontrollably.

"There, there," Sam was saying, "it's all right, gee, I'm glad I found you!" ... and then in a minute, when Joyce was calmer, "Shall I make straight for Manzanita, or do you want to get your bags first?"

"Oh, Sam, I mustn't go to Manzanita! You took me so much by surprise that I just naturally got in the car, but I'm not going to be weak-minded as you think! If you don't mind driving me around for a little, until I get control ...," she sobbed at last.

"What do you mean, weak-minded? Excuse me, Mrs. Packard, but I think there's a tall lot of explaining to be done somewhere!"

Sam suddenly reddened, and looked at her with a mixture of apprehension and determination. "Maybe it's none of my business, and all that, but—gee, I like you and Mr. Packard both too much—," He stopped confusedly,

and then shot at her a perplexing question, "Why didn't you want to come home when Miss Abbot told you Mr. Packard's mother had died?"

Joyce stared at him in such honest bewilderment that he was impressed. "Why, what on earth are you saying, Sam? What do you mean? Has Mrs. Packard died since—since I left? Of course I didn't know! I haven't seen a soul from Manzanita! Tell me—please!" Neil's mother—she knew how fond he was of her—how he would grieve! Of course she must go to him at once.

"Gee, that's funny," Sam answered, "Miss Abbot said—well, you see, it was this way," he paused to collect his thoughts, "guess I'd better go back and tell you all that's happened since you left. When Mr. Neil came the next morning and got your note he was about sick. He was sick anyway, looked terrible, never saw him take on so..." Sam stepped on the gas, a grim expression around his usually pleasant mouth. "He sent for me right away, and I don't mind telling you that I told him all I know. He brightened a bit when he heard I'd taken you to the Y.W.C.A. in the city, and we both went there right away, and missed you by just twenty minutes, the clerk said. We hung around all day, hoping you might come back for something you'd left.

bed, in tense silence.

What next? What next? She had never felt less mistress of the situation since she had found herself Frills Packard.

Gradually, as night drew on, she heard sounds downstairs, and, along with pangs of hunger, she relaxed somewhat and began to consider facing Neil Packard. She took a hasty bath, and dressed herself in one of the pretty frocks that still hung in her closet. It shocked her to notice how worn and haggard she looked; the life that she had led in San Francisco had left its mark.

Sam was standing by the door as Joyce came down the wide stairs; he smiled at her with a return of the old friendliness, and then slipped out.

She was left facing her husband. All thought of how she should meet this situation vanished when she saw Neil. Such an intensity of unhappiness brooded over his face that Joyce was instantly stabbed, and without a moment's hesitation she ran toward him! He did not once lose his self-control, but the tragic look in his eyes lightened when he saw her, and his whole tense expression softened.

"It was a lie, Neil!" she said, "It was a lie that I knew! Of course I didn't. Oh my dear, my dear, forgive me. I'm so terribly sorry. I loved your mother too. No one could have helped loving her."

"I guess I was the dud," he said gruffly, "to have believed Joyce Abbott. Gee, I didn't know women did that sort of thing to each other!"

"Not all women!" said Joyce, "Remember it was Roxie who didn't believe her, and sent Sam to find me!"

NEWS OF INTEREST FOR BUSY FARMERS

Toronto Milk Producers Effect New Arrangement

The Toronto Milk Producers' Association has effected an entirely new arrangement between producer and distributors, in the Toronto area. Under the new plan, the distributing company will agree to accept a definite quota of milk from each shipper. The distributor, each month, will notify the producer of his quota for the following month. The producer may, if he desires, ship in milk exceeding this quota, for which he will receive a lower price. Producers are to ship to one dairy only, and any surplus milk must go to the same dairy. This, it is believed, will do away with the uncontrolled flow of surplus milk from one dairy to another, with the resultant depressing effect on prices.

Junior Team to Regina

Ontario is to be represented at the World's Grain Exhibition and Conference to be held in Regina, July 24th-August 5th, by a team of farm boys in the Junior Grain Judging Competition. The members of the team are:

Maurice J. Baker, Hampton, No. 1, Durham County.
Clifford G. Marshall, Woodstock, No. 3, Oxford County.
John Wallace, St. Paul's, No. 2, Perth County.

Oliver J. Smith, Burkton, No. 1, Durham County.

Mr. E. A. Summers, Agricultural Representative for Durham County at Port Hope, is to act as coach and will motor the boys to Regina. Mr. Summers was coach of the Durham County team which won the seed judging competition at the Guelph Winter Fair in 1931. Moreover, two of the four boys in the Junior Grain Judging Team are from Durham County.

Arrangements are being made to give the boys a couple of days' further practice in judging seed grain at the O.A.C., Guelph, on July 18th and 19th, preparatory to their leaving for Regina.

Strong Selling Point

A bulletin issued recently by this Department, points out that home-grown leaf lettuce contains more than four times the amount of iron as does the imported head lettuce. With people becoming more and more interested in the matters of diet, this knowledge should help to cut down our unreasonably extensive import of head lettuce. Latest available figures show that, during 1931, close to half a million dollars worth of head lettuce was imported via Ontario.

War Against Weeds

Dry weather and bright, hot sunshine are the farmers' greatest allies in the war against weeds, says A. H. Martin, assistant director, Crops and Markets Branch. July and August are busy months for the farmer, but it is during these months when the weather is usually hot and dry that the maximum damage can be done to weeds with the minimum of effort.

July plowing and early after harvest cultivation is to be highly recommended.

Hay fields known to be dirty should be ploughed immediately after haying, the furrows left to bake and dry out for 10 days or two weeks, then cultivated frequently as a Summer-fallow and seeded to Fall wheat early

in September. This so called dry cleaning method is very effective on Sow Thistle, Twitch Grass, Bladder Campion and other perennial weeds.

Straight Summerfallow is also very effective, although somewhat more expensive. Late sown buckwheat followed the next year with rape or roots is a splendid method of checking weeds.

The cleanest farms in Ontario are operated by farmers who practice a short three or four year crop rotation, who are particular in the use of clean, well graded seed and who practice thorough cultivation methods.

As weeds are cut, crop losses are cut, and in order that the worst weeds may be prevented from spreading, it is necessary that every owner of land, rural or urban expend every effort in digging, pulling, spraying, cutting or burning weeds before they go to seed.

Acute indigestion in horses is the result of one or other of the following causes: Sudden exercise after feeding; overfeeding; change of food; new hay or oats; feeding close-textured foods, such as meal when not properly bulked with cut hay.

Intercropping the Orchard

The central space between trees in orchards utilized for crops should be treated under the cover crop system. Hoed crops, like potatoes, strawberries, etc., are to be preferred to crops of grain or grass. Instances have been recorded where tall growing inter-crops, such as corn, when planted too close to the trees, have prevented the bark from properly ripening or hardening, with the result that a

large number of trees were killed by sun-scald the following winter.

Early July is the proper time to plant late Cabbage and Cauliflower, advises George Rush, vegetable specialist, Agricultural Societies Branch. Secure strong plants, and firm soil around roots. If soil is dry, water after planting. Good varieties for winter storing are Danish Ball Head and Green Globe Savoy.

For protection against green caterpillar, use 1 oz. Arsenate of lead to 10 gallons of water. Dissolve and spray as soon as insects move.

Carrots and Beets may be sown before July 15th for winter storing. These should be thinned to 1 and 2 inches respectively. Cultivation with the hoe is required to conserve moisture and allow air circulation. Carrots and beets sown now are more tender for winter use.

Beef Cattle Pasture Tests

One of the largest single pasture improvement experiments ever undertaken in Canada is now under the supervision of the Department of Chemistry O.A.C. and with the co-operation of Canadian Industries Limited. On the 1300 acre farm of Neil McLaughlin at Ailsa Craig, one of the best beef cattle grazers in the section, a 100-acre field has been divided in two, one-half of which received an initial application of 375 pounds per acre of a 4-12-6 mixture the last week in April. It is also planned to make an application of Nitro Chalk late in June. The other half of the field has been fenced off and will be left as a check.

Madoc Review — Miss Vera McGhee, Miss Lorraine Connor, Miss Rattray and Miss Grace Garrett, of the Public School staff, left on Thursday last for Montreal en route to England on Friday.

Pictou — It was announced at the public meeting at St. Andrew's on Friday night, by R. J. Craig, Clerk of Presbytery, that Rev. S. M. Scott, pastor, will succeed Rev. A. E. Cameron as Moderator of the Kingston Presbytery. The change will be made in September at the meeting of Presbytery which will be held at St. Andrew's Church, Pictou.

Marmora Herald — Mr. Robert R. Craighton, B.A., of Port Arthur, has been engaged as principal of Marmora Continuation School for the next school year. Mr. Craighton was recommended by Inspectors Mills and Hoag as their first choice among the men applying for the position. He expects to come to Marmora early in August.

Peterboro — One of the 17 money orders stolen from the C.N.R. station at Lakefield on the morning of June 30 when burglars carried away a safe containing \$60 cash and the blank money orders, was cashed last week at Maxwell, a small town in Grey County. This information was furnished by local police over the week-end by C. N. R. officials. It is now believed that the men who performed the Lakefield burglary have lately performed a series of thefts across the province. They are held responsible for at least two car thefts.

Ottawa — While the general opinion in government circles is that the approach of the Canadian dollar to parity in New York and the flight of the pound Sterling to above par on the Canadian market, means better times in Canada, it is understood that certain classes will lose advantages enjoyed under previous conditions. The half-yearly payments of Canadian Government bond interest in London were liquidated on July first, before the pound reached par, and there are no maturities until 1934, while the next interest day is Jan. 1, 1934.

On the Belleville Cheese Board of Trade there has been sold this present season up to and including the market of Saturday last, 1861 less boxes of cheese than in the corresponding period a year ago. The present season has seen sales of 12,139 white and 1193 coloured cheeses, a total of 13,332 boxes; in 1932 from the opening of the market in May to July 9th, of that year, 14,696 white and 497 coloured cheeses, a total of 15,193 boxes were sold. The price of cheese the present year, however, has seen a substantial advance each Saturday over the price of the corresponding week a year ago.

Township Council, held last week, a by-law was passed providing for the collection of rates from and off the rateable property for the year 1933 as follows: County rate 13.8 mills; township rate, 7 mills; general school rate, 4.9 mills; High School department rate, 4 mills; in addition to the above the clerk was authorized to add such rates as shall be required by the Trustees Boards of the various school sections within the township.

Cobourg — Cobourg Presbytery of the United Church met Wednesday at Vernonville, and elected the following officers for the coming conference year: Chairman, Rev. W. E. Honey, Wellesley; secretary, Rev. F. G. MacTavish, Campbellford; treasurer, Rev. J. F. Lane, Frankford. Votes of appreciation were passed to retiring Chairman Rev. G. D. Campbell, Carleton Place, and Rev. J. E. Glover, Secretary, Rev. D. M. Smith, Baltimore; Rev. Mr. Spencer, Smithfield, and Rev. Franklin Bannister, Gardena Hill, were cordially welcomed into the Presbytery.

Peterboro — A boatload of American tourists were forced to jump into the water and swim for shore last Friday evening on Rice Lake, when Madden Howard's motorboat caught fire. The party was out for a pleasure sail in Mr. Howard's 20-foot boat, when a short circuit occurred in the engine and a spark set fire to the grease in the bottom of the boat. Within a minute or two, flames wrapped the boat. Mr. Howard told his passengers, two of whom were children, to jump over the side. Luckily the boat was only about 50 feet from shore at the time and the water was not very deep at that particular spot. All the passengers made shore in safety.

Madoc — The charge of criminal negligence which was laid against Miss Marjorie Moore, of Napanee, following the recent death of Mrs. William King, Madoc Township, was reduced to "while operating a motor car she did cause actual bodily harm, resulting in the death of Mrs. King" when she appeared in the county police court here, held before Magistrate Casement last week. Following the submission of the Crown's evidence the young woman was committed to stand trial at the next court of competent jurisdiction. The charge arose out of a recent motor accident that happened near Madoc, when a car driven by Miss Moore collided with an automobile driven by William King, of Queensboro. Mrs. King was thrown from the King car following the impact and instantly killed.

Trenton — Two burglaries were reported to the Trenton police department on Sunday morning. A window was broken in Vanastine's service station some time during Sunday morning and sixty packages of cigarettes and twenty-five coppers taken. Dave McDonald on the Wooler road reported that thieves had entered his residence during the night and took two watches, \$11.50 in cash and a cheque for \$3.50 on the Bank of Montreal, made out to cash and signed by R. S. McDonald. The watches were valuable, one being a Waltham 23-jewel with white and yellow gold chain valued at \$165.00 and the other a 15-jewel Hudson wrist watch with a tonneau case. A neighbour of McDonald's, Walter Fox, reported a 30x3 1/2 tire, tube and rim had been taken from his garage. No arrests have been made but the police are working on the case.

Rockland, Me. — Fog enfolded the Atlantic coast last night, felt Mrs. Chas. A. Lindbergh's flying expedition to Greenland and Iceland. Taking off from New York for Halifax on Sunday, they landed near Rockland, Me. three and a quarter hours later, a wireless message to Chatham, Mass., announced. It was apparently fog, which lay thick over Nova Scotia, that forced them down short of their goal. Aviation officials at Halifax, watching last night, felt some anxiety until word of their safe landing arrived. The famous pair was expected to go on to Nova Scotia on Monday, weather permitting. The assumption here was that they made their red, pontoon-equipped ship fast in some cove near Rockland for the night. The summer home of Mrs. Dwight Morrow, Mrs. Lindbergh's mother, is at North Haven, across Penobscot Bay and Rockland, but no report of their going there was received. They carried sleeping equipment, and the belief was that they spent the night near Rockland.

Belleville — Narrowly escaping plunging into the Bay of Quinte from an open span of the Bay Bridge, a car driven by Foster McQuigge, Madoc, crashed through the safety gate which had been lowered, breaking it completely off. The car fortunately came to a stop before it arrived at the open bridge span. The windshield of the automobile was also broken

during the impact. Mr. Chas. Prindle of Madoc, a passenger in the car, sustained a badly lacerated knee, when some of the flying glass from the broken windshield struck him. He received first aid at the home of Mrs. Thompson, Rossmore. Mr. McQuigge was proceeding southward at the time of the accident, and it is alleged by the police that the brakes of his car were defective and he could not stop, when the safety gates were closed. The gates had been lowered and the attendants on the bridge had started to swing the open span to allow a passing vessel through the bridge. When the automobile struck the safety gate the arm was completely shattered and was later picked up lying some 20 feet from where it belonged. Mr. McQuigge fortunately was not travelling at an excessive rate of speed and managed to stop the vehicle before it dropped over the open span into the bay.

Moscow, Russia — Lost for three weeks in the wilds of Asiatic Russia, James Mattern, Texas round-the-world flier, is safe at Anadir, district of Chukchi, Eastern Siberia, according to word received here on Friday. As soon as Mattern's message was received the Soviet government wireless Siberian aviators who have been searching for him to go to his aid immediately. Mattern's safety was disclosed in a telegram, dated July 5, received here today from Carbarova, apparently a telegraph post in Far Eastern Siberia. This is 1,200 miles from Nome, Mattern's destination. There were no details of how Mattern had landed or when, the message merely stating he was safe. It appeared, however, Mattern had landed in some isolated spot and then contrived to send a messenger to the telegraphic post to flash the news of his safety. The Chukchi district comprises the most northerly section of Kamchatka Province, which extends along the northern and eastern coasts of Siberia. The district is sparsely settled and consists of a rough, broken terrain. The gulf of Anadir is one of the most important harbours in that section of Siberia, but it has little contact with the outside world, being mainly a trading post and landing section for fishermen and hunters.

Cooke, of Belleville, aged 81. It was decided that all family heads residing within a radius of 50 miles not attending next year be fined 50 cents, sickness or such to annul this penalty. What have I done!

This striking picture reproduced above played an important part in a recent highway safety campaign in the United States. This picture will be used by the Motor Vehicles Branch of the Ontario Department of Highways in safety advertising. The Department is using the press, the radio, and the schools in an endeavor to stem the tide of accidents on the highways. Last year's record shows 502 persons killed and 8,231 injured in automobile accidents in this province.

"The telephone saved my corn"

Early in the season, Fred Bennett noticed a strange blight on his young corn. It began to spread very rapidly. He had to do something at once if he wanted a crop.

Fred was enterprising. He called the government Experimental Farm by Long Distance telephone. The farm recognized the blight from Fred's description, told him what to do, and in a week the corn was safe.

Long Distance is quick, dependable, easy to use — and profitable.

GEORGE LAWRENCE IN TOILS

When he stepped into the witness box after pleading guilty to a charge of vagrancy, to answer statements by Constable Wickoff, George Lawrence, of Stirling, in his anxiety to clear himself inadvertently admitted the theft of a gold watch from Arthur Munroe, a friend and neighbour, in the police court proceedings, held before Magistrate Mikel in Belleville last Friday. Lawrence had been arrested by Constable Harry Wickoff and Provincial Constable Kelly, on a nominal charge of vagrancy, after the watch had been reported stolen. Lawrence at the time denied all knowledge of the whereabouts of the timepiece despite the fact that, on June 28th last he had been seen to enter the Munroe home while the occupants were absent. After hearing the evidence submitted by the Crown on the charge of vagrancy His Worship asked Lawrence if he wished to give evidence on his own behalf. The accused man told of going to the Munroe home to visit. He said he knocked on the front door and after receiving no answer went in as the door was unlocked. Ascertaining that no person was home, Lawrence claimed that he started out of the door, when he saw the gold watch

HOW TO THROW MONEY AWAY

Read in the American Weekly, with next Sunday's Detroit Times, how a titled English couple amused a jury with their fantastic "extravagances," including house parties where 36 guests dined every day for two weeks and the husband, who had several times a day, never wore the same gown twice.

hanging on the wall. "I took it home and carefully hid it because the Munroes had borrowed some things from us and never returned them," stated the prisoner. "Of course I intended to return it as soon as the Munroes gave us back our belongings," the accused went on rather nonchalantly. "Charge this man with breaking, entering and with the theft of a gold watch," commanded Crown Attorney Donnan, K.C. When the new charge was laid, Lawrence pleaded guilty to the charge and sentence was adjourned. Lawrence promised to accompany the police to his home in Stirling and reveal the hidingplace of the timepiece. On Tuesday morning this week Lawrence was sentenced to one month in the common jail with hard labour, time to date from his arrest.

THE LATE JAS. H. GAY

The following article relating to the late Jas. H. Gay, a native of Huntingdon township, appeared in last week's issue of the Petrolia Advertiser-Topple:

Local residents were shocked on Monday afternoon to hear of the sudden death of Jas. H. Gay, which occurred at the home of Mr. and Mrs. C. Willert, East End, about 4.30. Mr. Gay, who was 46 years of age, had appeared to be enjoying the best of health and showed no signs of illness until a few minutes before his death. Feeling weak, he sat on a chair to rest for a few minutes and suddenly fell to the floor, the victim of a heart seizure. Life was extinct by the time a doctor arrived. The late Jim Gay was born at Ivanhoe, Hastings County, where he received his early education. He later attended the Ontario Business College at Belleville, and on his graduation secured employment with the Belleville Canning Co., of which he later became manager. He later managed canning factories at Vinona and Beauveille for Senator

1913 to take charge of the Petrolia Canning factory. After holding this position for some years he resigned about ten years ago to take the local agency of the Dodge automobile. A few years later he entered into partnership with T. H. Speight under the firm name of Speight & Gay. This firm went out of business more than a year ago and Mr. Gay had since held various positions in town. In politics he was a staunch Conservative and Presbyterian in religion. Fraternally he was a member of Washington Lodge A.F. & A.M., and Bruce Chapter R.A.M. He is survived by one brother, Robert Gay, of Ivanhoe, and a sister, Mrs. Arthur Green, of Niagara Falls, Ont. Funeral services were held at Richmond's funeral parlours here on Tuesday afternoon at which the members of the Masonic Order attended in a body. The remains were later conveyed to Ivanhoe, where services were held at the home of his brother and interment made in Luke Cemetery, Ivanhoe.

SEEN THROUGH THE OFFICE WINDOW

(By The Office OWL)

To a lot of public school pupils the so-called "Entrance" exams are merely "Exit" exams, because they never intend attending a high school.

A broker who swindled the public out of thousands of dollars got two years at the Collins Bay Recreation Camp. A youngster who stole some money orders from a couple of stations in this district, got about seven years in the Penitentiary. All of which goes to show that the law doesn't believe in people doing things by halves.

It will generally be noticed that the fellow with worth-while ideas talks the least.

Those citizens who kick because they cannot get a cheaper rate by using the waterworks for part of the summer only, seem to forget that if everyone wanted the service for only a month or two — nobody would be getting it at all.

In answer to the title of that poem "What is so rare as a day in June", we would suggest — a red-headed Chinaman.

In a lot of homes in Stirling, daughter's devotion to father is far more intense when she's asking for her weekly allowance.

A local doctor states that acting as a judge at a fall fair baby show is a far more dangerous occupation than parachute-jumping.

Many of the local merchants who do not see that advertising in this paper would bring them bigger and better business, would raise a howl if we were to change our present policy and carry department store ads from the neighbouring cities.

A Belleville church-goer says that when a minister comes to the place in his remarks where he says: "and in closing let me say—", he settles down to listen to the other half of the sermon.

The editor says he would rather waste three dollars and know where it went than lose a forty-cent tennis ball in the hay behind the local courts, and not be able to find it.

In these days the only way to make a dollar go a long way is to mail it to a friend in Australia.

Even a mirror cannot tell the truth when handiapped by a coat of rouge and powder.

If she's fifty-one and single yet she still has her happy moments. She can still use her imagination.

George Thompson says that he is very fortunate. After he milks all the cows and takes the milk to the factory, does the chores, cuts some hay, plows a four-acre field for buckwheat, fixes a gate, picks three dozen boxes of strawberries, milks the cows again and does the evening chores, loads on a wagon-load of grist to take to the mill early in the morning, and carries in a few armful of wood, he has all the rest of the day to himself. Farmers have a good time anyway.

In the Juvenile Courts a Board of Correction manages affairs. In olden days the "Board of Correction" was the old-fashioned cedar shingle, used in the woodshed, and as a general rule it brought good results.

Why shouldn't United States take a forty per cent. payment of their war debts? They took a little over sixty per cent of the credit of winning it, so that balances things up!

A great many of those who are "peeved" because direct relief has been cut off, are much too old to believe in Santa Claus.

We read in a contemporary the other day of a woodpecker trying to build a nest in an old wooden leg. Probably just his idea of "hitch-hiking" to the nearest village.

Those who pushed the waterworks project in Stirling claim that instead of a "flood" of new taxes, they have "washed away" a mill from the tax rate.

When Little Mary went to school, her lamb was the attraction. Now she's grown up and finds that it's her "calf" that brings reaction!

Many a man who claimed to be "quick at figures" has allowed himself to marry one of them to his sorrow.

The Yanks must be regaining faith in themselves. They're beginning to open their bank doors a little wider.

Oddfellows Decorate Graves

Stirling Lodge I.O.O.F. held its annual decoration service on Sunday, and bouquets were placed on the graves of over seventy brethren in Stirling cemetery. About 2.30 about fifty members, including brethren from the lodges in the district headed by the Frankford band, left the lodge in march formation for the cemetery. When about to pass the cemetery the procession halted and bouquets were placed at its base by Bros. J. G. Butler and F. T. Hulin, after which the Band played "Nearer My God to Thee." The following are the names of brethren whose graves were decorated:

VOTERS! SHUN!

In the past, complaints have been made by some citizens regarding the manner in which their names appear on the Voters' Lists. The lists have been printed and placed in the hands of Clerk G. H. Luery and the FINAL day for corrections and omissions is next Monday, July 24th. Eligible voters are requested to see if their names are on the list correctly, and not wait until election time, when in some cases it is too late to rectify.

NEW DANCE HALL

Stirling has a new centre of attraction for those who enjoy the grand fantastic. Mr. Thos. McCaughen, owner of the Paisley House, has opened up a new dance hall in the building at the rear of the hotel, under the direction of Tom Furnival, which will be known as the "Midway Dance Hall". The interior has been renovated into a most attractive dance hall with a hard-wood floor. The walls and ceiling have been decorated with evergreen boughs, flags, etc., and presents a neat, clean and tidy appearance. Round and square dancing is staged every Tuesday and Saturday nights, with the squares being the most popular. The music is furnished by a six-piece orchestra, composed of H. "Tip" Blea, Stirling, pianist; violins, Blake Johnson, Walter Johnson, Wellmanns, Thos. Bronson, Springbrook; banjo, Russell Pitman; trombone, Tom Furnival.

MRS. OSBORNE INJURED

Mrs. John Osborne, who resides west of Stirling, on the Campbellford road, suffered a painful accident on Saturday night, when she was forcefully thrown from the buggy in which she was riding. Mrs. Osborne was proceeding up Front street, when a cat darted out in front of the horse, and the beast became frightened, jerking the buggy and causing the driver to be hurled to the pavement. Medical aid was summoned but fortunately Mrs. Osborne escaped serious injury, although painfully bruised. She was removed to her home and although advanced in years, has now practically recovered from her severe shaking-up.

BEAUTIFUL FLOWER BEDS

Practically everyone likes flowers. We wonder if residents of the community have made a tour of inspection of the village to see the beautiful flowers on display in different sections. One of the most outstanding flower beds is the rock garden owned by Councillor Harper Rollins. The writer paid it a tour of inspection on Tuesday afternoon. There are flowers of all kinds, and the entire "garden" is well balanced. It is indeed an asset to the village, and much work has been necessary to make this "spot of bloom" a reality. There are other beauty spots, too, worthy of special mention, including flower gardens of Councillor D. A. Burkitt, E. Ward, A. Hammond, Dr. H. H. Alar, Jos. Wilson and others.

TENNIS NOTES

On Saturday afternoon the Stirling Tennis Club staged its first tournament with outside players, eleven members of the Tweed Club being visitors. The tournament was a most successful one in every way, even though the visiting team did win nearly all events. This was the first time the local Club, which is only its second year, has ever faced outside competition, and it was no disgrace to lose out to a team such as that sent from Tweed. The visiting group are well-seasoned players, having played in important tournaments throughout eastern and central Ontario for several years. As it was, the locals showed up well and with a little more experience are expected to develop some real talent.

Courts had never been in better condition and many of the visiting team were heard to remark on the excellent equipment possessed by the local club. The game between Fred Joblin and Calvert was one of the most interesting of the event, while the Dobbie-Pedley vs. Patterson-McCutcheon tilt was a very evenly matched one. The visitors took the first set 6-3, but the home team staged a real rally and after a hard battle took the second set 11-9. On account of a lengthy program the third set was not played and the game ended with a set each. In the mixed doubles event Mrs. Pedley and Jones won their event from Miss B. Gordon and Bowers 7-5 and 6-4. The following are the results: McGee won from Potts (6-0) (6-2); Calvert won from Joblin (7-5) (6-2); Clarke won from Martin (6-0) (6-2); Miss Gladys Gordon won from Miss Helen Mallory (6-0) (6-2); Calvert and Leman won from Baker and Bailey (6-2) (6-3); Dobbie and Pedley broke even with Patterson and McCutcheon (6-3) (9-11); Mrs. Pedley and Jones won from Miss B. Gordon and Bowers (7-5) (6-4); Miss R. Martin and Craven lost to Patterson and Miss Gladys Gordon (6-2) (6-0); Mr. and Mrs. H. Lovibond lost to Clark and Miss B. Gordon (2-6) (6-4) (6-3).

Mrs. Potts opened her home to the Club and at 6 o'clock a dainty lunch of sandwiches, cake and coffee was served to the visitors and members, under her supervision. Mrs. Potts was assisted by Misses Bessie Conley and Dorothy White and lady members of the club.

There will be a meeting of members of the club at Dr. Pedley's residence, on Friday evening at 7.30 for the purpose of discussing an open tournament to be held in August. It is hoped that a good representation will be present.

A "ladder" tournament is now under way and considerable interest is being taken, with many of the "top runners" in danger of occupying a position farther down the ladder.

Lloyd Rowland Wins Cash Prize

Mrs. Harper Rollins has presented five dollars to Lloyd Rowland, son of Rev. E. W. and Mrs. Rowland, as a reward for obtaining highest standing among pupils of Stirling Public School at the recent High School Entrance Examination. It will be recalled that this is the second year that Mrs. Rollins has offered such a prize, Stewart McGowan having won it last year. The Board of Education is deeply appreciative of the thought prompting Mrs. Rollins in making this fine offer, and hopes that the efforts put forth to win it may, whether winning or not, be beneficial to all pupils concerned. Mrs. Rollins is to be complimented on thus showing her deep interest in the matter of Public School Scholarship, believing as she does, that better Entrance standing means better results in High School.

NEW TROPHY FOR RAWDON RIFLE CLUB

Through the efforts of George F. Wellman, captain of the Rawdon Rifle Club, an elegant silver cup is being presented for competition by E. B. Collett, of Toronto. This cup will be awarded to the member of the club making the highest aggregate score on the range this season. The cup is at present on display in W. E. Gould's Drug Store, Marmora. Mr. Collett is a well-known box manufacturer of Toronto, and he with his fishing party visits his "Shiny Rock Camp" at Crowe River every summer.

ST. PAUL'S HOLD SUCCESSFUL PICNIC

Members of St. Paul's United Church and Sunday School held their annual picnic yesterday afternoon on the north end of Oak Lake. The day was ideal and both young and old entered in the sports of the day with zeal. The ladies prepared a sumptuous dinner, which was served on the long tables in the tabernacle. The men engaged in horse-shoe pitching, and swimming was also popular, along with other games. A program of races was staged and the following were the winners of the different events:

Girls' race, running, 6 and under—Joan Munro and Ruth Reid.
Boys' Race—6 and under—Fred Eggleston, Don Shore.

Chautauqua is Coming Here

The News-Argus received a circular through the mail on Tuesday morning announcing that the Canadian Chautauqua will be held in Stirling on September 25, 26, 27, and 28. Last year sufficient guarantors were secured for this entertainment. It is some years since Chautauqua played in Stirling, hence it should be well received by the people of the community. It has proven quite popular in neighbouring centres. This year's program will be as fine as the best series of programmes that you have ever had. There will be a Negro Jubilee programme; one thought-provoking play; one of lighter vein; an informative lecture; a special children's programme and other feature attractions. Watch for further announcements.

Youngster Saved from Drowning

A near fatality occurred in the swimming pool, Memorial Park, on Tuesday morning, when the little son of Mr. and Mrs. Arthur Shore waded beyond his depth. His little playmates failed to notice that the youngster was drowning and if Mr. Gordon Bulley, of the Hydro staff, who was passing, had not jumped from the bridge and grabbed the boy, undoubtedly he would have drowned. The youngster had gone down twice and only his little hand was above water when he was saved. He suffered no ill effects. This pool has only been in operation for a short time this summer and youngsters are warned not to take chances. It is impossible to have supervision every hour of the day, and if the pool is going to prove dangerous, although the water is only about four feet in the deepest spot, the stop logs will have to be lifted and the pool eliminated.

PLANS FOR FALL FAIR

An enthusiastic meeting of the directors of Stirling Agricultural Society was held on Tuesday night for the purpose of revising the prize list and other business. Several changes were made in the prize list so as to meet the requirements of present conditions. It was decided to hold only two races, 2.18 and 2.26 classes. There will be a softball tournament with cash prizes for competition. The Championship School Fair will be the usual drawing card and it is expected that there will be an attractive exhibit of work done by the pupils of Stirling Public School. The directors are looking forward with confidence for this season's fair to be one of the best in the Society's history.

A FEW COMMENTS

Prices for wheat are soaring, but that will not mean much to the western farmers who have no crops.

At the same time, the net result should mean a great increase of new wealth for Canada. The estimated crop is down by 23 per cent, but as prices are up by about 100 per cent, the value of the 1933 crop should be far ahead of that of last year.

When 24 out of 25 aeroplanes can cross the Atlantic in mass formation in safety on a flight from Italy to Chicago, one is bound to admit that the conquest of the air is much nearer completion.

The pound is now worth over \$5.00 in terms of Canadian currency. Which means a great improvement in the returns from Canadian produce sold in Great Britain. The apple growers of this district should again be smiling.

HISTORY OF AGRICULTURE

An interesting pamphlet dealing with the history of the Dominion Department of Agriculture has just been published. Primarily intended for issue at the forthcoming world's Grain Exhibition at Regina, the history is in effect an epitome of the advance of Canada among the leading nations of the world, and incidentally gives to the public of Canada a very clear idea of the actual work and the valuable services, past and present, rendered by the Department. The Department of Agriculture is older than Confederation, having had its origin in 1862 in the Bureau of Agriculture of the Province of Canada, and in 1867 its scope and jurisdiction in the Dominion were laid down by the British North America Act. At one time the Department of Agriculture embraced Immigration and Emigration, Public Health and Quarantine, the Marine and Emigrant Hospital at Quebec, Arts and Manufacture, the Archives, the Census and Statistics, the Registration of Statistics, Patents of Inventions, Copyright and Industrial Designs and trademarks. With all these multifarious duties, little attention could be paid to Agriculture proper, but in "The Department of Agriculture: Its History, Organization and Work," issued by the Publication Branch, the story is told of how the Department shed its extraneous services and devoted itself to making Canada one of the foremost agricultural countries in the world.

IS SR. SURGEON

The many local friends of Dr. John T. Shea will be pleased to learn that he has been appointed senior physician on the staff of the Belcherstown State School, Belcherstown, Mass. Dr. Shea is the son of Mr. and Mrs. M. Shea, Stirling.

100 PER CENT PASS

Congratulations are due Miss Mabel McCarthy, teacher at Beaver Creek Public School, near Marmora. She had an entrance class of six and all were successful, with two receiving honours. Miss McCarthy is a niece of Mrs. Geo. Lagrow and an ex-student of Stirling High School.

CHECK RADIO LICENSES

Have you secured your radio license? Local radio owners are going to find themselves facing a penalty if they have not secured their licenses. Why? Because government inspectors are making a check-up on radio licenses this week and for the radio owner who has not that "little scrap of paper" for the year 1933, it is just going to be too bad.

CARS COLLIDE

An accident occurred in front of the Dominion Stores about 10.30 on Saturday night, when a car driven by L. H. Jones, Campbellford, collided with a car driven by Mr. John Green, of the fourth concession, Rawdon. Mr. Green was pulling away from the curb, heading east, when the Campbellford car hit him. According to Constable Wickert the Jones car, which was travelling west, was four feet on the wrong side of the road, hence was at fault. In the mix-up fortunately none of the occupants were injured, but left fenders and axles of both cars were bent and the gasoline line in the Green car was damaged. Both cars were taken to Bailey's garage for repairs.

BOWLING NEWS

Last Thursday two local rinks of lady bowlers took part in a tournament held in Belleville. Each rink won one game and lost two. The rinks were as follows:

Mrs. R. W. Melkielejohn, Mrs. Geo. Lagrow, Mrs. Ernest Munro, Mrs. W. J. Whitty, skip; Mrs. Clifford Baker, Mrs. Clifford Hutton, Mrs. J. G. Butler, Mrs. J. McC. Potts, skip.

A mixed rink of local bowlers, composed of Mrs. R. W. Melkielejohn, J. S. Morton, Mrs. W. J. Whitty and W. J. Whitty, skip, took part in a tournament held in Peterboro yesterday. The contest was held up due to rain. The locals played two games, losing both of them.

At Brighton
A local rink, with Fred Mallory, R. A. Patterson, J. E. O'Donnell and Walter Wright, skip, entered the Men's bowling tournament held in Brighton yesterday. They played three games against Belleville, Brighton and Port Hope, winning the last game, but losing the first two by a close score.

A GUN MYSTERY

On Wednesday afternoon, last week, Mr. Michael Shea, whose farm is located on the Frankford road, just south of the village, made a discovery that has proven a mystery. When about to enter one of his fields, he noticed in a nearby culvert a neat parcel wrapped in brown paper. After picking it up and removing the wrapper he was in possession of a single barrel, sawed-off shot gun. Here was a mystery. How did this firearm get there? It was in first class condition and well oiled. The gun is ideal for hold-up purposes, measuring about eighteen inches. It is thought from the wrapper which did not show wear from exposure that the death-dealing instrument had been placed in the culvert recently. The provincial police were informed of the find and on Monday morning Prov. Con. Kelly, of Belleville investigated. Last Spring, near the same spot, two pairs of dark trousers, a coat and a large dark handkerchief were found. This adds to the mystery as in all probability the culvert may have been used as a hide-out for hold-up equipment.

RAWDON SOFTBALL LEAGUE PLAY-OFFS

The play-offs in the Rawdon Softball League are now creating considerable interest. Hoards and Springbrook, winners of last year, are the contending teams. In the first game, played in Campbellford last night, the tilt ended with a score of 12-12. It was a fast game and appealing to the spectators. These teams are evenly matched and no doubt the remaining final games will be keenly contested. The batteries were Lorne Bateman, pitcher, and Geo. Williams, catcher, for Springbrook and Smith and Barney Eagleson, pitchers, and Willie Jeffs, catcher, for Hoards. Smith started off for Hoards, but had to be replaced by the old reliable Barney Eagleson, who stepped into the box and held the northern players in check. The fielders on both teams played first-class ball with a few errors. The umpires were: A. E. Dobbie, Stirling, home plate; Geo. Dobbie, Menie, first and second bases; and Wm. Bone, Bonarlaw, third base. With last night's game a tie, the finals are just beginning again. The next game will be played in Stirling fair grounds next Monday night. A large crowd is expected and an interesting game is assured.

While the price advances are encouraging farmers in Hastings County would be much happier if they could have a generous rainfall.

CURRENT COMMENT

Horse-drawn vehicle drivers should bear in mind that they are to observe the "Stop" street signs as well as the motorists.

Did you ever notice that when you see a married couple coming down the street, the one who is two or three steps ahead is the one that's mad.

We have often wondered why the people who are always saving so much money by buying out-of-town never seem to have any more cash than the rest of us.

The unearthing of a robber's "cache" on the Frankford road, south of the village, makes one realize that perhaps we have burglars and hold-up men in our midst.

We have noticed where Premier Henry claimed there is no demand for an election in Ontario. Surely Mr. Henry has read at least one of Mitch. Hepburn's speeches.

After Saturday night's accident we would again emphasize the necessity of motorists keeping to the right when passing the Danger Corners, Front, Mill and North Streets.

The oiling of highways Nos. 14 and 33 through the village has been greatly appreciated by those occupying property along that section. It is money well spent and has eliminated a great dust nuisance.

Rain is badly needed. In some sections spring grain is ripening fast — with short straw. "Old Sol" is certainly scorching things and unless a shower occurs in the near future, the grain yield will be small and the apple crop will also be effected.

A new marriage act recently passed by the legislature of the Province of Saskatchewan, which came into force on July 1st, requires a health certificate from the male applicant for a marriage license. Saskatchewan is the first province in Canada to introduce such a measure.

Motorists who have been speeding on the local streets and particularly in the business section, had better press gently on the foot accelerator. Constable Wickett informed this paper on Tuesday morning that he was going to check up on motorists for speeding and other infractions. Hence our warning.

To attain success there must be co-operation. This being a fact, we would suggest that the local merchants organize a Business Men's Association. Individual difficulties of a merchant could be dealt with by such a body and the buying public would also realize some benefit. Think it over merchants, and then act!

The Italian air armada created a sensation throughout Ontario last Saturday in its journey from Montreal to Chicago. The squadron was split in two, half passing over Hastings county south of Stirling, and half north, but

unfortunately was not visible from the village — therefore residents did not suffer from "stiff neck" through gazing into the atmosphere.

People will be well advised to keep clear of magazine canvassers. Some of them may be all right, but it will be better to pay no attention to their sales talk or requests for money. And if you sign an "order" you may find in a few days that it has turned into a "note" or cheque. This kind of business has been done in other places. It is better to be safe than sorry.

Cheese took a drop in price on Saturday. Why? This can, no doubt, only be answered by the buyers' combine. With the English pound at \$5.04 or eighteen cents above par, the drop was undoubtedly mystifying to the producers. Unfortunately there are too many combines through which the farmer has to dispose his produce or in other words the producer gets the "butt end of the stick."

As Dr. Coule would say, every day in every way business is getting better and better. The business man who showed us a fifty and twenty dollar bill recently rubbed our nose with two hundreds the other day and he didn't lock the door this time. We tried to borrow one of the hundreds just to attempt to nonchalantly purchase a nickel package of gum, but business isn't that good yet.

The names of boys and girls in Stirling and districts who passed the entrance examinations, either through writing or on their year's work, appeared in last week's issue of the News-Argus. To these new High School pupils we extend our heartiest congratulations, and we trust that when in September they present themselves in High School halls and take a highly important step in their education careers they will realize to the fullest extent their opportunities and obligations and take full advantage of them.

According to figures given wide publicity not long ago in the press, the Post Office Department of Canada annually loses the sum of \$250,000 in postal revenue by the extension of the franking privilege to members of parliament. This is a lot of money, and no doubt much more than it should be because of the fact that it has been revealed more than once that the privilege has been abused by some members who have been found using it to further their own personal affairs. There is a widespread feeling in Canada today that the franking privilege should be abolished altogether. There seems to be no good reason why members of parliament with the money they are paid for their services cannot pay their own postage and add to the government treasury much needed revenue.

Why "Ban" Man Only

On July 1st a new marriage law came into force in the Province of Saskatchewan which contains many new features, the chief of which is that which requires an applicant for a marriage license to provide a certificate of health. The section reads: "Before application is made for a license or before banns are published, the male applicant is required to produce a certificate of health signed by a duly qualified medical practitioner, and it is necessary that the medical examination should have been made not more than ten days previous to the date of application for license or the proclamation of banns." This, we think, the first time such legislation has been passed in this country and one feature of it is, the fact that the required certificate is demanded only from the man; it seems to be presumed that the woman is exempt from all the evils against which the new law attempts to guard. The law is intended to prevent marriage between persons who are suffering from tuberculosis, venereal disease, or chronic mental disease; unfortunately these troubles are by no means confined in their operations to the male sex. It is well to protect the country against the marriage of unfit males, but is it not just as necessary to safeguard against the marriage of unfit females? Just why the requirement was laid upon the man and omits the woman we cannot say, but at first sight it appears rather unreasonable.

total length of the canal from Trenton to Port Severn is 235.4 miles and of this there are but 32½ miles of Canal.

At Peterborough is one of the largest hydraulic lift in operation in the world. There are forty-two stoplog dams and one beach dam in the system. Sixty-five public service wharves, thirty-nine of which are of wooden construction, are maintained by the department on the Trent and Severn Rivers. Thirty-four light-houses and about 700 buoys are maintained as aids to navigation. The channel for the most part is 100 feet wide with about seven feet depth for vessels between Trenton and Lake Simcoe. As pointed out above, this is the hundredth anniversary of the beginning of the Trent Canal. It was a fine piece of work and cost the country millions of dollars. But, no doubt, it has long since been paid for, and although it may not command the business expected of it when it was planned and completed, yet it is here to use and probably would be used more if properly exploited.

The Trent Canal passes through finest farming country, interesting and prosperous villages and towns; through wonderful lakes, amid unparalleled scenery; along towering cliffs and virgin timberlands. It is a two hundred and thirty-five miles of ideal playground for the tourist and lover of the great open spaces. For the man who likes fishing and all the sport that fishing means, The Trent Canal is highly recommended.

Trenton Courier-Advocate — The road from Trenton Junction to Frankford is in a very bad condition and it might be improved if the "curbstone" was put over it. This road is passable but too rough for comfort and the heavy traffic passing over it.

LEARN TO SWIM

The Ontario Safety League wisely warns people to be careful when bathing or swimming, stressing the following points:

In a safe place.
With others, never alone.
Never in less than one hour after meals.
When you are not too tired.
Dive only in water you know is deep enough.

All this is wise advice and should be impressed on people throughout the province, because if everyone took the precautions listed above, there would be but very few drowning accidents.

Every boy and girl should learn to swim. There is no excuse for not learning, because it is so easy, and the ability to swim is of wonderful value as so many people spend their vacations near water. Unless a person can swim, much of the pleasure is taken away from boating and one is apt to be a helpless spectator while a child drowns within a few yards.

Swimming gives more pleasure in summer than almost anything else that can be named, and is only another of many reasons why people should set themselves the task of learning to swim at the first opportunity.

Thos. Jarrett, J.P., publisher of the Quinte Sun, Trenton, has been recommended by the Liberal-Conservative Association for the Police Magistrate's office of that town.

A TALK WITH NATURE

As I walked along the meadow,
And watched the sullen sky,
The clouds in numbers scudded past—
Passing swiftly by.
As I lowered my eyes again to earth,
In large numbers I could see
A herd of cattle browsing there,
Feeding most peacefully.

No troubles at all seemed they to have—
In fact contented were they,
And "Oh!" I said, with a cherished thought,
"How wonderful Nature seems to-day."

The earth seemed full of music,
The birds were sweetly singing—
The little calves frolicked and played,
Then back to the herd came springing.

Then, all of a sudden, they disappeared
Among that herd of cattle,
Now, to view the little ones again
Was surely quite a battle.
Now here is one, and there's another,
And yet another yonder,
How they could separate so quickly,
Most surely made me wonder.

And then my thoughts drifted homeward,
I turned and started for home,
And I thought as I journeyed forward,
"How sweet to be left alone."
Alone with Nature that afternoon,
Conversing we seemed to be—
And I said as I drifted homeward,
"Nature is sweet to me."

God loves the little flowers,
The birds and little bees,
He loves the little insects,
The grasses and the trees,
He even loves the butterflies
That float along the breeze—
And He gave them all to Nature,
And she possesses these.

How we should love these little things,
God made them all for us,
These little things enjoy their lives,
And make the world seem thus.
Therefore, how thankful we should be.

With Nature to abide,
Remembering God who loveth all
Is always by our side.

CONSISTENT ADVERTISERS WINNING OUT

(Financial Post)
Booming of securities and commodities has increased most of the business of those brokers and commission merchants who have been consistent advertisers during the depression. These are increasing their advertising in line with the new opportunities and they are doing much better than those competitors who obtained from advertising while business was dull. Those who have not been advertising in the last few years are coming in again. They find that they have to do so to get the business and that they have to advertise much more than they otherwise would to regain the ground lost as a result of their long silence. Every business depression of the past has underlined this lesson but a lot of business men have to learn it anew each time.

THE CENTENARY OF THE TRENT CANAL

(Trenton Courier-Advocate)
One hundred years ago, the few residents of Upper Canada desiring a short-cut between Georgian Bay and eastern points, conceived the idea of turning the existing chain of rivers and lakes into a canal. The reason of all this is not apparent to the writer unless that the short route across the middle of Ontario was more practicable for the fur-trader, and explorer and the lumberman.

And thus came about what is today known as "The Trent Canal."

While it was that 1833 saw the full execution of the scheme, this canal had been contemplated as far back as 1827. However, it was in 1833 that the work really began. It was under the management of the Inland Water

Commission, acting under appointment from His Excellency Sir John Colborne, Lieutenant-Governor of Upper Canada. Between the years 1833 and 1844, locks were constructed at Glen Ross, Hastings, Peterborough and Lindsay. These locks, together with locks constructed by the Provincial Government in 1869-72 at Young's Point, and Rosedale, had made available to navigation about 172 miles of lakes and rivers, divided into five unconnected reaches: Healey-Peterboro, Lakeside-Burling, Buckhorn-Fenelon, Fenelon-Cobocok, lakes Simcoe and Couchiching, and also Sturgeon lake to Port Perry.

1883-87 locks and short canals were built by the Dominion Government at Burling, Lovesick, Buckhorn and Fenelon, connecting the Kawartha lakes. By the construction of the Peterborough-Lakeside and Balsam-Simcoe divisions, 1895-1907, 167 miles of the through route were made available, which with the Scugog navigation, opened over 200 miles of inland navigation without outlet to the Great Lakes. Outlet to Lake Ontario was given on the opening of the Ontario-Rice Lake division in 1913. By the opening of the lock at Washago, on the 6th of July, 1920, and the construction of the marine railways at Swift Rapids and Big Chute for motor vessels of 35 feet by 9 feet by 3 feet of 5 tons such vessels can now pass from Lake Ontario into Lake Huron through the lock at Port Severn connecting Gloucester pool with Georgian Bay, which lock was opened in July, 1915.

The first vessel to make the through trip was the motor launch Irene. She left Trenton on 3rd July, 1920, and arrived at Port Severn on the 12th July, 1920, just thirteen days and yesterday (Wednesday).

There are forty-two locks between Trenton and Washago, representing in all a lift of about 397.17 feet. The

Not That Kind
Fair One: "I suppose you visit Can-
ada to satisfy your thirst for travel?"
American: "No; just for my thirst."

Taking No Chances
It was along a beautiful stretch of
highway, and the telephone line along
the way was in the hands of repair
men. She was driving and cooing,
when of a sudden she spied the men
climbing the telephone poles. "Elmer,
just look at those fools," she exclaim-
ed; "do they think I never drove a
car before?"

Head Her Off
The train suddenly came to a
grinding stop, which made the pas-
sengers jump.

"What has happened, conductor?"
asked a nervous old lady.

"Nothing much, we just ran over a
cow."
"Why, was it on the track?"
"No, we chased it into a barn."

An Old Timer
"What are they moving the church
for?"

"Well, stranger, I'm the mayor of
these diggins, and I am for law en-
forcement. We've got an ordinance
what says no dance hall shall be near-
er than 300 feet from a church. I
give 'em three days to move the
church."

Doubtful
What is a debtor, Pa?"
"A man who owes money."
"And what is a creditor?"
"The man who thinks he's going
to get it."

No Hours For Him
Hired Man: "I wanna go in town
today to get my watch fixed."
Farmer: "You don't need no watch.
Use a calendar instead."

Limited Imagination
The works clerk approached the
foreman of the factory.

"Any accidents to report?" he ask-
ed.

"One," replied the foreman, and
handed over the report. It read:

Date—November 2nd. Nature of ac-
cident—Badly crushed toe. How
caused—Blow from hammer (accid-
ental). Remarks—

"Why no remarks?" asked the
clerk.

"Well," said the foreman, "seeing
as 'ow you know Bill, and seeing as

'ow you know what crushed 'is toe,
ain't you got no imagination?"

A Good Name For It
Son in college was applying pres-
sure for more money from home. "I
cannot understand why you call your-
self a kind father," he wrote, "when
you haven't sent me a check for three
weeks. What kind of kindness do
you call that?"

The father replied: "Dear Son:
That's unremitting kindness."

Well Supplied

Mr. Smith had just finished putting
the seeds into the garden.

"How about the birds eating the
seeds?" queried Mrs. Smith. "Hain't
you better put up a scarecrow?"

"Oh, that doesn't matter," was the
reply. "One of us will always be in
the garden."

Norwood Register—Dr. H. G. Car-
leton returned Monday from a trip to
Victoria with stops enroute. Al-
though delighted with the attractions
of the Rockies, Victoria, Edmonton
and other beauty spots, Dr. Carleton
was especially impressed with the op-
timism of the people of the middle
west, particularly at Gleichen, Alta.
He saw some very fine crops during
a 75-mile trip out from Swift Cur-
rent.

NEWS OF INTEREST FOR BUSY FARMERS

Minerals For Sheep
A suitable mineral mixture contain-
ing a small amount of iodine in some
form should be available to sheep and
lambs at all times. The following
mixture is recommended by the Do-
minion, Quebec, Nova Scotia, P. E. I.
and Ontario Departments of Agricul-
ture: Salt, 50 lbs.; sulphur, 2 lbs.;
oxide of iron, 1 lb.; ground limestone,
20 lbs.; Potassium iodide, ½ to 1
ounce. This should be mixed and
placed in a self-feeder box from
which the sheep may be able to help
themselves, or two pounds of the mix-
ture may be fed with each 100 lbs. of
grain.

Preventing Pig Losses
One of the common causes of death
among suckling pigs is nutritional an-
aemia. The critical period is between
two and four weeks of age. During
this period and until weaning, the
suckling pig must have access to
some source of iron in addition to the
mother's milk. Professor Knox, O.A.
C. states that one of the simplest
means of prevention of loss is to
place sods, one foot square in size,
which have been treated with a solu-
tion of ferric sulphate, in a small pen,
one sod for each pig each week. This
sulphate can be sprinkled on the sod
with an ordinary watering can, and
the strength of the solution should be
one teaspoonful of ferric sulphate to
one quart of water per sod. It is
wise to secure sods from areas where
pigs have not frequented for at least
one year, in order to prevent possible
parasitic infection.

Spraying Potatoes
Sprayed potatoes yielded one hun-
dred and twenty bushels more per
acre than those not sprayed in recent
tests. The yields were one hundred
and seventy-two and two hundred and
ninety-two bushels per acre on the
two adjoining fields. It took twelve
sprays to make the difference. In-
creased yield is not the only consid-
eration. If blight is present, and the
weather is unfavourable, spraying is
necessary to get any kind of a yield.
Spraying pays in a good year, and is
absolutely essential in a bad year.

Ontario Fruit Act

Particulars of the Ontario Fruit
Act, 1933, respecting the sale, con-
signment and inspection of fruits and
vegetables grown in Ontario have
been announced. The provisions of
the new bill and the regulations un-
der which it is made effective are
given by Mr. P. W. Hodgetts, Director
Ontario Fruit Branch, Parliament
Buildings, Toronto, who has been
made administrator of the measure.
Application forms for permits and
particulars of bond regulations are avail-
able at that office. Henceforth all
closed packages of fruit and vegeta-
bles intended for sale either within
or destined for points outside On-
tario will be subject to inspection. All
agencies interested in the handling
of fruits and vegetables on a consign-
ment basis and truckers handling on
either purchase or consignment busi-
ness will be required to take out per-
mits from the Ontario Fruit Branch
and be bonded as to their financial
responsibility.

Weed Cutting in Haldimand
Attention has been focused on
many products or events by the in-
troduction of a special day or week
devoted to the interests of same but
it remained for Haldimand county to
institute what is probably the first
special weed cutting week.

The Warden and Agricultural Com-
mittee of the County Council in co-
operation with the Agricultural Rep-
resentative, A. Gordon Skinner, after
carefully studying the situation, de-

clined this would be one of the best
ways of bringing the seriousness of
weed problems to the attention of
the general public. Accordingly the
week of July 3rd to July 8th was set
apart for the purpose at the same time
pointing out that every week should
in reality be weed-cutting week.

The Warden, Mr. Frank Laidlaw, in
issuing an official proclamation call-
ed upon every citizen to support the
movement by active co-operation in
seeing that all weeds were cut. The
assistance of all road authorities was
also secured and a general clean-up
made.

Mr. A. R. C. Smith, Chief Weed In-
spector for Western Ontario, visited
the county during the week and ex-
pressed himself as being highly pleas-
ed with the results.

July Crop Conditions

The Department's summary of crop
conditions issued on July 11, states
that the hot dry weather which pre-
valled throughout Ontario during the
last three weeks of June had a deter-
iorating effect on all crops. As a re-
sult crop prospects which were most
promising at the end of May, decreas-
ed materially, and were well under
the average at the end of June. Rain-
fall on the last day of June and dur-
ing the first week of July proved
timely, but continued frequent rains
are required to prevent further dam-
age. The most serious drought has
prevailed in eastern and southern On-
tario and crop prospects are less fa-
vourable than in western, central and
northern Ontario.

Hay crops generally were at a
standstill during the latter part of
June and yields, although good, were
not as heavy as earlier conditions in-
dicated and in Eastern counties they
were disappointing. Cutting of fall
wheat is considerably in advance of
last year, some early fields being cut
on June 30th and harvesting general
around the 12th of July. Pastures
have suffered from lack of rainfall in
all sections and are badly burned up

In Eastern Ontario. Livestock are in
poor shape in Eastern Counties and
milk flow is reported from 20 to 25
per cent below normal.

Spring grains are under average
and are maturing too rapidly. Early
sown fields got a good start and are
much more promising than late sown
crops. Oats and barley are head-

ing out short in the straw and rains
are needed to ensure satisfactory fill-
ing. The dry weather retarded ger-
mination of roots, sugar beets, and
beans, and fields are somewhat path-
etic. Early potatoes have grown well
and good yields are reported. Corn
is showing satisfactory growth with
prospects of an average crop.

ONTARIO
DEPARTMENT OF HIGHWAYS
MOTOR VEHICLES BRANCH

AN OPEN LETTER to the 13,060 motorists who killed or injured 8,733 men, women and children on the highways of Ontario last year

If you are one of those who know the rules of safe driving and
obey them, thank you; this message is not for you.

If you are a driver who has helped to swell the total of deaths and
injuries to the disgraceful figure shown above, take full note!

Because of your selfishness, your wilful neglect or thoughtlessness,
or perhaps because you think you know better than anyone else how
to drive a car and insist upon making your own rules, the lives of 502
citizens of Ontario were snuffed out in twelve months time. During
the same period 8,231 were injured, scarred; some of these will never walk
again. Among your victims were 853 children playing in the street!

Do you think this kind of driving is worth while? Do you think
you are entitled to a license to drive? If one of these victims had
been your child, your brother, sister, father, mother, or even a friend,
would you accept the excuse that the offender's brakes failed, that
the pavement was slippery, that he failed to give a proper signal, or
just took some kind of a chance or another? Could you find any
excuse for him?

Driving a car brings more pleasure and convenience to more
people than perhaps any other modern utility. The highways de-
partment knows this. No Province has been more thoughtful and
generous in seeking to add to this pleasure and convenience. But you,
the unsafe driver, are nullifying the effect of all that has been done.
You are making every street and highway unsafe for both pedestrians
and other drivers. You are a menace to the aged, the infirm and to
little children.

To educate you in the rules, to appeal to your sense of fair play, to
show you how your recklessness imperils your own life and property,
as well as that of others, this department has gone to great lengths.
The press, the schools, the radio—all have been utilized in an effort to
curb unsafe driving—and the campaign is being continued this year.

What are you going to do about it? Remember you are responsible
only for your own acts. If the other fellow takes chances, let him.
But if you, now that the heavy driving season is at hand, will do some
common sense thinking, if you will let your sense of fair play govern
your driving this season, if you never forget that by driving safely
you can help to protect the life and property of every citizen of
Ontario, then this department will have a different, happier story to
tell a year hence.

LATE W. F. BATEMAN

In the passing of the late W. F. Bateman, whose death was chronicled in last week's issue of the News-Argus, Springfield loses one of its prominent business men who held the respect of all who knew him, and Rawdon Township one of its outstanding characters in the municipal, political and business life. The deceased had been suffering from heart trouble and on Tuesday night suffered an attack and passed away almost immediately. The late Mr. Bateman was born in Rawdon Township, at the Bateman Settlement, 58 years ago and was the son of the late Mr. and Mrs. Wm. T. Bateman. Thirty years ago he was married to Miss Emma Barragar, who predeceased him twelve years ago. He had been clerk of the Township for the past twenty-five years, postmaster for fifteen years, and had carried on the general store business from the time he completed his school education. He was an attendant of Springfield United Church, a member and past secretary of L.O.L. 442, and a member of the Canadian Order of Oddfellows. At the time of his death he was secretary of the North Hastings Liberal-Conservative Association and Sec.-Treas. of the Township Association. The funeral was held on Friday, the service being conducted in the church and at the graveside by Rev. W. H. Foley, pastor of Springfield United Church, assisted by Canon W. G. Swayne, Rector of St. Mark's Church, Bonarlaw. The burial was under the auspices of the Orange Order in charge of Master J. Morrison. The pallbearers were Messrs Geo. E. Thompson, Ernest Brown, Elvin Jackman, Wm. S. Stiles, Thos. H. Webb and Rynard Quackenbush. Interment was made in Mount Nebo Cemetery. Among the floral tributes were pillows from the Liberal-Conservative Association, Rawdon Council, L.O.L. No. 442, Softball Club and the family, and many beautiful wreaths and sprays from relatives and friends. Left to mourn his loss are his sons, William, of Detroit, Lorne and Harry at home, one daughter, Mrs. Hiram Mumby (Hazel) of Springfield, and his sister, Mrs. Newton White, also of Springfield. The News-Argus joins the residents of the district in extending sympathy to the bereaved family and relatives.

MENIE TEAM ELIMINATED

Burnbrae — Petherick's softball team wrote "finis" all over Menie's pennant aspirations on Saturday evening when they won a hard-fought and exciting contest by 14-12. Pethericks counted three in the second when G. Petherick's circuit clout scored two ahead of him. Menie took a big lead in their half with seven, a few dumb plays and a bad decision getting Kerr in a hole. Errors on Menie's part also helped Pethericks to a five score in the third while they forged ahead again with homers in the third and fourth by Hutcheon and K. Oddie. Pethericks took a big lead in the sixth and seventh, G. Kerr winning his own game by hitting circuit clouts in each spasm and driving in our runners ahead of him. Menie's last scoring drive fell short as good fielding on the part of the winners held them down. Both pitchers were

IN good form and with the exception of one inning each received good support.

Roy Oddie and Eagleson starred in the field for the losers with Hutcheon leading at bat with four hits and three runs. The right fielder has hit safely on every trip to the plate in the last two games. G. Petherick and G. Kerr, with three runs each led the northerners while Art Petherick pulled the fielding feature with a nose dive into the crowd for a foul fly.

Line-ups:

Pethericks—G. Kerr, p; A. Petherick, c; Barnum, 1b; G. Petherick, 2b; Anderson 3b; Meiklejohn, ss; D. Kerr, lf; R. Fry, cf; F. Fry, rf.

Menie — Eagleson, p; Little, c; Craighead, 1b; R. Oddie, 2b; Rennie, 3b; K. Oddie, ss; Hume, lf; Gunning, cf; Hutcheon, rf.

Pethericks 035 002 4-14

Menie 071 100 3-12

Umpires—Farrell, Donald, Flint.

An odd feature of this year's three game series between Menie and Pethericks is that the latter team have scored 14 runs in each game with Menie trailing by one, two and three runs.

The League Standing

Won Lost

Seymour West 3 1

Pethericks 3 1

Menie 1 5

As the Menie team is eliminated the two leaders have withdrawn their remaining league games and will commence the play-off series on Saturday evening July 22 at 6:45 p.m.

This series is best two out of three with winners to meet the Campbellford champions for the Glover Cup.

The July meeting was held at the home of Mrs. Chas. Belcour. It opened with the opening ode, followed by all repeating the Lord's Prayer. The minutes of the last meeting were read, and the roll was called, it being a miscellaneous roll call, which proved very interesting indeed. Then came the business part of the meeting. Jingle Bells was sung, after which Lugo Prest and Norma Belcour gave a very pleasing duet. Dorothy Read gave a reading and Bessie Blecker sang a solo. Then came community singing. A reading was given by Aletha Horton; also one by Myrtle Reid, after which all repeated the Mizpah and a social half hour was spent and the hostess served a very dainty lunch of cake, tarts and sandwiches. The August meeting is to be held at Mrs. J. Prest's.

A very impressive service was held at the United Church on Thursday evening when members of the West Huntingdon Circuit comprised of Moira, Fuller, Eggleton and West Huntingdon appointments, met for the induction of their new minister, Rev. Rickard Merriam. Rev. F. G. Joblin, of Stirling, was master of ceremonies. Rev. E. W. Rowland, of Stirling, conducted the devotional exercises, using those grand old hymns such as "The Church's One Foundation", "Unto the Hills Around Do I lift up", and "Breathe on Me, Breath of God". A portion of Romans, 10th chapter was read and prayer suitable for the occasion was offered by Mr. Rowland. Following this Rev. Mr. Joblin conducted the inducting service and Rev. Rickard Merriam was duly inducted and received by the right hand of fellowship. Mr. Blake Ketcheson, of Moira, who is recording steward of the circuit, gave an address of welcome to the new minister. Rev. F. Lane, of Frankford, was then called upon to give the charge to the minister. The speaker stated that it was indeed a pleasure to be back on his former circuit again, but found it a wee bit difficult to try and advise a man who had been as a father to him in the ministry. He felt, however, that having had experience on this circuit and knowledge of the pitfalls in the roads, also having known the people well, he could at least give some information that might be useful to Mr. Merriam later on. One of the tasks of a faithful minister of the gospel is the faithful shepherding of his flock. To do this successfully a minister must be on time, must visit the homes. He must not try to undertake all duties himself, but rather as in Moses' time share the work with the laymen of the church. He must have holidays, a good idea would be to take your Sunday on Saturday or Monday. No more of a seven-day working than another calling in life. Co-operation was most needed, if the work was to be a success and lastly the greatest work of all was preaching and leading the members of the congregation to the full knowledge of Jesus Christ. Mr. Lane stated that the greatest joys in ministry came to him while visiting in the homes and helping people in every way possible and in his closing remarks said his thoughts and prayers would go with the new minister on this charge. Rev. Andrew McLaughlin, who is preaching on a circuit near Montreal, was next called upon to address the congregation. The speaker gave some of his own experiences stating that he often aroused interest in his congregations by getting his people to look after the temporal affairs of the church. A minister cannot do his best work spiritually if he is bothered with the little details of every church. He also emphasized the need of our churches being more missionary these days. Mr. Merriam was then called upon to conduct the closing exercises. He expressed gratitude for the happy inaugural and hope for year of faithful service and co-operation. A verse or two of "Breathe on me, Breath of God", and the benediction, closed this impressive service. Rev. R. Merriam comes to us highly recommended, having been a minister since 1911. His first six years were spent in the Alberta Conference. The people of West Huntingdon circuit are looking forward to his ministry being richly blessed.

On Monday evening the Latta girls journeyed to West Huntingdon and indulged in a friendly game with our girls. en, D. Colden, M. Hall, E. Maynes, M. Goodfellow. West Huntingdon—W. McElroy, M. Wright, R. Bray, H. Haggerty, N. Horton, F. Reid, V. Wilson, M. McElroy, E. McElroy.

On Tuesday evening the Zion Hill boys played our girls at West Huntingdon and again the honours went to the girls who won by only one run. This game showed more speed, as closer competition was seen throughout the game. The lineup for the girls was the same as in the above game. Zion Hill—S. Cronkwright, R. Dicky, B. Lee, K. Denyes, D. Cranston, B. Brough, M. McMullen, V. Latone, L. McCrory. The return games with the above teams will be played next week. Umpires: R. Todhunter and L. Wilson.

Edna Campbell scored the only home run and Isabel Turner caught a special fly. Messrs Edgar McKeown and Morris Rose conveyed the players to the diamond and a few other fans were in attendance. After the game the party spent a couple of hours at Oak Lake.

Mr. John Joblin, of Scugog Lake visited his son, Rev. F. G. Joblin, over the week-end early in July and unfortunately missed Holy Communion. He was keenly disappointed as he hasn't missed a service in the last sixty years or more. Stirling and Rawdon circuits held their services the last of June. Surely this is a record, as Mr. Joblin is over 80 years of age.

Master James Hoad is holidaying at Moira at the home of his uncle and aunt, Mr. and Mrs. John Hannan.

Although district naturalists view the story with sniffs of suspicion, here's George Carr's story—and the one he intends to stick to. On the farm of E. T. Brummel, West Huntingdon, where he is employed, he spotted a large snake gliding across the ground in front of him. Seizing a handy stick he despatched the snake and then examined it. On the toll of the reptile three distinct rattles could be seen. Residents of the section classed it as a rattlesnake.

Trenton — Theft of seven belts from the Frankford Paper Mill was reported to the Trenton Police this week. It is the opinion of the police that this theft was committed by the same parties who broke into the home of Mr. David McDonald and the garage of Mr. Sidney Fox on the Wooler Road, in addition to the service station of Mr. Con Vanaalstine, in North Trenton. The theft of the belts coincided with the other robberies occurring here between Saturday night and Sunday morning.

The fire, which was believed to have been caused by King's carelessness was detected and extinguished by the Forest Protection Squad of the Ontario Forest Brigade stationed in the northern part of Hastings County. VIEWS ON MAN

The following article, entitled "Sign at Posts to the Altar" was written by Helen Rowland, and gives some of her views on man:

Many a philosopher who could never be led to the altar by the heart-strings can be led there by the purse-strings, almost without a struggle. It is fatal to set your heart on a woman these days. It requires intensive mental suggestion to get a modern man into the marrying mood—so at he wise, and set your MIND on him. A man's conscience is something like his buckskin shoes. He just spreads a little whitening over the top and, lo, it's all clean and ready for another day's wear and tear.

Only an amateur boasts of his conquests with the woman. The hall-mark of a Casanova or an expert Romeo is his dead silence concerning all women, except the one to whom he happens to be making love. When a man gives up an old habit, he looks for the new vice—and when he decides that "it is only fat," he

un" a woman, look for the other woman.

A wise girl merely smiles, when a man begins urging the "good girl" stuff. She knows that it is the first sign that he is weakening; and that he is just grasping desperately at a straw before going down for the third time.

A hard-hearted man doesn't always make a bad husband. It's the kind whose heart is too soft and impressionable that keeps his wife running around in circles and gives her worry, wrinkles about the eyes, trying to guess where he is evenings.

The modern girl's notion of an ideal husband seems to be a great big masterful man, who will do exactly as SHE says.

The styles don't really change much. Every year, they are merely a matter of more and DIFFERENT exposure.

BONARLAW

On Saturday evening a large number of friends and neighbours gathered at the home of Mr. and Mrs. Wm. S. Stiles and gave a miscellaneous shower to their youngest daughter, Oliver, recently married to Reginald I. Cross, of Toronto. An address was read wishing the bride and groom much joy, and expressing the respect and esteem in which they are held by the family. Mr. Baker, who read the address, mentioned the fact that although Mr. Cross was not very well known to the people of this vicinity, he was himself well acquainted with his father, Mr. Samuel Cross, of Toronto, who has been a friend of his for the past twenty-five years, a man of sterling character and one whom anyone should be proud to claim as his friend. "If his son Reginald is half as fine a man as his father," said Mr. Baker, "we need have no worry about the future for him and Oliver." Both Mr. and Mrs. Cross replied, thanking the guests for the many gifts and inviting all to come and see them at any time. After the parcels had all been opened and the cards read, Mr. Cross eloquently addressed the guests again, expressing his surprise at the large number of beautiful and useful presents and thanking them again for the same. All sang "For they are jolly good fellows" and gave three hearty cheers and a tiger. The ladies served a bountiful lunch of sandwiches, cake, coffee and lemonade. Mrs. Samuel Cross, of Toronto, mother of the groom, was present.

The following address was read: Bonarlaw, July 15, 1933

Mr. and Mrs. Reginald I. Cross.

We have gathered here this evening for the purpose of saying that we wish you much joy and to endeavour to show in some way the esteem in which you are held by one and all.

Nearly all of us have known you, Oliver, all your life, and we have nothing but good things to say. We are sorry that you will not be living closer to us. You have been a friend to all and always ready to help in any way possible in every good cause and you will be greatly missed. We had hoped that when you fully recovered from the illness which so unfortunately interrupted your following the nursing profession, you would again take it up; but we believe being a good wife to a lonely man is even more noble a profession, and we will not say we are sorry.

We offer you our congratulations, Mr. Cross, on your choice. You are no doubt already aware that you are taking one of our finest girls. We have not been fortunate enough to have known you very long, but the opinion we have formed is good and you have the respect of all. Even though you were entirely unknown to us, the fact that Oliver has selected you from among the hundreds of other

young men would be all the recommendation needed.

But as actions speak louder than words, we not only tell you of our feelings towards you, but as a tangible mark of our respect and esteem we ask you both to accept these various gifts.

May your married life be long and happy and may you be blessed with an abundant measure of health and prosperity.

MOUNT PLEASANT

W. M. S. Entertains Mission Band

On Thursday afternoon, July 13th, over fifty members of the W.M.S. and Mission Band and a few visitors gathered at Mount Pleasant Church for their annual meeting together. Among the visitors were Mrs. F. G. Joblin and her mother, Mrs. Elgy, and we were all delighted to have our pastor's wife with us. Mrs. Ross Hoard, president of the W.M.S. opened the meeting with "Sound the Battle Cry" and all repeated the 23rd Psalm. ST. SWITHIN'S DAY

Saturday was St. Swithin's Day. There is an adage that as it rains or is fair on July 15, there will be continuous wet or dry weather for the 40 days ensuing. Origin of this curious (and unsound) belief: Bishop Swithin, of Winchester, Eng., when he died, requested to be buried in a pathway where his grave might be trod by passersby. When brothers of the clergy disregarding his pious wish, sought to place the body in a tomb befitting his good works, a storm quickly rose which lasted 40 days. This was interpreted as an indication of divine anger over the flouting of Swithin's wishes. A chapel was erected over the spot, and extraordinary happenings are recorded as having occurred there before and after his canonization. From this circumstance arose the idea that this

day is prophetic regarding the weather.

Mr. and Mrs. Clarence Garrison and family, Mrs. Lillian Garrison, Mr. and Mrs. W. A. Bateman and Mr. and Mrs. Tom MacConnell, spent Sunday at Chard's Bridge.

Master Tommy Emerson, of Trenton is spending a week at Mr. Cecil Austin's.

Mr. and Mrs. Reg. McKeown have returned from their honeymoon trip to Detroit and have taken rooms at Mrs. C. A. MacConnell's for light housekeeping.

Mr. and Mrs. Hiram Mumby spent a couple of days at Coe Hill visiting relatives.

Miss Helen Chute left on Thursday to spend the vacation at Vienna, at the home of her parents.

Mr. and Mrs. A. H. MacConnell and daughter Marian, were guests on Sunday of Mrs. C. A. MacConnell.

SEEN THROUGH THE OFFICE WINDOW

(By The Office OWL)

A certain young man who was recently convicted of taking time to steal a watch for the purpose of keeping time is now "doing time". The moral is: be careful with your "time".

An exchange says that the hen is not afraid of this machine age knocking her out of a job. Maybe not. But we'll wager that when "Biddy" sees a wooden box with a heater under it hatching out a brood of baby chicks, she feels like consulting the rooster in regard to forming some kind of a labour union.

Michael Shea discovered a sawed-off shotgun hidden on his farm last Wednesday. Evidently somebody intended to get real close to their work.

Or probably after listening to the hard-luck stories of a lot of the citizens in the community, the culprit burst into tears and threw his weapon in the ditch.

Skunks are quite numerous on the roads around here just now. They're about the only living thing that has the courage to walk on our highways at night, with little danger of being held up or run over by some "mutt" trying to get noplace at sixty miles per hour.

Just the same, the skunk can get a long ways on a little, and a lesson to be thrifty may be learned from this little animal. He accomplishes a lot with only a (sicent).

Car Accidents
Over Weekend

Accident Near Broadworth's
Early Sunday morning a car driven by Wm. Burklitt, employed by Mr. Theodore Cooney, Rawdon, skidded into the ditch, near Wm. Broadworth's farm home, Marmora road, causing painful injuries to the occupants. It is claimed a tire blow-out caused the mishap. The other occupants were Miss G. Herrington, of Strathroy, who along with her mother, has been visiting Mr. Cooney; Miss Vera Clark, employed by Mr. Wm. Snarr; George Beatty, employed on H. Hadley's farm, and Mr. Blake Johnston, of Wellmans. Johnston, who is a member of the Midway Dance Hall orchestra (at the rear of the Paisley House) was being given a ride home and was the most seriously injured.

The car was travelling north at the time and the force of the blow-out shot the auto to the right and it turned over into the ditch. Mr. Johnston was the only one thrown from the car. He was taken into Mr. Broadworth's home. The others were brought to Dr. W. H. Pedley's office for treatment. Miss Herrington suffered a bad scalp wound which required several stitches to close—the others received bruises. The party returned to Mr. Broadworth's and took Johnston home, as at the time his injuries were not considered serious. However, later, he suffered considerable pain and Dr. Pedley was summoned. Upon examination, the doctor, fearing there may be serious internal injuries, had the injured man taken to the hospital in Belleville. He has since been under close observation and the latest news as we go to press is that the young man is out of danger. In the crash the car was practically wrecked beyond repair.

Car Crowded on Road

A Durant car, driven by Mr. Shortt, son of Councillor Mark Shortt, of Rawdon, was crowded off the road by another car and crashed into a hydro pole, near Stirling on Sunday night. The accident occurred just south of the village on the Foxboro road, about 10 o'clock. In the smash the pole was snapped off and the car badly damaged. Fortunately the occupants of the car, including two Stirling girls, escaped injury. The car responsible for the crash continued on its way, apparently unaware that an accident had occurred.

Car Ditched On Ridge Road

A party of American tourists narrowly escaped a fatal accident last Thursday afternoon about 4 p.m. when one of the cars slid over the steep embankment near Mr. Phillip Carr's farm on the Ridge Road. The party of three cars was returning to Buffalo after a vacation spent at a summer camp in the north end of the county, and was proceeding along the Ridge Road when the leading car, a Cadillac coupe, in meeting and passing another car struck a stretch of fresh gravel and plunged over a steep fifty foot embankment. The car, which remained upright throughout, passed over a fence and travelled some two hundred yards before it was brought to a halt. The two occupants, a man and a woman, were badly shaken, the driver being badly cut about the face and knees as well as suffering from chest injuries due to a broken steering wheel. The lady occupant suffered a fractured rib as well as lacerations about the face and back and many painful bruises. Dr. W. H. Pedley was summoned to the scene and after administering first aid, the injured were removed to his office where they remained for the night. Nurse Isabel Murray was called to assist Dr. Pedley. The car sustained only minor injuries, a broken bumper, mirror, tail light, steering wheel and injuries to the radiator. The remainder of the party spent the night at Long's Hotel and on Friday morning the three cars resumed their journey to Buffalo.

BOYS SIGN PAPERS

On Tuesday evening Colonel Yates, of Deloro, met eight local young men in Dr. Pedley's office for the purpose of signing attestation papers preparatory for attendance as stretcher-bearers, the Hastings and Prince Edward County Regimental Camp at Madoc, the beginning of August.

SUFFERED HEART ATTACK

While sitting in Mr. R. H. Williams' blacksmith shop last Thursday afternoon about 2.30, Mr. Wilson Harlow suffered a severe heart attack and was unconscious for a short time. Dr. H. H. Alger was summoned and Mr. Harlow was removed to his home where he made a rapid recovery.

A CLEVER SHOWING

Mr. Albert Warren, principal of the Bancroft Public School, has won an enviable reputation with his entrance class this year. Eighteen of his pupils wrote the exams, and all were successful, with eleven obtaining honours, of which one was the winner of the Gold Medal. This is the second year a pupil of Mr. Warren has won the medal, which speaks highly of his ability as a teacher. Mr. Warren is the son of Mr. and Mrs. Jaa. Warren, of Bethel, and is an ex-student of Stirling High School. The following relating to this clever young teacher and the entrance class appeared in last week's issue of the Bancroft Times: "Mr. Warren is to be congratulated on having one of his pupils win the medal for Bancroft for the second year in succession. The total number of pupils who wrote in Bancroft centre was 98 and of these 72 were successful. We might also add that all of Mr. Warren's 18 pupils were successful. Of these 11 obtained Honours, 75 per cent. of the total marks obtainable."

NEW ANGLICAN RECTOR

The above is a picture of Rev. A. S. McConnell, L.Th., who has recently been appointed to the Anglican Parish of Stirling and Frankford. Along with Mrs. McConnell and three-year-old son, he will take up residence in the rectory here by August 1st.

I envy him his perfect equanimity, his nonchalance and his steady nerves. A woman worries about everything. But a man never worries about ANYTHING.

In envy his unquenchable optimism, his zest for adventure of everything, his right eye for just a spark, a scintilla, a few crumbs of it!

I envy a man his immunity and freedom from all boredom, nagging, tiresome little details and duties of life—which he can always find some WOMAN (a wife, a stenographer or a sister) to do FOR him.

Above all, I envy man his sublime self-confidence! His imperturbable SELF-CONFIDENCE! I'd give my right eye for just a spark, a scintilla, a few crumbs of it!

A woman is always wondering, "She'll do". But, did you ever see a man wonder?

Mrs. McCarty 14 Mrs. Moon 8
Mrs. Archer 13 Mrs. Potts 7
Miss Kerr 14 Mrs. Cutcliffe 13
Mrs. Whitty 12 Miss Hurley 9

Possibly the most thrilling part of the entire contest was the last ends played in the second game between Mrs. Carleton's rink, of Stirling, and Miss Kerr's, of Tweed. At the close of the 11th end the score was 12-10 in favour of Tweed. Mrs. Carleton's last shot on the twelfth end took the kitty from the opposing team, tying the score. It was necessary to play one extra end and the score changed at each shot. Tweed finally won.

The third game was very close. Between Miss Kerr and Mrs. Cutcliffe and the former won by one point.

The clubhouse was a pretty sight with the abundant decorations of flowers, the tables gleaming with silver. Lunch was served at 5.30 to all present. Mrs. G. Lagrow and Mrs. J. E. O'Donnell poured the tea. Miss Mabel McCarthy, Miss Patricia Shea and Miss Madeline Shea assisted in serving the lunch.

The winners and prizes were:
1st — The rink skipped by Miss Kerr, of Tweed, 3 wins, 30 points — solid wood end tables.

2nd — Mrs. Cutcliffe, of Norwood, 2 wins, 29 points — silver bread trays.

3rd — Mrs. W. J. Whitty, of Stirling, 2 wins, 27 points — linen lunch-eon sets.

4th — Mrs. Hurley, of Belleville, 1 win, 26 points — Dresden China Cream and Sugar sets.

The presentation of prizes was made by Mrs. (Dr.) E. A. Carleton, Men At Belleville.

The rink composed of Dr. E. A. Carleton, J. E. O'Donnell, W. Wright and Thos. Scimes, skip, and a doubles rink with C. R. Bastedo and W. J. Lagrow, took part in the district bowling tournament held in Belleville yesterday. The local bowlers failed to enter the win column.

WON HOT PLATE

Mrs. Hugh Morton won the Coleman 2-burner hot plate, given away at the close of the demonstration of Coleman lamps and stoves, held at McGee & Lagrow's hardware store on Tuesday, last week. The name of Mrs. Morton was the first drawn.

Moose have been seen by farmers in numbers grazing contentedly in the Coe Hill district.

TENNIS NOTES

The ladder tournament is progressing favourably and a great interest is being taken in the climb toward the first positions. Although only one step at a time, "uneasy lies the head that wears the crown" and those in the top positions are none too certain of staying there for any more than a few days at a time. The first positions on the ladder are now occupied in the following order — Potts, Joblin, Bateman, Lovibond, Pedley and Dobbie.

The open tournament is well under way, being scheduled for Wednesday, August 16th, and entries are being received from outside towns. The main feature of this tournament is that it is solely for the purpose of encouraging players in the intermediate class of all clubs who have not been given a chance to play with outside competition. No player who has played under a Senior rating for the years 1931-32 will be allowed and teams of five — men's singles, mixed doubles and men's doubles — will compete in this tournament. It is hoped that it will be possible to put up a cup for annual competition in such a tournament. Teams are assured from Tweed, Madoc, Norwood, Campbellford, Warkworth and Stirling, with probable entries from one or two other towns.

For the benefit of the local club, enabling them to see, many for the first time, real fast senior tennis, Tweed and Campbellford meet on the local courts tomorrow (Friday) evening. These two towns have been represented in many of the tournaments in Eastern and Central Ontario, and it will be of great benefit to the local Club to be able to see the best players of both these towns meet in an exhibition. It is hoped that a real turnout of members and others interested in better tennis will be on hand to witness these games which will begin about five o'clock.

FALL WHEAT YIELD

Fall wheat has been threshed by several farmers in this district and the yield averaged from twenty-five to thirty bushels per acre. Despite the dry weather the wheat was well filled out. In some sections the yield was as high as thirty-five bushels to the acre.

P. LONG GIVEN BILLIARD LICENSE

A special meeting of the Council was held last night with all members present.

The Council authorized, as requested by the Provincial Hall License Dept., the Clerk to sign the application which sanctioned the granting of a hall license for the Midway Dance Hall, at the rear of the Paisley House, owned by Mr. Thos. McCaughen, Wellmans.

The question of granting a billiard license to Mr. Pat Long, local hotel-keeper, was dealt with. Mr. Long had made a request at the last regular meeting, but as all members were not present it was left over. After discussion last night, a resolution was passed granting the license, the fee for same to be \$20.00 for the first table and \$10 for each additional table. The four councillors voted in favour, while Reeve West was opposed.

Mr. Long had assured the Council he would operate a clean and first-class billiard room and would not allow any boy, under 18 years, in the room, unless approved by the parents.

As the next regular meeting of the Council falls on Monday, August 7th, Civic Holiday, it was decided by resolution to postpone same until Wednesday, August 9th.

LOCAL MERCHANT
HONOURED ON BIRTHDAY

Yesterday afternoon the members of the Young Men's Class of St. Paul's United Church S. School, accompanied by Rev. F. G. Joblin and Rev. E. W. Rowland, and parents of class members, enjoyed a picnic at the summer home of Dr. C. F. Walt, the teacher of the class. After enjoying a dip in the warm waters of old "Ontario", and cavorting on the sand, the guests of Dr. and Mrs. Walt repaired to a bounteous picnic supper where each one did full justice to the good things laid before him. Having satisfied the "inner man" Rev. Rowland, with a few well-chosen remarks, introduced the guest of honour, Mr. "Bob" Patterson, local merchant. He likened "Bob's" achievements to those of great men in past history. Bob was celebrating his birthday anniversary and in honour of the occasion presented the honoured guest with a beautiful golden harp. Dr. Walt, in his remarks said that politically speaking he was leaning a little to the left, due no doubt to the heavy supper. Bob replied in a touching manner. He congratulated himself on his ability to get enough to eat, although he sat between two ministers. He thanked the guests for having remembered him in such a fitting manner. Mr. Joblin tendered a congratulatory address to Bob. A vote of thanks was tendered Dr. and Mrs. Walt on behalf of class members by Morgan Rowland and seconded by Fred Joblin. Reg. Clarke presented the motion to the host who replied in a fitting manner. Having dragged themselves away from the table, a game of ball was enjoyed by all and then a marshmallow roast on the beach brought this delightful outing to a close.

Rawdon League
Finals Exciting

The playoffs for the Rawdon Softball League Championship are now at "fever pitch" both to the players of each team, Hoards and Springbrook, and also the fans. The first game, played in Campbellford on Wednesday, last week, resulted in a tie. A report of the same appeared in last week's issue. The second game, staged at the fair grounds Monday night, was won by Springbrook. Score, 15 to 6. Hoards "blew up" in a couple of innings, hence the one-sided score. The umpires were Geo. Donald, Melie, home plate; Jack Wiley, Springbrook, 1st and 2nd bases; H. Brown, Glen Ross, 3rd base. Unfortunately a reporter was not at the game, hence the brief report.

Last night the third game was staged, also on the local fair grounds, and was won by Hoards. It was a "sizzler" and kept the fans — and there was a large crowd — on their toes the entire seven innings. It was anybody's game until the last of the seventh innings. Hoards would stage a rally to be followed by Springbrook keeping the score tied throughout. However, in the last of the seventh, with Hoards at bat and two out, Oscar Rannell walked. Bill Hume, the "Babe Ruth" of Hoards, came to bat. On the second pitched ball he hit a hot grounder to Bill Heale, who failed to nab it and Rannell scored the winning run, making the final score 15 to 14.

Home runs were plentiful, each team getting four, as follows: Springbrook, Heath, two, Mason and Bateman one each. Hoards, Hume two, Oddie and Watson one each.

Bateman pitched the entire game for Springbrook, and at times received poor support from his fielders. Barney Eagleson and Smith divided the mound duties for Hoards. They changed several times and at one point in the game Springbrook players claimed they could only change twice. However, the writer has looked up the rules, and the number of times a pitcher may return to the (Continued on Page Four)

DRIVES OVER TRANS-
CANADA HIGHWAY

Mr. Neil Bedell, of Minto, informed the News-Argus last Thursday afternoon that he had taken a motor trip on the new Trans-Canada highway for several miles east of Bridge-water. According to his description the highway is a "mess" and is as crooked as a snake's trail. Mr. Bedell wonders why the highway was built through such a section. So do we, and consider it a terrible waste of the people's hard-earned money.

CURRENT COMMENT

Three car accidents occurred in this district over the week-end. The car still proves to be a dangerous mode of transportation.

We noticed where scientists had discovered a particle of matter weighing two hundred sextillionths of an ounce. Probably it is what is left of prosperity.

The crop shortage in Hastings County is reported serious, because of the lack of rain. So weather that delights the holiday-maker has quite the reverse effect on the farmer.

There were ten drowning accidents in Ontario over the week-end — which shows that bathers will still take chances and ignore warnings, as all the victims could swim.

It is rather difficult to tell a woman's age, after she reaches 77. However with a man it is different — when he has begun to think he looks distinguished, he is a little past 40.

Cheese took another drop on the Belleville Board on Saturday. It is a crime the way the producers have to keep so many middlemen, who lead an easy life at the producers' expense.

"Old Sol" certainly applied his hot rays over this district during the week-end. Sunday was the hottest day of the year, being 96 in the shade. Scores of residents made for the lakes of the district in order to keep cool. Rain is still badly needed.

A young man was killed recently at Camp Borden when thrown from the running board of an automobile on which he was riding. Every day in Stirling and in other sections this fool practice is tolerated. It is simply flirting with death and it is a contravention of the law.

You hear, some of the old timers say that the world has not changed much in the past twenty years. Well, we know one thing that has certainly changed considerably and that is the feminine bathing suit — compare them and see how "well dressed" the young lady had to be to go in bathing in 1913.

We have read the C.C.F. platform outlined at the convention held recently in Regina. Still members of this new Society claim that there were important "planks" left out. Thus we have concluded the further the C.C.F. goes with its platform, the more it spoils its own chances of becoming an important political factor in Canada.

After looking over a few copies of United States daily papers we have concluded that a divorce decree over there seems to be a passport to the front page of the daily newspaper with a two-column picture of the "happy couple". Medals will likely be next in order for those who have been divorced a half dozen times or more. No doubt this would be well received by movie stars.

In Madrid, Spain, there appeared in one of the recent newspapers the following notice: "To break bottles, throw away empty tins, abandon papers and remnants of meals, when one eats in the open air, is a grave breach of culture. The aspect of a public ground reveals the degree of education of the people who frequent it." This advertisement might profitably appear in some of our Canadian papers.

The Alisa Craig Banner carried the following announcement in a recent issue: "With this issue the Banner ceases publication for the next month and probably longer. Owing to the lack of advertising we have been publishing at a loss every week for some months past, and

What Others Say

Trenton Courier-Advocate — There are all kinds of organized sport in this town for the elders, who have their softball, tennis and golf, and what of the boys and girls who are growing up? Nothing is being done as far as we know to develop these children in athletic sports. We hate to admit it, but it is nevertheless true, that some of us who are grown-up are unknowingly mighty selfish in this connection.

Norwood Register — A lot is being written about the number of fatal accidents this summer, particularly with regard to automobile collisions and autos striking children. Many of these fatalities could have been avoided if children were taught at home and at school to be careful when crossing highways which are not safe any more even in the most remote sections. Motor cars are using all the roads and it is appalling how many children are being fished down because they run out on the roads fearlessly seeing nothing in sight and within a twinkling a car whizzes by leaving its toll of death behind. Every child should be impressed with the absolute necessity of looking up and down any road or street before starting across and if

a car is coming to stay on the road-side until it passes.

THE STIRLING NUISANCE

(Kingsville Reporter)

Reports are coming in from various sections in Canada regarding the serious depredations of the destructive starlings. Green pea crops, lettuce and fruits of all kinds are meeting with wholesale destruction. Owing to the many thousands of the birds that have been trapped at the Miner sanctuary and destroyed, this district is not as badly infested as many others where no effort on a large scale has been made to control them. Shooting the pest is simply a waste of time and ammunition. The most effective means of reducing the numbers is with the Miner trap, which anyone can build at a moderate cost, and it will pay for itself in a year in the savings on many crops. No doubt some people will object to the destruction of these birds, simply because they do not know the extent of their ravages. But these people will realize after awhile that when Jack Miner said the starling was the most destructive bird to farm crops and other bird life that ever infested this country, he knew what he was talking about. Many municipalities are now installing the Miner trap as a means of controlling the numbers of this most undesirable bird.

cannot continue." And so another paper has joined the continually growing list of papers which, under the stress of hard times have ceased to function.

Members of our Legislature are not sufficiently close to their constituents. Mr. D. M. Brodie, police magistrate at Windsor said recently in a public address at his former home town, Sudbury, when he advocated that each county council name a representative in the Provincial Parliament. The county councillors, he stated, are in closer touch with and know the people's problems. There is an element of economy to be considered. This is indeed a striking tribute to county councils, which many would abolish, and it comes from a man who, until very recently, had never lived in organized territory where County Councils are appreciated, or tolerated, as you please. Since coming from Scotland as a youth, he has lived in Northern Ontario, so cannot be accused of holding any brief for county councils.

The recent collapse of the stock market is fortunate in one respect. It makes clear the lamentable fact that absolutely nothing has been learned and applied as a result of the destructive debacle of 1929. It shows that about the same proportion of utterly worthless securities are still put on the market for suckers to bite at. It shows that completely false or thoroughly misleading statements are still permitted to be made regarding such worthless securities. It shows that as long as valueless and purely speculative stocks are permitted to be issued and falsely promoted, fools will gamble in them; and it proves conclusively the truth of the old adage, the fool and his money are soon parted. But that is not the sad part of the situation. The unfortunate circumstance is that the whole market is affected by the collapse of these worthless securities. Good sound investment stocks are dragged down in the decline of the balloon issues. Legitimate investors are adversely affected by the collapse. The public is frightened and loses the confidence which has been so laboriously built up by constructive administration. Business reflects the decline, and a minor depression is threatened just as we are emerging from the recent major one. We need a "cleaner" stock market.

Another "Side" to Loyalty

For many years the local merchants have been campaigning against "mail order houses" or the buying of merchandise from any person — except the local storekeeper. They have asked the "local" newspaper to help them spread their gospel. This the papers did, and in addition many refused to carry advertisements of any but local concerns. They thought this was good business all around, as it would build up local sales and help the newspaper in the end. All this was a few years ago. With very short memories, the merchants today are doing, in some measure, the very thing they have asked the newspapers to fight in the years past. Here are some instances: Some outside printing concerns send out solicitors or advertise through the mail cheap prices on letterheads, envelopes, statements, etc. The prices are less than the local printer's — a dollar or so a thousand. Many send their business out of town, yet expect the local printer and local people to buy of them. Automobile manufacturers furnish forms, stationery and what not to local dealers, yet expect the local printer to buy their cars. Chain stores ship their sales bills all over the country at a low cost to "branches", yet expect local printers to buy of them. Banks buy stationery out of town, yet expect the local printer to carry an account or be able to pay his note. The only excuse is the saving of a few dollars on each order of printing, while sending money out of town which can never return. This applies especially to the smaller localities, but in the larger cities there is about the same condition. Plants doing printing outside the shopping district, and frequently a hundred or more miles away, are given work, yet the buyer of printing depends upon the local population for business. This is just as true in one sized town as another. The one great point that most merchants fail to grasp is that every dollar they send out of the community is gone. On the other hand, every dollar spent in the community returns, directly or indirectly. Directly, it will mean the sale of merchandise to the printer or his employees. If money is not spent with them they will have no money to spend. Indirectly, the printer and his employees pay taxes, support local enterprise, contribute to the upbuilding of the community. Again, if pauper prices are paid for printing (or anything else) only paupers can buy merchandise. It is a lessening of buying power, bound to react against a community in the ultimate. Prosperity, or good business, cannot be established in a pauper community. If there were fewer buyers at pauper prices there would be fewer concerns offering goods at a pauper price. Merchants who want local trade must patronize local industry on the basis of fair prices. It is the only way toward a good business condition and a cure for price insanity.

to be — but we do wish that he had given us an inkling of at least the month or the week. Then we would have known how long we had to go into training to withstand the strain and hardship of a campaign of election oratory.

ARE THE DOCTORS TREATED FAIRLY?

(New Outlook)

The Canadian Medical Association met in Saint John, N.B., recently, and amongst other things the matter of medical treatment for the unemployed came up for discussion. The doctors think that they are carrying more than a fair share of the burden of medical relief for the men and women who are out of work. There is no idea of slackening their efforts to help these sufferers, but it is thought that the Dominion Government might well supplement their efforts by some assistance. It is true that the Provincial Governments are assisting in this matter, but that assistance seems to be inadequate. One doctor was saying that he had done about \$2,900 worth of work among the workless and while not one of them had been able to pay a cent, yet he paid out for medical supplies and drugs for these patients some \$600. It is true that he then received one half his bill from the Government, but this amounted to just \$1,000, and out of this came the medical and drug bill for \$600, which left him but \$400 out of a \$2,000 nominal charge. The country does not sufficiently recognize what we owe to those medical men who without complaint and without stint give themselves to the work of caring for the sick, regardless of whether the patient is able to pay or not. It is true that there are some few physicians who become rich in their profession, but there are a host of others who would surely be rich if they collected all that their patients owe them, but who quietly go about serving humanity with great skill and commendable zeal and quite forget to collect the debts which society owes them. Such men are by no means scarce in this most honoured profession.

WILL CLOSE TRENT CANAL ONE MONTH EARLIER

The Trent Canal will be closed to navigation at the end of September, according to notices that have been sent out to employees of the system who are engaged at locks, bridges and wharves. Some employees have expressed fear that the Department's action may be a forerunner of complete closing of the canal next year. Customarily the liftlock and bridges have not been closed until the end of October, but in looking around for government expenditures that might be reduced, the Trent Canal was apparently one service which was regarded as practically unnecessary after the end of September.

Neglect of the Trent waterway has been reported this season in the steady encroachment of weeds in boat channels. Several instances have been mentioned of boats being halted by their propellers being clogged with weeds. In this respect it is no doubt true that navigation has declined to such an extent that boat traffic is no longer the old check on weed growth. The present action of the Department is interpreted by some as official attitude that the Trent is now mainly used by tourists' cruisers, and that local boat traffic has become negligible.

When about four miles this side of Madoc the horse became frightened and started to run. One trace was broken letting the falls down which caused the buggy to upset, throwing both men out of the buggy. Mr. Bickford lay unconscious for several minutes, but Mr. Tanner received a blow on the temple and did not recover consciousness for one and one-half hours.

Little Sandy—Hoy, pa, let's go to the Century of Progress Exposition, in Chicago. It only costs 50 cents to get in.
Sandy—Next time, liddle, we'll go to the next one.

The Belleville man who loaned his new son-in-law several hundred dollars, complained because all he ever got back was his daughter.

Stirling Girl—Have you heard the last thing about Rudy Vallee?
Boy Friend—I hope so.

Old Timer—Make hay while the sun shines, my boy!
The Kid—Who the deuce wants to make hay?

We notice that when a lot of people are convicted in court, there are various reasons—did not get a fair trial, or this or that, but never because they are guilty.

Brad—I see where the Doctors are vaccinating girls on the arms again, rather than the legs.
Hale—No doubt vaccinations were becoming too noticeable.

Put two and two together and the result is always the same—bridge.

Rawdon Man (at softball game at the Fair Grounds last Monday night)—Come on home, you darn fool!
Wife—Why John, we only just got here.

Thunder Storm: Our idea of a man truly going down in defeat is one with falling arches. Some people are born with black eyes. Others have black eyes thrust upon them. If some rich men ever take a rest it will be because that is all there is left to take. False teeth, too, should be seen and not heard. Then, again, some of the brave deserve the air. Dentists don't beat their wives; they just crown them. There are somebody's shoes we're glad we are not in, and they belong to the modern girl. It doesn't follow that a thing cannot be done simply because you can't do it.

Barbara—I can't understand why you married Jack. Why, he has only one arm.

Judith—That's just it—I admire him because he's fought his way single handed.

What we are trying to remember to tell the next person who urges us to "use a little horse sense" is that it doesn't seem to have done very much for the horse.

Sutor—Well, you see, I have a press pass.

A Wish
The sun is rising on the morning of a new day.
What can I wish this day to bring to me?
A few friends who understand me, and yet remain my friends;
A mind unafraid to travel, even though the trail be not blazed;
An understanding heart;
A sense of humour and the power to laugh;
And a patience to wait for the coming of these things, with the wisdom to know them when they come.

Mr. Isaacs—You want to marry my daughter, eh?—well, could you lend me three thousand dollars for twelve weeks without security?
Mr. Jacobs (readily)—Why, most certainly, I could Mr. Isaacs. But I wouldn't.

Mr. Isaac—Take her, mine son.

A WOMAN'S OPINION OF MAN

The following, referring to that "brute called man" was written by Helen Rowland, the well-known writer of the country to the south of us. Do you agree with her ladies? We do!

"DIT IT ever occur to you that inconsistency is written all over the female map? Also conceit, deceit, jealousy and hypocrisy? Man will always be the paragon of the animals—never that bone and hank of hair called WOMAN! Get wise to yourself, Woman! Are you jealous or something, because you were not born a man?"

Believe it or not, the above is signed by a WOMAN! And it's genuine! Jealous? Far worse than that! I'm positively ENVOIUS! Man is Nature's pet, and I envy him, not only because he gets all the breaks in life, but for all those fortunate traits of temperament and character which makes him the darling of the gods.
I envy him his gorgeous, cast-iron stomach, which seems to be able to assimilate cheese, hot-dogs, pretzels, and lobster salad at any hour of the night—and to wash them down with libations that would drive a woman to a doctor.

I envy him his perfect equilibrium, his nonchalance and his steady nerves. A woman worries about everything. But a man never worries about ANYTHING.

In envy his unquenchable optimism, his zest for adventure of everything—even his work. That's why men stay young longer than women.

I envy a man his immunity and freedom from all boredom, nagging, tiresome little details and duties of life—which he can always find some WOMAN (a wife, a stenographer or a sister) to do FOR him.

Above all, I envy man his sublime self-confidence! His imperturbable SELF-COMPLACENCY! I'd give my right eye for just a spark, a scintilla, a few crumbs of it!

A woman is always wondering if "She'll DO". But, did you ever hear a man wondering if his hat was becoming or if his nose was shiny? Or ever hear of a MAN lying awake

rights, wondering if he had made a hit with a girl—or if she would call him up, next day? He may be modest, he may even be shy—but it's harder to find a man with genuine inferiority complex than it is to find a woman with a genuine complexion! No matter what he may see when he glances in the mirror, he always has a secret conviction that there is "that something" about him, which is attractive to the women. And he never doubts that he can win a woman's love—and never fears that he may lose it, no matter what he may do.

AM I jealous, am I sore, because I was NOT born a man—to go through life blithely and light-heartedly free from all inhibitions and doubts, all social obligations and all domestic responsibilities? Oh yes, I ENVY a man—but my envy comes straight from the heart, and is born of my ADMIRATION for the Nonchalant Sex.
Not all the laws and all the modernism or feminism in the world will ever make life as sweet and thrilling for a woman as Nature has made it for her PET.

COLOURS VARY IN DIFFERENT COUNTRIES

If you take your automobile with you on your tour of the world, be sure the colour is one that won't offend the people of any particular nation. In Finland they don't permit cars of any colour other than white. Red is the colour of Communism, and the Finns are scared about their communistic neighbours next door in Russia. One American got into trouble in Java with a light cream-coloured car. White and cream are mourning colours in the Dutch East Indies, and are permitted only on hearses. A yellow car is an offense in China for the same reason.

You don't want to take a green car to either England or India. In England there is a popular superstition that green is an unlucky colour. Books and plays have been written about girls who wore green stockings with the result they never could get a man to marry them! And in India green is reserved for the use of pious Mohammedans who have made the pilgrimage to Mecca and so are entitled to wear the green turban.

Better play safe—if you're really going—take a plain black or dark blue car with you on your world tour. Of course, this information does not effect us, as we couldn't even afford a third-class passage trip and besides we haven't a car.

RAWDON PLAYOFFS

(Continued from Page One)

Box in a game is not mentioned — hence, Geo. Donald, referee was justified in permitting same. Credit is due the referees. Geo. Donald, of Menie, who is one of the most capable referees in this district, called the balls and strikes. Major Fraser, of Glen Ross, who knows baseball from every branch, made the decisions at first and second bases, while Harry Brown, of Glen Ross, one of the star players of the team from that hamlet, officiated at third base. The three officials handled the game capably, and although excitement was high among the players and spectators gave their decision with snap — and absolutely no favours. There were three or four "stars", but as every player gave his all to win, no special mention should be made. However, Jim White, who made his debut with Springbrook on Monday night, made three or four difficult fly-ball catches last night. The teams are evenly matched and whichever team wins will be a credit to the league.

The next game will be played on the local fair grounds next Monday night. The lineups were:

Hoards: Bill Jeffs, c.; Ernest Eggleton, 3b; Oscar Rennie, 2b; Ken Oddie, ss; William Hume, 1b; Don Watson, lf; Doug. Milne cf; J. Rennie, rf; C. Smith, p.

Springbrook: L. Bateman, p.; Geo. Williams, c; Murney Mason, 1b; Bill Heath, 2b; T. Ward, 3b; G. Haslett, ss; C. Burkitt, cf; Jim White, rf; B. Morton, lf.

Referees: Geo. Donald, home plate; Major Fraser, 1st and 2nd bases; H. Brown, 3b.

Saved!--By a Miracle

You remember the story of Saint Elizabeth of Hungary; how she was caught by her hard-hearted husband taking Bread to her starving people, and how a miracle changed the Bread to roses to save her from his wrath.

Bread has always been the most sustaining and nourishing of all foods. It is easily digested and quickly absorbed into the system to give refreshing strength, added endurance and a keen zest for living.

Bread is almost a perfectly balanced food and may wisely be substituted for the heavier, richer foods that nourish less and cost many times more.

WRIGHT'S BREAD

Is refreshing, nourishing food from tempting brown crust to inmost tender crumb.

WHISPERING ROCK

by JOHN LEBAR

First Installment

Old Charley Thane snapped off the ignition with a thick, square finger. Cautiously, the decrepit car rolled forward into the only vacant space on the street and stopped, its front tires snugly against the curb. The curb was painted a faded red; and across the sidewalk was the entrance of the post office. Leaning his big forearms on the wheel, the old man gazed disinterestedly at the sidewalk glaring in the morning light of the Arizona sun. Behind him clattered the street traffic, its progress occasionally interrupted by the loose-jointed ringing of the semaphore suspended above the intersection half a block away.

A pair of legs clad in khaki serge trousers wandered casually to the front of the car. Old Charley's gaze awoke. "Mornin', Chet," he said moodily, lifting his eyes to the other's face.

"Howdy, Chet," replied the policeman in a soft drawl. He glanced speculatively at the car and inquired, "How's coughin' Lena a-feelin' her out these days?"

Old Charley sighed. Leaving the car in gear, for the emergency brake had long ago retired from active service, he eased his unwieldy body to a standing position on the pavement and vindictively slammed the door. "Not so good, Buck. Not so good. Top half of the windshield fell out on the way in."

"A body'd think," remarked the policeman, nodding toward the yellowing stencil on the side of the car, "that so long as Uncle Sam's got his U. S. Mail brand on her he could afford to give the old girl a truss or somethin'."

Old Charley granted assent and stepped upon the sidewalk. "Seems like Congress just don't have the time to get 'round to anything important."

The two men remained motionless on the curb. At last the officer slightly shifted his position, then asked "Anything new over your way?"

Old Charley considered carefully. "Things are mighty dry," he admitted.

His friend of fifty years nodded. "Grass got a bad deal last winter—bad as the year I lost out."

"Bad" corroborated Old Charley. "Dry spring so far, too. Come a dry summer, and us cattlemen'll do well by the buzzards." This burst of conversation had apparently exhausted

the two of further talk.

"What do you hear from the boy?" asked the officer suddenly.

Old Charley brightened. "Found a letter when I got in last night. Will's doin' fine, he tells me. Los Angeles real estate's as good a way to make money as any, I reckon. He'll be comin' home in a month or two for quite a spell—thinks he can maybe

stay over to help me work the cattle in the fall."

"He's goin' to forget to go back some of these days."

Old Charley's eyes shone but he said cautiously, "Things might work out that way, sure enough."

The policeman looked into his friend's face. "That sign still up at the Dead Lantern?"

"Still up."

The two regarded each other for perhaps a minute. "Well," said the policeman. This single word expressed admirably that the policeman had been very much pleased to see his old friend; also, that he had enjoyed the conversation and hoped to see Thane again soon. Old Charley made complete reciprocation with a nod, and left the glaring sidewalk for the somber light of the post office.

The place was crowded. Seven of the crowd had been in Arizona for more than ten years and each of those greeted the old man before he had disappeared behind the door which led through the rear wall of post boxes. One person thought it necessary to shake hands with Old Charley and this man stopped him with, "Hello, Sheriff!" Whereupon an elderly couple at the money order window exchanged a significant glance, and an old-timer—who never lost opportunity to lament the passing of the good old times—opined to a neighbour that, when Charley Thane was sheriff of this here county, sheriffs had a heap more to do with posess than foreclosure sales.

When Old Charley returned to the street, carrying a large government mail sack weighted with two letters and a post card, a young couple and a five-year-old boy were standing uncertainly in the strip of shade close to his car. Discomfort and bewilderment enveloped the three as one person. The little boy was tightly moored to his mother's forefinger and the hand of the husband was very near that of his wife. Old Charley's lip bunched slightly with his thought of "Bahaw, now!" as he noted the face of the slender young man; he had seen many such faces new to Arizona.

"Are you Ol—Mr.—Mr.—" the young man paused and looked toward the girl at his side.

"Thane," she supplied, "are you Mr. Thane?"

Old Charley smiled, his eyes on the girl. He observed to himself that she was pretty, high toned, and mighty warm. "Yes," he said aloud, "I am Old Charley Thane."

A tension relaxed. "We were told by a police officer," said the young man hesitantly, as though expecting his words to be cut short at any moment by a cough, "that you were going to a place called San Jorge, carrying the mail. We were told that you occasionally carry passengers."

Old Charley nodded. "Yes, I can take you out that way. Where 'bout are you going? San Jorge is a pretty big valley."

The husband laughed shortly. "We are trying to get to a farm and the post office address is San Jorge."

"A ranch dear, not a farm," said the girl, "a cow ranch—the Dead Lantern ranch."

The eyes of Old Charley narrowed incredulously. He hesitated for a moment. "Are you real certain it's the Dead Lantern you want to go to?"

The young man glanced inquiringly at his wife, then at Old Charley. "Why, yes—there is such a ranch isn't there?"

"Yes, there's a Dead Lantern all right."

"The ranch we want to visit is called the Dead Lantern and the address was San Jorge," spoke the girl; "it was formerly owned by Mr. Harry Grey and a Mr. Snively. Mr. Grey died recently. Do you know of the place and can you take us there?"

"I go by the front gate, Ma'm."

"Excellent. Perhaps if we start soon we shall be in time for lunch. We can send in for our luggage later this afternoon, I suppose."

Old Charley did not miss the tone in which this was spoken. Ah, he did not miss the fact that she regarded him as a taxi driver. "If you want to go," he supplied, "I'd be glad to take you, but it's eighty-five miles to the Dead Lantern and the road's nothing to brag on. You can get them to put up a lunch for you in that ice cream parlour over there. And if we can get your baggage on this car we'd better do it. There's no machine on the Dead Lantern and I only make one trip a week."

"Eighty-five miles?" The girl caught

her breath. "Surely there must be a train—isn't there a town nearer than this?"

"No'm. There's a spur track from Mexico that runs about thirty miles from the ranch but they only use it at cattle shipping time."

The young woman looked from her husband to Old Charley. "Do you mean that this ranch is eighty-five miles out in the wilderness and there isn't even a machine on the place?" Her voice was tremulous.

"That's about the size of it, Ma'm."

"But how do they get to town?"

"They don't come in so very often."

"Kenneth—" The girl appealed to her husband with questioning eyes. For a long moment the two young people faced each other.

"There's something about all this I like though," said Kenneth.

Then with a shrug of helplessness the husband turned to Old Charley. "We didn't understand how it would be. I expect we'd better do as you suggest. We only have a small trunk and some bags—they're still at the station."

Old Charley nodded cheerfully. "Fine. If you give me the checks I can be getting the stuff loaded while you folks see about your lunches. I'm sorry I can't take you any nearer the ranch house than the gate, though. Are they expecting you?"

"Oh, yes. We wrote Mr. Snively some time ago that we intended to arrive today. It can't be so very far from the gate to the house, can it?"

"About five miles, I should judge."

"Good Lord!" The young man glanced curiously at the people on the sidewalk. "Well, then, I suppose we'd better telephone Mr. Snively and make sure that he will meet us. We've already tried to find his name in the directory."

Old Charley shook his head. "The line stops about two miles after you leave town."

"No telephone?" The young man's brows puckered. "No-telephone—" he spoke slowly; the idea was quite new to him. "But how do people—" he paused and became more thoughtful.

"Well, but say, Snively knows all this. Does he know that you are the only means of transportation and that—do you have a regular day for making this trip?"

"Every Saturday."

"Well, then," he continued, pleased with his deductions, "Mr. Snively knows that we're coming on the same day you bring the mail and I'm sure he'll meet us. We're rather important visitors, you know," he finished with a half-embarrassed smile.

By the time Old Charley had returned with a small steamer trunk

lashed on the rack and three bags and a guitar case on the floor of the car, the little family was waiting.

The family rode in the back seat, crowded together in recognition of the strangeness of their surroundings. Shortly after the outskirts of the town had been passed, Old Charley heard the young man's voice raised with forced cheerfulness. "Were you ever on an unpared road before, Ruth? I don't believe I ever was."

For a long time this scrap of conversation lingered in the mind of the old man.

As the miles crawled by, Old Charley settled into a physical and spiritual comfort. Although he never thought about it he always felt so, after the town had ebbed away and the desert flowed in.

By now all trace of man-made things had vanished. Only the road was left, lying straight to the southwest like a thin wedge, its point in the range of distant mountains which looked as though they had been recently thrown along the horizon by a

flow. On either side of the desert lay—a sky-bound ocean of gray green and weathered brown. Far to the right jutted a single butte—craggy, barren, utterly alone. The air, thin, unbelievably clear, was a thing of blinding light and quivering heat—a parched thing which drew moisture from the lips and made the skin like dry paper.

A fence of three strands of barbed wire joined the road from the direction of the butte and followed mile after mile. Then came a gate, and fastened to a post near-by a wooden box with a tin can on top. Old Charley turned from the road and stopped with easy reaching distance of the box, and into it from the mail sack he transferred the post card.

A few miles farther on Old Charley turned to the side of the road and stopped the engine. "Hungry?" he asked, facing around.

"Do you want to eat here?" asked the girl, as she glanced about with eyes narrowed to slits against the brilliant light. "Can't we go on until we come to a stream or a tree—anywhere out of this awful heat?"

"I'm mighty sorry," replied the old man, conscious of a certain quivering under the pettishness of her voice, "but I'm afraid this is the best we can do. There ain't no trees on this road—neptin' a mesquite or two—and a stream's plumb impossible. If we kept on in this direction the first water we'd strike would be the Gulf of California."

The girl shrank back in the seat; her eyes darted over the desolate landscape as though imploring it to produce a tree, a house, an animal—anything familiar. She said nothing.

"Well, I can stand a little food," remarked the young man cheerfully.

"and Dave here, has already started on the lunch." He spoke to his wife, as Old Charley busied himself with a package of sandwiches. "We're finding things a deal different than we expected, aren't we Ruth? There's something about all this I like though—" he swept his arm toward the skyline; then opening the door, stepped out and stood beside the car. He faced the distant butte, now slightly behind them. "You know, this air is positively wonderful!" He tried to take a deep breath into his ruined lungs, but choked, and it was a full minute before he could speak again. "Anyway," he grinned weakly, "this air was certainly made to breathe."

NEWS OF INTEREST FOR BUSY FARMERS

Barn Fires

The Ontario Fire Marshall's records show that more barns are destroyed by fire originating from spontaneous combustion in hay than from any other cause except lightning in unroofed barns.

Harvest weather conditions in 1932 were so dangerous that more barn fires than ever were expected. Instead there were 278 fewer barns burned in Ontario and a decrease of 17 per cent in the number of fires known to be caused by spontaneous combustion.

Good Type Feeder Cattle

Scarce, Says G. H. Duncan "My observations of the past week," said Garnet H. Duncan, livestock investigator, Ontario Marketing Board, "lead me to believe that there is a very definite market awaiting the farmer who is willing to produce well-bred feeder cattle."

Bearing out his contention, Mr. Duncan said that, while travelling through Western Ontario lately, he noticed a distressing lack of good type feeder cattle. This is the case to such an extent that the proper type of feeder cattle is bringing a price equivalent to, and in some instances even higher than that offered for the finished export animal.

He added that also there appears to be a scarcity of hand weight butcher cattle, for the local trade.

Inspection of Ontario Turnips

Stricter regulations will be enforced in the marketing of Ontario turnips and all carlots must come under Government inspection. There is a growing trade from the province to the United States, mostly from limestone districts, that produce a high quality turnip. Last year this amounted to over 4,000 carloads or 2,000,000 bushels.

The Marketing Board became particularly interested in the industry as it was felt farmers were getting a low price for this crop and that something might be done to secure more satisfactory returns. Now official grading has been adopted whereby buyers may be assured that they are getting a uniformly high quality product. Receive More for Produce

As Result of Conference

The effect on Canadian agricultural trade of preferences granted by Great Britain, at the Imperial Conference, was not readily appreciated when sterling was depreciated, says S. H. Symons, Departmental Statistician.

Since January of this year, how-

ever, and more particularly in the last month, the price of sterling in terms of Canadian dollars has shown an almost sensational appreciation. From January 9 of this year to July 10, sterling rose from \$3.76 to \$4.98. This means that producers in Ontario receive approximately one-third more for their produce, without causing the British consumer any increase in price. Canadian producers should appreciate the advantage they possess in the British market, made even more profitable by this latest rise in sterling; and every effort must be made to establish a reputation of grades and regularity of supply for Canadian farm products. These are the two essential requirements demanded by British importers.

Ontario Storage Poultry

Below Five Year Average

Stocks of storage poultry are cleaning up quite well, states T. A. Benson, Federal Department of Agriculture, who is senior poultry promoter in Ontario. There is less poultry in cold storage than at this time last year and these stocks are below the five year average. This is particularly true of chickens and the prospects for a fair market for chickens are good.

Eastern Canada Hay Crop

According to reports received to July 1st, a short hay crop in Eastern Ontario and Quebec this year is indicated.

This will be of particular interest to the market hay trade which in former years has drawn large supplies from the districts where the shortage will occur this year. It is estimated that the Quebec crop will not exceed sixty per cent of last year's crop, and in Eastern Ontario the crop is estimated at from twenty-five to fifty per cent below normal.

Use of Sulphur

Sulphur would seem to have but little connection with horticulture, and yet there are many uses for it in the garden, declares J. F. Clark, Horticultural Lecturer, Agricultural Societies Branch. It is particularly valuable in preventing mildew and black spot on roses. It is most efficient when combined with arsenate of lead, nine parts of sulphur to one of the poison, making what is commonly called the Massey dust. This preparation, or sulphur alone, is also helpful in protecting phlox and delphiniums from attacks of mildew. If sweet peas show signs of mildew, they, too, should be dusted with sulphur. Mixed with arsenate of lead, it is useful for dusting on cucumbers and melons to keep away striped beetles and flea beetles. It is important, however, that the dust should be the very finest ground kind obtained at the seed store and not the coarse sulphur sold in drug stores.

Crops Hit By Drought

Lack of sufficient rain during the months of June and July has seriously injured crop prospects over the greater part of Ontario, according to reports received from agricultural representatives. Nevertheless we hear from Bruce County that a wonderful crop of wheat has been cut and that hay was one of the largest crops in years and in almost perfect condition.

but spring sown grains as in other counties have suffered materially from lack of moisture. Peel County also had a bumper crop of high quality hay, but early potatoes and raspberries were light crops due to lack of rain while alfalfa seed crop was practically a failure due to non-setting.

In North Simcoe livestock of all kinds on many farms is showing the effect of a short pasture supply. In Brant County raspberries were a short crop, cherries fairly good and currants and gooseberries fair. Root crops there as in other districts are not making very great growth. Essex has about 50,000 acres of wheat and the yield will be from 15 to 30 bushels per acre with old fields going as high as 40. Pastures are drying up there and pretty well gone except alfalfa, 15,000 acres of the latter saving the day for many a dairyman. Essex also grows 500 acres of early melons and this crop is coming along fine. The corn crop is very uneven, while potato yields are disappointingly small. Lambton and other counties in Western and Southern Ontario, and Hastings and other counties in Eastern Ontario, also report that crops will fall below the average of the past few years.

Trenton — Earl Arnold Richards, aged 26, son of Mr. and Mrs. Peter Richards, Murray Township, was drowned in the Bay of Quinte, Sunday afternoon about 2 o'clock. Richards was employed on the relief project at the local air base and was swimming off a raft. Nearly fifty other swimmers were at the scene. It is believed he was seized with cramps and sank in about ten feet of water. Artificial respiration failed after nearly two hours. Coroner Dr. W. Crowe was called, and after investigation, decided an inquest was unnecessary.

Bridgeport, Conn. — After conquering the North Atlantic and flying within sixty miles of their goal, the British air aces, Amy and Jim Mollison, crashed their black cabin bi-plane at the airfield near here Sunday night, but escaped with slight injuries. The couple, who had set out from Pendine, Wales, Saturday, in an effort to fly non-stop to New York, circled the airport five times in an effort to find a safe landing place. The airport is in the Village of Stratford, near here. Captain Mollison told a doctor at the Bridgeport Hospital that he had run short of fuel while coming down the coast.

Trenton — William Potts, treasurer of the town of Trenton, received a bad gash in his right leg in a motor accident just west of the town limits on Saturday about 9 p.m. Dr. Farncombe put three stitches in his leg to close the wound. Potts was a passenger with James Reddick, also of Trenton and was driving west when a car driven by Peter A. Morrison, of Glendennan Ave., Toronto, travelling in the opposite direction, struck the Reddick car, doing considerable damage to both machines. The others escaped injury. After police investigation Morrison was charged with reckless driving.

Bancroft — Burned beyond human recognition three small charred bodies were all that was left to tell the tale of a tragedy, following a fire which destroyed the home of Thos. Woodmore on Sunday night in Dungan Township, and took for its toll his two sons, Ronald, aged 9, and Donald, aged 8, and their cousin, a son of William Grant, MacArthur's Mills, aged 8 years. The house which was of the log cabin type, was hit by lightning about 10:30 o'clock Sunday night and before the adult members of the household could reach the rear room in which the boys were sleeping the entire inner part of the building was a mass of flames and it was only after being severely burned that Mr. Woodmore and two other adult relatives managed blindly to stumble from the inferno. The log cabin was completely burned to the ground and only after many unfruitful attempts had been made were the charred bodies finally discovered all huddled together in one corner of the room, where it is thought the boys had covered before the flames. The bodies were practically burned beyond recognition and no inquest will be held, according to the information handed out by the provincial police.

New York — A special despatch from London, Eng., says: Newfoundland will temporarily lose her status as a self-governing colony if the British government approves the report of Lord Amulree's commission, which was recently sent to investigate the island's financial plight. The report, which is now in the hands of Dominion Secretary Thomas, is understood to propose drastic action without precedent in modern British history. It recommends that the island's finances be put under expert non-political control as a condition to arranging a big reconstruction loan. The report goes still further in proposing that the whole administration of the island should be handed over for a time to a nominated commission empowered to recognize the machinery of government, collect taxes and conduct the affairs of the colony and administrative order. This means in effect that Newfoundlanders would lose their self-governing institutions until the British were able to put the island on its feet.

BRIDE AND GROOM HONOURED

On Monday evening, July 17th, a number of friends and neighbours met at the home of Mr. and Mrs. A. C. Sine in honour of Mr. and Mrs. Delbert Sine. Those assembled were entertained in the early part of the evening by the music of the violin, piano and bajo. Mr. Mellow presented a contest which was to be answered by something pertaining to a wedding. Mr. Ivan Saries then read the following address and the couple were presented with two beautiful chairs and a table.

Harold, Ontario,
July 17th, 1933.

To Mr. and Mrs. Delbert Sine, —
We, your friends and neighbours, have taken this opportunity of assembling at your parents' home to extend our earnest wishes and sincere congratulations for a long and happy married life.

Mrs. Sine, we heartily welcome you to this community where we trust you will find many true friends after you are better acquainted.

Delbert, you have been born and brought up with many of us. During that time we have learned to appreciate your willingness and cheerful manner.

It is our hope and sincere trust that you and Mrs. Sine will reside in our community and take an active part in all our activities. We give these gifts as a slight token of the high

esteem in which you are held in the community. May these gifts remind you during your married life of your old friends. Again we wish you sincere congratulations for a happy married life.

Signed on behalf of the Community — Kenneth Mumby, Ivan Saries, Murray Johnston, Lorne Hagermif, Thomas Clements.

Both Mr. and Mrs. Sine replied, thanking their friends for the beautiful gifts and extending to one and all invitations to visit them in their home. The ladies served a bountiful lunch, consisting of sandwiches, cake and tea.

SINE — BENTON

A charming wedding took place in historic Gordon Church, St. Elmo, at high noon on Tuesday, July 11th, when the Rev. W. B. McCallum officiated at the marriage of Inez Jane, only daughter of Mr. and Mrs. W. R. Benton and Mr. Grant Sine, son of Mr. and Mrs. George Sine, of Harold. Every seat in the beautifully decorated Church was taken by relatives and friends of the contracting parties who were unattended.

To the strains of Lohengrin's wedding March, played by Miss Bernice Mooney, of North Bay, who presided at the organ, the bride entered the church on the arm of her father. She was a charming picture of girlish loveliness. Her gown was of white organdie on princess lines and she wore a white picture hat and carried a bouquet of white carnations and baby's breath. Mr. John McLennan and Mr. Hugh Cameron were ushers, while the witnesses were Miss Ethel Campbell and James Benton, brother of the bride. During the signing of the register, Miss Kay McKee sang very sweetly "Because", Miss Mooney acting as accompanist. At the conclusion of the ceremony the bridal party, accompanied by some thirty guests motored to the Cornwallis Hotel in Cornwall, where dinner was served and a reception held. The honeymoon is being spent in Montreal, Bermuda and other points in the West Indies. Going away the bride wore beige embroidered triple crepe with accessories and blue fox fur. Mr. and Mrs. Sine will take up residence in Hastings, Ont., where the groom is principal of the Public School. Gleggarians unite in extending congratulations and best wishes to the happy couple.

PETHERICK'S WIN IN INITIAL GAME

Pitching championship ball Grant Kerr hurled the Petherick's team to the first win of the Seymour League play-offs on Saturday evening, the northern team winning over Seymour West by a score of 18 to 9. Four men to first, one run, one hit was the total of the Westerners work at bat for five innings and the run was the result of an error at third. Following McArthur's triple to open the second, Kerr set them back in order until the fifth when Fraser was safe on an error. In the last two frames the Petherick's hurler eased off with a safe lead and a lucky break in the seventh allowed the losers five runs after the side should have been retired. Behind Kerr's pitching the winners fielded well, all the work being done by the infield as the outfield had nothing but ground balls to handle. At bat the Northern gang were stronger than usual even though their usual slugging outfield failed to collect more than four hits among them. G. Petherick, Watson, G. Kerr and Anderson counted three runs each with Kerr getting three safe singles and Anderson four including one homer. Melklejohn and G. Petherick also connected for homers. Art Petherick played his best game of the season behind the platter, while Barnum and G. Petherick were exceptionally good in the infield. McArthur was the only West side batter to get three hits while he with McCulloch and Kelleher scored two runs each. Rutherford pulled the flogging sensation of the evening with a running catch of Watson's fly over the infield to end the fifth. Each pitcher struck out seven batters, Kerr walking two and Anderson three. The latter marred a good performance by slipshod work in the final frame as he delayed for darkness to halt the game.

The next game of the series will be Saturday, July 29th. The game is called for 6.45 and Umpire Farrell orders a start at 7 o'clock or the game will be forfeited by the team not ready to start.

The line-ups were:
Petherick's — G. Kerr, P. A. Petherick, c; Barnum, 1b; G. Petherick, 2b; Anderson, 3b; Watson, ss; D. Kerr, 1b; B. Fry and Melklejohn, cf; F. Fry

cf. Seymour West — Anderson, P. Kel-
leher, c; Chadwick, 1b; Fraser, 2b;
McArthur, 3b; McCulloch, ss; Hoo-
per, lf; Rutherford, cf; Russell, rf.
Score by innings — R. H. E.

C. C. F. REVEALS AIM FOR NATION

Regina — The Co-operative Commonwealth Federation's plan for its new Dominion of Canada and how it aims to achieve reforms was made public here last week.

In a 4,000-word manifesto issued on the opening of the first national convention of the organization last Wednesday afternoon, the C.C.F. disclosed its program for a national planning commission to guide the nation in its transition, boards of manage-

ment for control of public utilities and other social enterprises, and set forth the changes desired.

Under the new regime which the organization hopes to establish after the next Federal election, when it will seek governmental power, banking and insurance would become socialized and gradually socialization would be extended to industry. First of the industries to come under public control would be transportation, communication and electric power production, to be followed by mining, pulp and paper, distribution of milk, bread, coal and gasoline.

New policies for foreign trade and external affairs would be established and the system of taxation would be radically altered. Throughout it all was sounded a war on capitalism with the declaration "No C.C.F. Government will rest content until it has eradicated capitalism."

"In the type of economy that we en-

visaged," declared the manifesto, "the need of taxation, as we now understand it, will have largely disappeared. It will nevertheless be essential during the transition period, to use the taxing powers along with other methods, as a means for providing for the socialization of industry and for extending the benefits of increased social services."

"At the present time capitalist governments in Canada raise a large proportion of their revenues from such levies as customs duties and sales taxes, the main burden of which falls upon the masses. In place of such taxes upon articles of general consumption, we propose a drastic extension of income, corporation and inheritance taxes steeply graduated according to ability to pay. Full publicity must be given to income tax payments and our tax collection system must be brought up to the English standard of efficiency."

THE LATE GEO. McCUTCHEON

A well-known resident of this district, in the person of the late Geo. V. McCutcheon, passed away at his late residence, Mill Street east, at 12.30 o'clock Tuesday morning, aged 72 years, 1 month and 11 days. The deceased had been in ill health for some time and last Thursday morning suffered a paralytic stroke. He gradually became worse. His daughter, Miss Elizabeth McCutcheon, R. N., of Toronto, was summoned to his bedside. However, he failed to rally from the ravages of the dreaded malady, and his sudden death came as a great shock to his many friends.

The deceased was born in Thurlow Township and was the son of the late John McCutcheon and Elizabeth Denike, descendants of prominent United Empire Loyalists who settled in Upper Canada many years ago. When very small, Mr. McCutcheon moved with his parents to a farm in the 9th concession of Sidney, where he had resided for 64 years. About five years ago he retired to Stirling, where he has resided ever since. He was a loyal member of Stirling United Church, and was very prominent all his life in Sunday School work. Surviving are his widow, formerly Miss Mary Cosby, of Oak Hill; one son, Arnold, of Belleville, employed at the government excise office, Corbyville; two daughters, Mrs. Melville Gibson, of Stirling, and Elizabeth McCutcheon, R.N., who is at present a nurse at Wellesley Hospital, Toronto. One son, Walter, predeceased his father seven years ago. The funeral was held from his late residence this afternoon (Thursday). Service was conducted by Rev. E. W. Rowland, assisted by Rev. J. A. Koffend. The remains were interred in Stirling cemetery.

The pallbearers were his son, Arnold McCutcheon; son-in-law, Melville Gibson, and four nephews, Fred McCutcheon, James Linn, Frank Cosby and Charles Hoard.

THE LATE WM. ASHE

The death occurred on Tuesday evening, July 18th, of one of Huntingdon township's prominent life-long residents when William Ashe, of the 12th concession, passed away. The deceased had been in failing health for some months, which developed into severe trouble a month ago. Mr. Ashe was an active farmer and was 65 years of age. He was a member of the White Lake United Church, also a member of the Orange Order, and
